Such sums shall be made available for expenditure for public transportation projects in areas other than urbanized areas on the basis of a formula under which the Governor of each State will be entitled to receive an amount equal to the total amount so apportioned, multiplied by the ratio which the population of areas other than urbanized areas in such State, as designated by the Bureau of the Census, bears to the total population of areas other than urbanized areas in all the States as shown by the latest available Federal census. Appropriations pursuant to the authority of this section may be made in an appropriation Act for a fiscal year preceding the fiscal year in which the appropriation is to be available for obligation.

"(c) Sums apportioned under this subsection shall be available for obligation by the Governor for a period of three years following the close of the fiscal year for which the sums are apportioned and any amounts remaining unobligated at the end of such period shall be reapportioned among the States for the succeeding fiscal year. TITLE III—COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

COMPREHENSIVE SERVICES

SEC. 301. The Rehabilitation Act of 1973, as amended by section 201 of this Act, is further amended by adding at the end the following new title: *Ante*, p. 2989.

"TITLE VII—COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

"PART A—COMPREHENSIVE SERVICES

"PURPOSE

Grants. 29 USC 796. 29 USC 720.

"SEC. 701. The purpose of this title is to authorize grants (supplementary to grants for vocational rehabilitation services under title I) to assist States in providing comprehensive services for independent living designed to meet the current and future needs of individuals whose disabilities are so severe that they do not presently have the potential for employment but may benefit from vocational rehabilitation services which will enable them to live and function independently.

"ELIGIBILITY

29 USC 796a.

"SEC. 702. Services may be provided under this title to any individual whose ability to engage or continue in employment, or whose ability to function independently in his family or community, is so limited by the severity of his disability that vocational or comprehensive rehabilitation services appreciably more costly and of appreciably greater duration than those vocational or comprehensive rehabilitation services required for the rehabilitation of a handicapped individual are required to improve significantly either his ability to engage in employment or his ability to function independently in his family or community. Priority of services under this part shall be given to individuals not served by other provisions of this Act.

"Comprehensive services for independent living." 29 USC 720.

"(b) For purposes of this title, the term "comprehensive services for independent living" means any appropriate vocational rehabilitation service (as defined under title I of this Act) and any other service that will enhance the ability of a handicapped individual to live independently and function within his family and community and, if appropriate, secure and maintain appropriate employment. Such services may include any of the following: counseling services, including psychological, psychotherapeutic, and related services; housing incidental to the purpose of this section (including appropriate accommodations to and modifications of any space to serve handicapped individuals); appropriate job placement services; transportation; attendant care; physical rehabilitation; therapeutic treatment; needed prostheses and other appliances and devices; health maintenance; recreational activities; services for children of preschool age, including physical therapy, development of language and communication skills, and child development services; and appropriate preventive services to decrease the needs of individuals assisted under the program for similar services in the future.

"ALLOTMENTS

29 USC 796b.

"SEC. 703. (a) (1) From sums made available for each fiscal year for the purposes of allotments under this subpart, each State whose comprehensive services plan has been approved under section 705 shall be entitled to an allotment of an amount bearing the same ratio to such sums as the population of the State bears to the population of all States. Except as provided in paragraph (2), the allotment to any State under the preceding sentence shall be not less than $200,000 or one-third of 1 percent of the sums made available for the fiscal year for which the allotment is made, whichever is greater, and the allotment of any State under this section for any fiscal year which is less than $200,000 or one-third of 1 percent of such sums shall be increased to the greater of the two amounts.

"(2) For purposes of this subsection, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands shall not be considered as States and shall each be allotted not less than one-eighth of 1 percent of the amounts made available for purposes of this subpart for the fiscal year for which the allotment is made.

"(b) Amounts necessary to increase the allotments of States under paragraph (1) or to provide allotments under paragraph (2) shall be derived by proportionately reducing the allotments of the remaining States under paragraph (1), but with such adjustments as may be necessary to prevent the allotment of any such remaining States from being thereby reduced to less than the greater of $200,000 or one-third of 1 percent of the sums made available for purposes of this subpart for the fiscal year for which the allotment is made.

"(c) Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be utilized by such State in carrying out the purposes of this title, he shall make such amount available for carrying out the purposes of this section to one or more of the States which he determines will be able to use additional amounts during such year for carrying out such purposes. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purposes of this section, be regarded as an increase in the State's allotment (as determined under the preceding provisions of this section) for such year.

"PAYMENTS TO STATES FROM ALLOTMENTS

29 USC 796c.

"SEC. 704. (a) From each State's allotment for a fiscal year under section 703, the State shall be paid the Federal share of the expenditures incurred during such year under its State plan approved under section 705. Such payments may be made (after necessary adjustments on account of previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments and on such conditions as the Commissioner may determine.

Federal share.

"(b)(1) The Federal share with respect to any State for any fiscal year shall be 90 percent of the expenditures incurred by the State during such year under its State plan approved under section 705.

"(7) provide assurances that handicapped individuals shall have a substantial role in developing the State plan;

"(8) provide assurances that not less than 20 percent of the funds received by a State under this part shall be used to make grants to local public agencies and private nonprofit organizations for the conduct of independent living services except that the Commissioner may waive the requirement of this clause if the Commissioner determines, on the basis of evidence submitted by the State, that such State cannot feasibly use the funds required to be expended under this section for the purposes of this clause; and

"(9) contain such other information, and be submitted in such form and in accordance with such procedures, as the Commissioner may require.

Health hazard assessment.

(b) Within one year from the date of the enactment of this Act, the Secretary shall assess the potential health hazard to the public from the residual radioactive materials at designated processing sites. Based upon such assessment, the Secretary shall, within such one year period, establish priorities for carrying out remedial action at each such site. In establishing such priorities, the Secretary shall rely primarily on the advice of the Administrator.

Notification.

(c) Within thirty days after making designations of processing sites and establishing the priorities for such sites under this section, the Secretary shall notify the Governor of each affected State, and, where appropriate, the Indian tribes and the Secretary of the Interior.

(d) The designations made, and priorities established, by the Secretary under this section shall be final and not be subject to judicial review.

(e)(1) The designation of processing sites within one year after enactment under this section shall include, to the maximum extent practicable, the areas referred to in section 101(6)(B).

(2) Notwithstanding the one year limitation contained in this section, the Secretary may, after such one year period, include any area described in section 101(6)(B) as part of a processing site designated under this section if he determines such inclusion to be appropriate to carry out the purposes of this title.

STATE COOPERATIVE AGREEMENTS

42 USC 7913.

SEC. 103. (a) After notifying a State of the designation referred to in section 102 of this title, the Secretary subject to section 113, is authorized to enter into cooperative agreements with such State to perform remedial actions at each designated processing site in such State (other than a site located on Indian lands referred to in section 105). The Secretary shall, to the greatest extent practicable, enter into such agreements and carry out such remedial actions in accordance with the priorities established by him under section 102. The Secretary shall commence preparations for cooperative agreements with respect to each designated processing site as promptly as practicable following the designation of each site.

Terms and Conditions.

(b) Each cooperative agreement under this section shall contain such terms and conditions as the Secretary deems appropriate and consistent with the purposes of this Act, including, but not limited

to, a limitation on the use of Federal assistance to those costs which are directly required to complete the remedial action selected pursuant to section 108.

Written consent.

(c)(1) Except where the State is required to acquire the processing site as provided in subsection (a) of section 104, each cooperative agreement with a State under section 103 shall provide that the State shall obtain, in a form prescribed by the Secretary, written consent from any person holding any record interest in the designated processing site for the Secretary or any person designated by him to perform remedial action at such site.

Waiver.

(2) Such written consent shall include a waiver by each such person on behalf of himself, his heirs, successors, and assigns—

(A) releasing the United States of any liability or claim thereof by such person, his heirs, successors, and assigns concerning such remedial action, and

(B) holding the United States harmless against any claim by such person on behalf of himself, his heirs, successors, or assigns arising out of the performance of any such remedial action.

(d) Each cooperative agreement under this section shall require the State to assure that the Secretary, the Commission, and the Administrator and their authorized representatives have a permanent right of entry at any time to inspect the processing site and the site provided pursuant to section 104(b)(1) in furtherance of the provisions of this title and to carry out such agreement and enforce this Act and any rules prescribed under this Act. Such right of entry under this section or section 106 into an area described in section 101(6)(B) shall terminate on completion of the remedial action, as determined by the Secretary.

(e) Each agreement under this section shall take effect only upon the concurrence of the Commission with the terms and conditions thereof.

(f) The Secretary may, in any cooperative agreement entered into under this section or section 105, provide for reimbursement of the actual costs, as determined by the Secretary, of any remedial action performed with respect to so much of a designated processing site as is described in section 101(6)(B). Such reimbursement shall be made only to a property owner of record at the time such remedial action was undertaken and only with respect to costs incurred by such property owner. No such reimbursement may be made unless—

(1) such remedial action was completed prior to enactment of this Act, and unless the application for such reimbursement was filed by such owner within one year after an agreement under this section or section 105 is approved by the Secretary and the Commission, and

(2) the Secretary is satisfied that such action adequately achieves the purposes of this Act with respect to the site concerned and is consistent with the standards established by the Administrator pursuant to section 275(a) of the Atomic Energy Act of 1954.

Post, p. 3039.

ACQUISITION AND DISPOSITION OF LANDS AND MATERIALS

42 USC 7914.

SEC. 104. (a) Each cooperative agreement under section 103 shall require the State, where determined appropriate by the Secretary with the concurrence of the Commission, to acquire any designated processing site, including where appropriate any interest therein. In determining whether to require the State to acquire a designated processing site or interest therein, consideration shall be given to the prevention of windfall profits.

Residual radioactive material, removal.

(b)(1) If the Secretary with the concurrence of the Commission determines that removal of residual radioactive material from a processing site is appropriate, the cooperative agreement shall provide that the State shall acquire land (including, where appropriate, any interest therein) to be used as a site for the permanent disposition and stabilization of such residual radioactive materials in a safe and environmentally sound manner.

(2) Acquisition by the State shall not be required under this subsection if a site located on land controlled by the Secretary or made available by the Secretary of the Interior pursuant to section 106 (a)(2) is designated by the Secretary, with the concurrence of the Commission, for such disposition and stabilization.

(c) No State shall be required under subsection (a) or (b) to acquire any real property or improvement outside the boundaries of—

(1) that portion of the processing site which is described in section 101(6)(A), and

(2) the site used for disposition of the residual radioactive materials.

Notification.

Rules and regulations.

(d) In the case of each processing site designated under this title other than a site designated on Indian land, the State shall take such action as may be necessary, and pursuant to regulations of the Secretary under this subsection, to assure that any person who purchases such a processing site after the removal of radioactive materials from such site shall be notified in an appropriate manner prior to such purchase, of the nature and extent of residual radioactive materials removed from the site, including notice of the date when such action took place, and the condition of such site after such action. If the State is the owner of such site, the State shall so notify any prospective purchaser before entering into a contract, option, or other arrangement to sell or otherwise dispose of such site. The Secretary shall issue appropriate rules and regulations to require notice in the local land records of the residual radioactive materials which were located at any processing site and notice of the nature and extent of residual radioactive materials removed from the site, including notice of the date when such action took place.

(e)(1) The terms and conditions of any cooperative agreement with a State under section 103 shall provide that in the case of any lands or interests therein acquired by the State pursuant to subsection (a), the State, with the concurrence of the Secretary and the Commission, may—

(A) sell such lands and interests,

(B) permanently retain such land and interests in lands (or donate such lands and interests therein to another governmental entity within such State) for permanent use by such State or entity solely for park, recreational, or other public purposes, or

(C) transfer such lands and interests to the United States as provided in subsection (f).

No lands may be sold under subparagraph (A) without the consent of the Secretary and the Commission. No site may be sold under subparagraph (A) or retained under subparagraph (B) if such site is used for the disposition of residual radioactive materials.

(2) Before offering for sale any lands and interests therein which comprise a processing site, the State shall offer to sell such lands and interests at their fair market value to the person from whom the State acquired them.

(f)(1) Each agreement under section 103 shall provide that title to—

(A) the residual radioactive materials subject to the agreement, and

(B) any lands and interests therein which have been acquired by the State, under subsection (a) or (b), for the disposition of such materials,

shall be transferred by the State to the Secretary when the Secretary (with the concurrence of the Commission) determines that remedial action is completed in accordance with the requirements imposed pursuant to this title. No payment shall be made in connection with the transfer of such property from funds appropriated for purposes of this Act other than payments for any administrative and legal costs incurred in carrying out such transfer.

(2) Custody of any property transferred to the United States under this subsection shall be assumed by the Secretary or such Federal agency as the President may designate. Notwithstanding any other provision of law, upon completion of the remedial action program authorized by this title, such property and minerals shall be maintained pursuant to a license issued by the Commission in such manner as will protect the public health, safety, and the environment. The Commission may, pursuant to such license or by rule or order, require the Secretary or other Federal agency having custody of such property and minerals to undertake such monitoring, maintenance, and emergency measures necessary to protect public health and safety and other actions as the Commission deems necessary to comply with the standards of section 275(a) of the Atomic Energy Act of 1954. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring and emergency measures under this subsection, but shall take no other action pursuant to such license, rule or order with respect to such property and minerals unless expressly authorized by Congress after the date of enactment of this Act. The United States shall not transfer title to property or interest therein acquired under this subsection to any person or State, except as provided in subsection (h).

Post, p. 3039.

(g) Each agreement under section 103 which permits any sale described in subsection (e)(1)(A) shall provide for the prompt reimbursement to the Secretary from the proceeds of such sale. Such reimbursement shall be in an amount equal to the lesser of—

(1) that portion of the fair market value of the lands or interests therein which bears the same ratio to such fair market value as the Federal share of the costs of acquisition by the State to such lands or interest therein bears to the total cost of such acquisition, or

(2) the total amount paid by the Secretary with respect to such acquisition.

Fair market value.

The fair market value of such lands or interest shall be determined by the Secretary as of the date of the sale by the State. Any amounts received by the Secretary under this title shall be deposited in the Treasury of the United States as miscellaneous receipts.

(h) No provision of any agreement under section 103 shall prohibit the Secretary of the Interior, with the concurrence of the Secretary of Energy and the Commission, from disposing of any subsurface mineral rights by sale or lease (in accordance with laws of the United States applicable to the sale, lease, or other disposal of such rights) which are associated with land on which residual radioactive materials are disposed and which are transferred to the United States as required under this section if the Secretary of the Interior takes such action as the Commission deems necessary pursuant to a license issued by the Commission to assure that the residual radioactive materials will not be disturbed by reason of any activity carried on following such disposition. If any such materials are disturbed by any such activity, the Secretary of the Interior shall insure, prior to the disposition of the minerals, that such materials will be restored to a safe and environmentally sound condition as determined by the Commission, and that the costs of such restoration will be borne by the person acquiring such rights from the Secretary of the Interior or from his successor or assign.

INDIAN TRIBE COOPERATIVE AGREEMENTS

42 USC 7915.

SEC. 105. (a) After notifying the Indian tribe of the designation pursuant to section 102 of this title, the Secretary, in consultation with the Secretary of the Interior, is authorized to enter into a cooperative agreement, subject to section 113, with any Indian tribe to perform remedial action at a designated processing site located on land of such Indian tribe. The Secretary shall, to the greatest extent practicable, enter into such agreements and carry out such remedial actions in accordance with the priorities established by him under section 102. In performing any remedial action under this section and in carrying out any continued monitoring or maintenance respecting residual radioactive materials associated with any site subject to a cooperative agreement under this section, the Secretary shall make full use of any qualified members of Indian tribes resident in the vicinity of any such site. Each such agreement shall contain such terms and conditions as the Secretary deems appropriate and consistent with the purposes of this Act. Such terms and conditions shall require the following:

Terms and conditions.

(1) The Indian tribe and any person holding any interest in such land shall execute a waiver (A) releasing the United States of any liability or claim thereof by such tribe or person concerning such remedial action and (B) holding the United States harmless against any claim arising out of the performance of any such remedial action.

(2) The remedial action shall be selected and performed in accordance with section 108 by the Secretary or such person as he may designate.

(3) The Secretary, the Commission, and the Administrator and their authorized representatives shall have a permanent right of entry at any time to inspect such processing site in furtherance of the provisions of this title, to carry out such agreement, and to enforce any rules prescribed under this Act.

Each agreement under this section shall take effect only upon concurrence of the Commission with the terms and conditions thereof.

(b) When the Secretary with the concurrence of the Commission determines removal of residual radioactive materials from a processing site on lands described in subsection (a) to be appropriate, he shall provide, consistent with other applicable provisions of law, a site or sites for the permanent disposition and stabilization in a safe and environmentally sound manner of such residual radioactive materials. Such materials shall be transferred to the Secretary (without payment therefor by the Secretary) and permanently retained and maintained by the Secretary under the conditions established in a license issued by the Commission, subject to section 104(f)(2) and (h).

Transfer to Secretary of the Interior.

ACQUISITION OF LAND BY SECRETARY

42 USC 7916.

SEC. 106. Where necessary or appropriate in order to consolidate in a safe and environmentally sound manner the location of residual radioactive materials which are removed from processing sites under cooperative agreements under this title, or where otherwise necessary for the permanent disposition and stabilization of such materials in such manner—

(1) the Secretary may acquire land and interests in land for such purposes by purchase, donation, or under any other authority of law or

(2) the Secretary of the Interior may make available public lands administered by him for such purposes in accordance with other applicable provisions of law.

Consultation.

Prior to acquisition of land under paragraph (1) or (2) of this subsection in any State, the Secretary shall consult with the Governor of such State. No lands may be acquired under such paragraph (1) or (2) in any State in which there is no (1) processing site designated under this title or (2) active uranium mill operation, unless the Secretary has obtained the consent of the Governor of such State. No lands controlled by any Federal agency may be transferred to the Secretary to carry out the purposes of this Act without the concurrence of the chief administrative officer of such agency.

FINANCIAL ASSISTANCE

42 USC 7917.

SEC. 107. (a) In the case of any designated processing site for which an agreement is executed with any State for remedial action at such site, the Secretary shall pay 90 per centum of the actual cost of such remedial action, including the actual costs of acquiring such site (and any interest therein) or any disposition site (and any interest therein) pursuant to section 103 of this title, and the State shall pay the remainder of such costs from non-Federal funds. The Secretary shall not pay the administrative costs incurred by any State to develop, prepare, and carry out any cooperative agreement executed with such State under this title, except the proportionate share of the administrative costs associated with the acquisition of lands and interests therein acquired by the State pursuant to this title.

(b) In the case of any designated processing site located on Indian lands, the Secretary shall pay the entire cost of such remedial action.

REMEDIAL ACTION

42 USC 7918.

SEC. 108. (a)(1) The Secretary or such person as he may designate shall select and perform remedial actions at designated processing sites and disposal sites in accordance with the general standards prescribed

by the Administrator pursuant to section 275 a. of the Atomic Energy Act of 1954. The State shall participate fully in the selection and performance of a remedial action for which it pays part of the cost. Such remedial action shall be selected and performed with the concurrence of the Commission and in consultation, as appropriate, with the Indian tribe and the Secretary of the Interior.

(2) The Secretary shall use technology in performing such remedial action as will insure compliance with the general standards promulgated by the Administrator under section 275 a. of the Atomic Energy Act of 1954 and will assure the safe and environmentally sound stabilization of residual radioactive materials, consistent with existing law. No such remedial action may be undertaken under this section before the promulgation by the Administrator of such standards.

Evaluation.

(b) Prior to undertaking any remedial action at a designated site pursuant to this title, the Secretary shall request expressions of interest from private parties regarding the remilling of the residual radioactive materials at the site and, upon receipt of any expression of interest, the Secretary shall evaluate among other things the mineral concentration of the residual radioactive materials at each designated processing site to determine whether, as a part of any remedial action program, recovery of such minerals is practicable. The Secretary, with the concurrence of the Commission, may permit the recovery of such minerals, under such terms and conditions as he may prescribe to carry out the purposes of this title. No such recovery shall be permitted unless such recovery is consistent with remedial action. Any person permitted by the Secretary to recover such mineral shall pay to the Secretary a share of the net profits derived from such recovery, as determined by the Secretary. Such share shall not exceed the total amount paid by the Secretary for carrying out remedial action at such designated site. After payment of such share to the United States under this subsection, such person shall pay to the State in which the residual radioactive materials are located a share of the net profits derived from such recovery, as determined by the Secretary. The person recovering such minerals shall bear all costs of such recovery. Any person carrying out mineral recovery activities under this paragraph shall be required to obtain any necessary license under the Atomic Energy Act of 1954 or under State law as permitted under section 274 of such Act.

(a)(1) Any person who violates any provision of this title or any cooperative agreement entered into pursuant to this title or any rule prescribed under this Act concerning any designated processing site, disposition site, or remedial action shall be subject to an assessment by the Secretary of a civil penalty of not more than $1,000 per day per violation. Such assessment shall be made by order after notice and an opportunity for a public hearing, pursuant to section 554 of title 5, United States Code.

Notice, hearing opportunity.

(2) Any person against whom a penalty is assessed under this section may, within sixty calendar days after the date of the order of

the Secretary assessing such penalty, institute an action in the United States court of appeals for the appropriate judicial circuit for judicial review of such order in accordance with chapter 7 of title 5, United States Code. The court shall have jurisdiction to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary, or the court may remand the proceeding to the Secretary for such further action as the court may direct.

(3) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, the Secretary shall institute an action to recover the amount of such penalty in any appropriate district court of the United States. In such action, the validity and appropriateness of such final assessment order or judgment shall not be subject to review. Section 402(d) of the Department of Energy Organization Act shall not apply with respect to the functions of the Secretary under this section.

42 USC 7172.

(4) No civil penalty may be assessed against the United States or any State or political subdivision of a State or any official or employee of the foregoing.

(5) Nothing in this section shall prevent the Secretary from enforcing any provision of this title or any cooperative agreement or any such rule by injunction or other equitable remedy.

(b) Subsection (a) shall not apply to any licensing requirement under the Atomic Energy Act of 1954. Such licensing requirements shall be enforced by the Commission as provided in such Act.

TERMINATION; AUTHORIZATION

SEC. 112. (a) The authority of the Secretary to perform remedial action under this title shall terminate on the date seven years after the date of promulgation by the Administrator of general standards applicable to such remedial action unless such termination date is specifically extended by an Act of Congress enacted after the date of enactment of this Act.

42 USC 7922.

(b) The amounts authorized to be appropriated to carry out the purposes of this title by the Secretary, the Administrator, the Commission, and the Secretary of the Interior shall not exceed such amounts as are established in annual authorization Acts for fiscal year 1979 and each fiscal year thereafter applicable to the Department of Energy. REPORTS TO CONGRESS

42 USC 7924.

SEC. 114. (a) Beginning on January 1, 1980, and each year thereafter until January 1, 1986, the Secretary shall submit a report to the Congress with respect to the status of the actions required to be taken by the Secretary, the Commission, the Secretary of the Interior, the Administrator, and the States and Indian tribes under this Act and any amendments to other laws made by this Act. Each report shall—

(1) include data on the actual and estimated costs of the program authorized by this title;

(2) describe the extent of participation by the States and Indian tribes in this program;

(3) evaluate the effectiveness of remedial actions, and describe any problems associated with the performance of such actions; and

(4) contain such other information as may be appropriate.

Such report shall be prepared in consultation with the Commission, the Secretary of the Interior, and the Administrator and shall contain their separate views, comments, and recommendations, if any. The Commission shall submit to the Secretary and Congress such portion of the report under this subsection as relates to the authorities of the Commission under title II of this Act.

(b) Not later than July 1, 1979, the Secretary shall provide a report to the Congress which identifies all sites located on public or acquired lands of the United States containing residual radioactive materials and other raidoactive waste (other than waste resulting from the production of electric energy) and specifies which Federal agency has jurisdiction over such sites. The report shall include the identity of property and other structures in the vicinity of such site that are contaminated or may be contaminated by such materials and the actions planned or taken to remove such materials. The report shall describe in what manner such sites are adequately stabilized and otherwise controlled to prevent radon diffusion from such sites into the environment and other environmental harm. If any site is not so stabilized or controlled, the report shall describe the remedial actions planned for such site and the time frame for performing such actions. In preparing the reports under this section, the Secretary shall avoid duplication of previous or ongoing studies and shall utilize all information available from other departments and agencies of the United States respecting the subject matter of such report. Such agencies shall cooperate with the Secretary in the preparation of such report and furnish such information as available to them and necessary for such report.

Cooperation.

(c) Not later than January 1, 1980, the Administrator, in consultation with the Commission, shall provide a report to the Congress which identifies the location and potential health, safety, and environmental hazards of uranium mine wastes together with recommendations, if any, for a program to eliminate these hazards.

(d) Copies of the reports required by this section to be submitted to the Congress shall be separately submitted to the Committees on Interior and Insular Affairs and on Interstate and Foreign Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(e) The Commission, in cooperation with the Secretary, shall ensure that any relevant information, other than trade secrets and other proprietary information otherwise exempted from mandatory disclosure under any other provision of law, obtained from the conduct of each of the remedial actions authorized by this title and the subsequent perpetual care of those residual radioactive materials is documented systematically, and made publicly available conveniently for use.

ACTIVE OPERATIONS; LIABILITY FOR REMEDIAL ACTION

SEC. 115. (a) No amount may be expended under this title with respect to any site licensed by the Commission under the Atomic Energy Act of 1954 or by a State as permitted under section 274 of such Act at which production of any uranium product from ores (other than from residual radioactive materials) takes place.

42 USC 7925.
42 USC 2011 note.
42 USC 2021.

(b) In the case of each processing site designated under this title, the Attorney General shall conduct a study to determine the identity and legal responsibility which any person (other than the United States, a State, or Indian tribe) who owned or operated or controlled (as determined by the Attorney General) such site before the date of the enactment of this Act may have under any law or rule of law for reclamation or other remedial action with respect to such site. The Attorney General shall publish the results of such study, and provide copies thereof to the Congress, as promptly as practicable following the date of the enactment of this Act. The Attorney General, based on such study, shall, to the extent he deems it appropriate and in the public interest, take such action under any provision of law in effect when uranium was produced at such site to require payment by such person of all or any part of the costs incurred by the United States for such remedial action for which he determines such person is liable.

"(A) the United States, or

"(B) the State in which such land is located, at the option of such State.

"(2) Unless the Commission determines prior to such termination that transfer of title to such land and such byproduct material is not necessary or desirable to protect the public health, safety, or welfare or to minimize or eliminate danger to life or property. Such determination shall be made in accordance with section 181 of this Act. Notwithstanding any other provision of law or any such determination, such property and materials shall be maintained pursuant to a license issued by the Commission pursuant to section 84(b) in such manner as will protect the public health, safety, and the environment.

"(B) If the Commission determines by order that use of the surface or subsurface estates, or both, of the land transferred to the United States or to a State under subparagraph (A) would not endanger the public health, safety, welfare, or environment, the Commission, pursuant to such regulations as it may prescribe, shall permit the use of the surface or subsurface estates, or both, of such land in a manner consistent with the provisions of this section. If the Commission permits such use of such land, it shall provide the person who transferred such land with the right of first refusal with respect to such use of such land.

"(2) If transfer to the United States of title to such byproduct material and such land is required under this section, the Secretary of Energy or any Federal agency designated by the President shall, following the Commission's determination of compliance under subsection c., assume title and custody of such byproduct material and land transferred as provided in this subsection. Such Secretary or Federal agency shall maintain such material and land in such manner as will protect the public health and safety and the environment. Such custody may be transferred to another officer or instrumentality of the United States only upon approval of the President.

"(3) If transfer to a State of title to such byproduct material is required in accordance with this subsection, such State shall, following the Commission's determination of compliance under subsection d., assume title and custody of such byproduct material and land transferred as provided in this subsection. Such State shall maintain such material and land in such manner as will protect the public health, safety, and the environment.

"(4) In the case of any such license under section 62, which was in effect on the effective date of this section, the Commission may require, before the termination of such license, such transfer of land and interests therein (as described in paragraph (1) of this subsection) to the United States or a State in which such land is located, at the option of such State, as may be necessary to protect the public health, welfare, and the environment from any effects associated with such byproduct material. In exercising the authority of this paragraph, the Commission shall take into consideration the status of the ownership of such land and interests therein and the ability of the licensee to transfer title and custody thereof to the United States or a State.

42 USC 2092.

"(5) The Commission may, pursuant to a license, or by rule or order, require the Secretary or other Federal agency or State having custody of such property and materials to undertake such monitoring, maintenance, and emergency measures as are necessary to protect the public health and safety and such other actions as the Commission deems necessary to comply with the standards promulgated pursuant to section 84 of this Act. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring, and emergency measures, but shall take no other action pursuant to such license, rule or order, with respect to such property and materials unless expressly authorized by Congress after the date of enactment of this Act.

Post, p. 3039.

"(6) The transfer of title to land or byproduct materials, as defined in section 11 e. (2), to a State or the United States pursuant to this subsection shall not relieve any licensee of liability for any fraudulent or negligent acts done prior to such transfer.

Ante, p. 3033.

"(7) Material and land transferred to the United States or a State in accordance with this subsection shall be transferred without cost to the United States or a State (other than administrative and legal costs incurred in carrying out such transfer). Ante, p. 3025.

"(8) The provisions of this subsection respecting transfer of title and custody to land shall not apply in the case of lands held in trust by the United States for any Indian tribe or lands owned by such Indian tribe subject to a restriction against alienation imposed by the United States. In the case of such lands which are used for the disposal of byproduct material, as defined in section 11 e. (2), the licensee shall be required to enter into such arrangements with the Commission as may be appropriate to assure the long-term maintenance and monitoring of such lands by the United States.

"c. Upon termination on any license to which this section applies, the Commission shall determine whether or not the licensee has complied with all applicable standards and requirements under such license.".

SEC. 2. The Act, as amended by section 1 of this Act, is further amended by adding at the end thereof the following new title:

"TITLE II—NATIONAL GOVERNING BODIES

36 USC 391.

"SEC. 201. (a) For any sport which is included on the program of the Olympic Games or the Pan-American Games, the Corporation is authorized to recognize as a national governing body an amateur sports organization which files an application and is eligible for such recognition, in accordance with the provisions of subsection (b) of this section. The Corporation shall recognize only one national governing body for each sport for which an application is made and approved. Prior to the recognition of a national governing body under the authority granted under this title and in accordance with the procedures and requirements of this section, the Corporation shall hold a hearing open to the public on the application for such recognition. The Corporation shall publish notice of the time, place, and nature of the hearing. Publication shall be made in a regular issue of the Corporation's principal publication at least 30 days, but not more than 60 days, prior to the date of the hearing.

Notice.

"(b) No amateur sports organization is eligible to be recognized or is eligible to continue to be recognized as a national governing body unless it—

"(1) is incorporated under the laws of any of the several States of the United States or the District of Columbia as a not-for-profit corporation having as its purpose the advancement of amateur athletic competition, and has the managerial and financial capability to plan and execute its obligations;

"(2) submits an application for recognition, in such form as the Corporation shall require, as a national governing body and, upon application, submits a copy of its corporate charter and bylaws and any additional information as is considered necessary or appropriate by the Corporation;

"(3) agrees to submit, upon demand of the Corporation, to binding arbitration conducted in accordance with the commercial rules of the American Arbitration Association in any controversy involving its recognition as a national governing body, as provided for in section 205 of this title, or involving the opportunity of any amateur athlete, coach, trainer, manager, administrator or official to participate in amateur athletic competition, as provided for in the Corporation's constitution and bylaws;

"(4) demonstrates that it is autonomous in the governance of its sport, in that it independently determines and controls all matters central to such governance, does not delegate such determination and control, and is free from outside restraint, and demonstrates that it is a member of no more than one international sports federation which governs a sport included on the program of the Olympic Games or the Pan-American Games;

"(5) demonstrates that its membership is open to any individual who is an amateur athlete, coach, trainer, manager, administrator, or official active in the sport for which recognition is sought, or to any amateur sports organization which conducts programs in the sport for which recognition is sought, or to both;

"(6) provides an equal opportunity to amateur athletes, coaches, trainers, managers, administrators, and officials to participate in amateur athletic competition, without discrimination on the basis of race, color, religion, age, sex, or national origin, and with fair notice and opportunity for a hearing to any amateur athlete, coach, trainer, manager, administrator, or official before declaring such individual ineligible to participate;

"(7) is governed by a board of directors or other such governing board whose members are selected without regard to race, color, religion, national origin or sex, except that, in sports where there are separate male and female programs, it provides for reasonable representation of both males and females on such board of directors or other such governing board;

"(8) demonstrates that its board of directors or other such governing board includes among its voting members individuals who are actively engaged in amateur athletic competition in the sport for which recognition is sought or who have represented the United States in international amateur athletic competition in the sport for which recognition is sought within the preceding 10 years, and that the membership and voting power held by such individuals is not less than 20 percent of such membership and voting power held in that board of directors or other such governing board;

"(9) provides for reasonable direct representation on its board of directors or other such governing board for any amateur sports organization which, in the sport for which recognition is sought, conducts, on a level of proficiency appropriate for the selection of amateur athletes to represent the United States in international amateur athletic competition, a national program or regular national amateur athletic competition, and ensures that such representation shall reflect the nature, scope, quality, and strength of the programs and competitions of such amateur sports organization in relation to all other such programs and competitions in such sport in the United States;

"(10) demonstrates that none of its officers are also officers of any other amateur sports organization which is recognized as a national governing body;

"(11) provides procedures for the prompt and equitable resolution of grievances of its members;

"(12) does not have eligibility criteria relating to amateur status which are more restrictive than those of the appropriate international sports federation; and

"(13) demonstrates, if it is an amateur sports organization seeking recognition as a national governing body, that it is prepared to meet the obligations imposed on a national governing body under section 202 of this Act.

"(c)(1) Except as provided in paragraph (2), any amateur sports organization which on the date of enactment of this title is recognized by the Corporation to represent a particular sport shall be considered to be the national governing body for that sport. Such an organization is exempt for a period of 2 years from the date of enactment of this title from meeting the requirements of subsection (b) of this section, and during the 2-year period shall take the necessary actions to meet such requirements if it desires to retain its recognition. After the expiration of the 2-year period, such an organization shall continue as the national governing body for that sport unless the Corporation determines that such organization is not in compliance with the requirements of subsection (b) of this section, in which event the Corporation shall—

"(A) suspend the recognition of such national governing body;

"(B) revoke the recognition of such national governing body; or

"(C) extend the 2-year period for not longer than 1 year, if the national governing body has proven by clear and convincing evidence that, through no fault of its own, it needs additional time to comply with such requirements.

If, at the end of the extension period referred to in subparagraph (C) of this paragraph, the national governing body has not complied with such requirements, the Corporation shall revoke the recognition of such national governing body. Any such national governing body aggrieved by the Corporation's determination under this subsection may submit a demand for arbitration in accordance with section 205 (c) of this title.

"(2) Notwithstanding the provisions of paragraph (1), the Corporation may suspend or revoke the recognition of a national governing body during the 2-year period if such suspension or revocation is for the same reason as the Corporation could have revoked or suspended such national governing body prior to the date of the enactment of this title.

"(d) Within 61 days after recognizing an amateur sports organization as a national governing body, in accordance with subsection (a) of this section, the Corporation shall recommend and support in any appropriate manner such national governing body to the appropriate international sports federation as the representative of the United States for that sport.

36 USC 392.

"SEC. 202. (a) For the sport which it governs, a national governing body is under duty to—

"(5) allow an amateur athlete to compete in any international amateur athletic competition conducted under its auspices or that of any other amateur sports organization or person, unless it establishes that its denial was based on evidence that the organization or person conducting the competition did not meet the requirements stated in subsection (b) of this section;

"(6) provide equitable support and encouragement for participation by women where separate programs for male and female athletes are conducted on a national basis;

"(7) encourage and support amateur athletic sports programs for handicapped individuals and the participation of handicapped individuals in amateur athletic activity, including, where feasible, the expansion of opportunities for meaningful participation by handicapped individuals in programs of athletic competition for able-bodied individuals;

"(A) pays to the national governing body any required sanctioning fee, if such fee is reasonable and nondiscriminatory;

"(5) conduct amateur athletic competition, including national championships, and international amateur athletic competition in the United States, and establish procedures for the determination of eligibility standards for participation in such competitions, except for that amateur athletic competition specified in section 206 of this title;

"(6) recommend to the Corporation individuals and teams to represent the United States in the Olympic Games and the Pan-American Games; and

"(7) designate individuals and teams to represent the United States in international amateur athletic competition (other than the Olympic Games and the Pan-American Games) and certify, in accordance with applicable international rules, the amateur eligibility of such individuals and teams.

Complaints.
36 USC 395.

"SEC. 205. (a)(1) Any amateur sports organization or person which belongs to or is eligible to belong to a national governing body may seek to compel such national governing body to comply with the requirements of sections 201(b) and 202 of this title by filing a written complaint with the Corporation. Such organization or person may take such action only after having exhausted all available remedies within such national governing body for correcting deficiencies, unless it can be shown by clear and convincing evidence that those remedies would have resulted in unnecessary delay. The Corporation shall establish procedures for the filing and disposition of complaints received under this subsection. A copy of the complaint shall also be served on the applicable national governing body.

Filing procedures.

"(2) Within 30 days after the filing of the complaint, the Corporation shall determine whether the organization has exhausted its remedies within the applicable national governing body, as provided in paragraph (1) of this subsection. If the Corporation determines that any such remedies have not been exhausted, it may direct that such remedies be pursued before the Corporation will further consider the complaint.

Hearing.

"(3)(A) Within 90 days after the filing of a complaint under paragraph (1) of this subsection, if the Corporation determines that all such remedies have been exhausted, it shall hold a hearing to receive testimony for the purpose of determining if such national governing body is in compliance with the requirements of sections 201(b) and 202 of this title.

"(B) If the Corporation determines, as a result of the hearings conducted pursuant to this subsection, that such national governing body is in compliance with the requirements of sections 201(b) and 202 of this title, it shall so notify the complainant and such national governing body.

"(C) If the Corporation determines, as a result of hearings conducted pursuant to this subsection, that such national governing body is not in compliance with the requirements of sections 201(b) and 202 of this title, it shall—

"(i) place such national governing body on probation for a specified period of time, not to exceed 180 days, which it considers necessary to enable such national governing body to comply with such requirements, or

"(ii) revoke the recognition of such national governing body.

"(D) If the Corporation places a national governing body on probation pursuant to this paragraph, it may extend the probationary period if the national governing body has proven by clear and convincing evidence that, through no fault of its own, it needs additional time to comply with such requirements. If, at the end of the period allowed by the Corporation, the national governing body has not complied with such requirements, the Corporation shall revoke the recognition of such national governing body.

"(b)(1) Any amateur sports organization may seek to replace an incumbent as the national governing body for a particular sport by filing with the Corporation a written application for such recognition. Such application shall be filed (A) within the 1-year period after the final day of any Olympic Games, in the case of a sport for which competition is held in the Olympic Games or in both the Olympic and Pan-American Games; or (B) within the 1-year period after the final day of any Pan-American Games, in the case of a sport for which competition is held in the Pan-American Games and not in the Olympic Games. If two or more organizations file applications for the same sport, such applications shall be considered in a single proceeding.

"(2) Any application filed under this subsection shall be filed with the Corporation by registered mail. The Corporation shall establish procedures for the filing and disposition of applications received under this subsection. A copy of any such application for recognition shall also be served on the applicable national governing body. The Corporation shall inform the applicant for recognition that its application has been received.

Hearing.

"(3) Within 180 days after receipt of an application filed under this subsection, the Corporation shall conduct a formal hearing to determine the merits of the application. The Corporation shall publish notice of the time and place of such hearing in a regular issue of its principal publication at least 30 days, but not more than 60 days, prior to the date of the hearing. In the course of such hearing, the applicant and the national governing body shall be given a reasonable opportunity to present evidence supporting their respective positions. During such hearing, the applicant amateur sports organization must establish by a preponderance of the evidence that it meets the criteria for recognition as a national governing body under section 201(b) of this title, and that—

"(A) the national governing body does not meet the criteria of section 201(b) or 202; or

"(B) it more adequately meets the criteria of section 201(b), is capable of more adequately meeting the criteria of section 202, and provides or is capable of providing a more effective national program of competition, than the national governing body in the sport for which it seeks recognition.

"(4) Within 30 days of the close of the hearing required under this subsection, the Corporation shall—

"(A) uphold the right of the national governing body to continue as the national governing body for its sport;

"(B) revoke the recognition of the national governing body and declare a vacancy in the national governing body for that sport;

"(C) revoke the recognition of the national governing body and recognize the applicant as the national governing body; or

"(D) decide to place the national governing body on probation of not to exceed 180 days, pending the compliance of the national governing body, if such national governing body would have retained recognition except for a minor deficiency in one of the requirements of section 201(b) or 202 of this title.

If the national governing body does not comply within the prescribed time period, the Corporation shall revoke the recognition of the national governing body and either recognize the applicant as the national governing body, or declare a vacancy in the national governing body for that sport.

"(5) Within 61 days after recognizing an amateur sports organization as a national governing body, in accordance with this subsection, the Corporation shall recommend and support in any appropriate manner such national governing body to the appropriate international sports federation as the representative of the United States for that sport.

"(c)(1) The right to review by any party aggrieved by a determination of the Corporation under the requirements of this section or section 201(c) shall be to any regional office of the American Arbitration Association. Such demand for arbitration shall be submitted within 30 days of the determination of the Corporation. Upon receipt of such a demand for arbitration, the Association shall serve notice on the parties to the arbitration and on the Corporation, and shall immediately proceed with arbitration according to the commercial rules of the Association in effect at the time of the filing of the demand, except that—

"(A) the arbitration panel shall consist of not less than three arbitrators, unless the parties to the proceeding mutually agree to a lesser number;

"(B) the arbitration hearing shall take place at a site selected by the Association, unless the parties to the proceeding mutually agree to the use of another site; and

"(C) the arbitration hearing shall be open to the public.

"(2) The arbitrators in any arbitration are empowered to settle any dispute arising under the provisions of this Act prior to making a final award, if mutually agreed to by the parties to the proceeding and achieved in a manner not inconsistent with the constitution and bylaws of the Corporation.

"(3) Each contesting party may be represented by counsel or by any other duly authorized representative at the arbitration proceeding. The parties may offer any evidence which they desire and shall produce any additional evidence as the arbitrators believe necessary to an understanding and determination of the dispute. The arbitrators shall be the sole judges of the relevancy and materiality of the evidence offered. Conformity to legal rules of evidence shall not be necessary.

"(4) All decisions by the arbitrators shall be by majority vote unless the concurrence of all is expressly required by the contesting parties.

"(5) Final decision of the arbitrators shall be binding upon the involved parties, if such award is not inconsistent with the constitution and bylaws of the Corporation.

"(6) The hearings may be reopened, by the arbitrators upon their own motion or upon the motion of any contesting party, at any time before a final decision is made, except that, if any contesting party makes such a motion, all parties to the decision must agree to reopen the hearings if such reopening would result in the arbitrators' decision being delayed beyond the specific period agreed upon at the beginning of the arbitration proceedings.

36 USC 396.

"Sec. 206. Any amateur sports organization which conducts amateur athletic competition, participation in which is restricted to a specific class of amateur athletes (such as high school students, college students, members of the Armed Forces, or similar groups or categories), shall have exclusive jurisdiction over such competition. If such an amateur sports organization wishes to conduct international amateur athletic competition to be held in the United States, or sponsor international amateur athletic competition to be held outside the United States, it shall obtain a sanction from the appropriate national governing body.".

FORMULA ALLOCATION

SEC. 104. Section 5(h) of the Department of Transportation Act (49 U.S.C. 1654(h)) is amended to read as follows:

"(h)(1) For the period beginning October 1, 1978, and ending September 30, 1979, each State which is eligible to receive rail service assistance under this section is entitled to an amount equal to the total amount authorized and appropriated for such purposes, multiplied by a fraction the numerator of which is the rail mileage in such State which was eligible for rail service assistance under this section prior to October 1, 1978, and the denominator of which is the rail mileage in all of the States which was eligible for rail service assistance under this section prior to such date. Notwithstanding the provisions of the preceding sentence, the entitlement of each State shall not be less than 1 percent of the funds appropriated.

"(2) Effective October 1, 1979, each State which is eligible to receive rail service assistance under this section is entitled annually to a sum from available funds as determined pursuant to this subsection. Available funds are funds appropriated for rail service assistance for that fiscal year and any funds to be reallocated for that fiscal year in accordance with this subsection. Subject to the limitations set forth in paragraph (3) of this subsection, the Secretary shall calculate each State's entitlement as follows:

"(A) two-thirds of the available funds, multiplied by a fraction (i) the numerator of which is the sum of the rail mileage in the State which, in accordance with section 1a(5)(a) of the Interstate Commerce Act (49 U.S.C. 1a(5)(a)), is either 'potentially subject to abandonment' or with respect to which a carrier plans to submit, but has not yet submitted, an application for a certificate of abandonment or discontinuance, and (ii) the denominator of which is the total of such rail mileage in all the States; and

"(B) one-third of available funds, multiplied by a fraction (i) the numerator of which is the rail mileage in the State with respect to which the Interstate Commerce Commission, within 3 years prior to the first day of the fiscal year for which funds are allocated or reallocated under this section, has found that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, such rail mileage (including, until September 30, 1981, the rail mileage which was eligible for assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762), and all rail mileage in the State which has, prior to October 1, 1978, been included for formula allocation purposes under this section); and (ii) the denominator of which is the total rail mileage in all the States eligible for rail service assistance under this section which the Interstate Commerce Commission has made such a finding (including, until September 30, 1981, the rail mileage in all the States which was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762), and the rail mileage in all the States which has, prior to October 1, 1978, been included for formula allocation purposes under this section). Notwithstanding the preceding provisions of this paragraph, the entitlement of each State in a fiscal year shall not be less than 1 percent of the funds appropriated for such fiscal year.

"(3)(A) For purposes of paragraphs (1) and (2) of this subsection, rail mileage shall be measured by the Secretary as of the first day of each fiscal year. In making calculations under this subsection, no rail mileage shall be included more than once in either the numerator or the denominator of a fraction.

Reallocation of funds.

"(B) Entitlement funds are available to a State during the fiscal year for which the funds are appropriated. In accordance with the formula stated in this subsection, the Secretary shall reallocate, to each State which is eligible to receive rail service assistance under this section, a share of any entitlement funds which have not been the subject of an executed grant agreement between the Secretary and the State before the end of the fiscal year for which the funds were appropriated. Reallocated funds are available to the State for the same purpose and for the same time period as an original allocation and are subject to reallocation if not made the subject of an executed grant agreement between the Secretary and the State before the end of the fiscal year for which the funds were reallocated. Funds appropriated in fiscal year 1978 and prior years which are not the subject of an executed grant agreement as of October 1, 1978, shall remain available to the States during fiscal year 1979.

State agreements.

"(4) Two or more States which are eligible to receive rail service assistance under this section may, where not in violation of State law, enter into an agreement to combine any portion of their respective Federal entitlements under this subsection for purposes of conducting any project which is eligible for assistance under subsection (k) of this section and which will benefit each State which is a party to such agreement.".

95th Congress

An Act

To establish standards for the placement of Indian children in foster or adoptive homes, to prevent the breakup of Indian families, and for other purposes.

Nov. 8, 1978
[S. 1214]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Indian Child Welfare Act of 1978".

Indian Child Welfare Act of 1978.
25 USC 1901 note.

SEC. 2. Recognizing the special relationship between the United States and the Indian tribes and their members and the Federal responsibility to Indian people, the Congress finds—

25 USC 1901.

(1) that clause 3, section 8, article I of the United States Constitution provides that "The Congress shall have Power * * * To regulate Commerce * * * with Indian tribes" and, through this and other constitutional authority, Congress has plenary power over Indian affairs;

(2) that Congress, through statutes, treaties, and the general course of dealing with Indian tribes, has assumed the responsibility for the protection and preservation of Indian tribes and their resources;

Congress responsibility for protection of Indians.

(3) that there is no resource that is more vital to the continued existence and integrity of Indian tribes than their children and that the United States has a direct interest, as trustee, in protecting Indian children who are members of or are eligible for membership in an Indian tribe;

(4) that an alarmingly high percentage of Indian families are broken up by the removal, often unwarranted, of their children from them by nontribal public and private agencies and that an alarmingly high percentage of such children are placed in non-Indian foster and adoptive homes and institutions; and

(5) that the States, exercising their recognized jurisdiction over Indian child custody proceedings through administrative and judicial bodies, have often failed to recognize the essential tribal relations of Indian people and the cultural and social standards prevailing in Indian communities and families.

SEC. 3. The Congress hereby declares that it is the policy of this Nation to protect the best interests of Indian children and to promote the stability and security of Indian tribes and families by the establishment of minimum Federal standards for the removal of Indian children from their families and the placement of such children in foster or adoptive homes which will reflect the unique values of Indian culture, and by providing for assistance to Indian tribes in the operation of child and family service programs.

25 USC 1902.

(a) An Indian tribe shall have jurisdiction exclusive as to any State over any child custody proceeding involving an Indian child who resides or is domiciled within the reservation of such tribe, except where such jurisdiction is otherwise vested in the State by existing Federal law. Where an Indian child is a ward of a tribal court, the Indian tribe shall retain exclusive jurisdiction, notwithstanding the residence or domicile of the child.

(b) In any State court proceeding for the foster care placement of, or termination of parental rights to, an Indian child not domiciled or residing within the reservation of the Indian child's tribe, the court, in the absence of good cause to the contrary, shall transfer such proceeding to the jurisdiction of the tribe, absent objection by either parent, upon the petition of either parent or the Indian custodian or the Indian child's tribe: *Provided*, That such transfer shall be subject to declination by the tribal court of such tribe.

(c) In any State court proceeding for the foster care placement of, or termination of parental rights to, an Indian child, the Indian custodian of the child and the Indian child's tribe shall have a right to intervene at any point in the proceeding.

(d) The United States, every State, every territory or possession of the United States, and every Indian tribe shall give full faith and credit to the public acts, records, and judicial proceedings of any Indian tribe applicable to Indian child custody proceedings to the same extent that such entities give full faith and credit to the public acts, records, and judicial proceedings of any other entity.

Foster care placement, court proceedings.
25 USC 1912.

SEC. 102. (a) In any involuntary proceeding in a State court, where the court knows or has reason to know that an Indian child is involved, the party seeking the foster care placement of, or termination of parental rights to, an Indian child shall notify the parent or Indian custodian and the Indian child's tribe, by registered mail with return receipt requested, of the pending proceedings and of their right of intervention. If the identity or location of the parent or Indian custodian and the tribe cannot be determined, such notice shall be given to the Secretary in like manner, who shall have fifteen days after receipt to provide the requisite notice to the parent or Indian custodian and the tribe. No foster care placement or termination of parental rights proceeding shall be held until at least ten days after receipt of notice by the parent or Indian custodian and the tribe or the Secretary: *Provided*, That the parent or Indian custodian or the tribe shall, upon request, be granted up to twenty additional days to prepare for such proceeding.

(b) In any case in which the court determines indigency, the parent or Indian custodian shall have the right to court-appointed counsel in any removal, placement, or termination proceeding. The court may, in its discretion, appoint counsel for the child upon a finding that such appointment is in the best interest of the child. Where State law makes no provision for appointment of counsel in such proceedings, the court shall promptly notify the Secretary upon appointment of counsel, and the Secretary, upon certification of the presiding judge, shall pay reasonable fees and expenses out of funds which may be appropriated pursuant to the Act of November 2, 1921 (42 Stat. 208; 25 U.S.C. 13).

(c) Each party to a foster care placement or termination of parental rights proceeding under State law involving an Indian child shall have the right to examine all reports or other documents filed with the court upon which any decision with respect to such action may be based.

(d) Any party seeking to effect a foster care placement of, or termination of parental rights to, an Indian child under State law shall satisfy the court that active efforts have been made to provide remedial services and rehabilitative programs designed to prevent the breakup of the Indian family and that these efforts have proved unsuccessful.

(e) No foster care placement may be ordered in such proceeding in the absence of a determination, supported by clear and convincing evidence, including testimony of qualified expert witnesses, that the continued custody of the child by the parent or Indian custodian is likely to result in serious emotional or physical damage to the child.

(f) No termination of parental rights may be ordered in such proceeding in the absence of a determination, supported by evidence beyond a reasonable doubt, including testimony of qualified expert witnesses, that the continued custody of the child by the parent or Indian custodian is likely to result in serious emotional or physical damage to the child.

Parental rights, voluntary termination.
25 USC 1913.

SEC. 103. (a) Where any parent or Indian custodian voluntarily consents to a foster care placement or to termination of parental rights, such consent shall not be valid unless executed in writing and recorded before a judge of a court of competent jurisdiction and accompanied by the presiding judge's certificate that the terms and consequences of the consent were fully explained in detail and were fully understood by the parent or Indian custodian. The court shall also certify that either the parent or Indian custodian fully understood the explanation in English or that it was interpreted into a language that the parent or Indian custodian understood. Any consent given prior to, or within ten days after, birth of the Indian child shall not be valid.

(b) Any parent or Indian custodian may withdraw consent to a foster care placement under State law at any time and, upon such withdrawal, the child shall be returned to the parent or Indian custodian.

(c) In any voluntary proceeding for termination of parental rights to, or adoptive placement of, an Indian child, the consent of the parent may be withdrawn for any reason at any time prior to the entry of a final decree of termination or adoption, as the case may be, and the child shall be returned to the parent.

(d) After the entry of a final decree of adoption of an Indian child in any State court, the parent may withdraw consent thereto upon the grounds that consent was obtained through fraud or duress and may petition the court to vacate such decree. Upon a finding that such consent was obtained through fraud or duress, the court shall vacate such decree and return the child to the parent. No adoption which has been effective for at least two years may be invalidated under the provisions of this subsection unless otherwise permitted under State law.

25 USC 1914.

SEC. 104. Any Indian child who is the subject of any action for foster care placement or termination of parental rights under State law, any parent or Indian custodian from whose custody such child was removed, and the Indian child's tribe may petition any court of competent jurisdiction to invalidate such action upon a showing that such action violated any provision of sections 101, 102, and 103 of this Act.

Adoptive placement of Indian children.
25 USC 1915.

Sec. 105. (a) In any adoptive placement of an Indian child under State law, a preference shall be given, in the absence of good cause to the contrary, to a placement with (1) a member of the child's extended family; (2) other members of the Indian child's tribe; or (3) other Indian families.

(b) Any child accepted for foster care or preadoptive placement shall be placed in the least restrictive setting which most approximates a family and in which his special needs, if any, may be met. The child shall also be placed within reasonable proximity to his or her home, taking into account any special needs of the child. In any foster care or preadoptive placement, a preference shall be given, in the absence of good cause to the contrary, to a placement with—

(i) a member of the Indian child's extended family;

(ii) a foster home licensed, approved, or specified by the Indian child's tribe;

(iii) an Indian foster home licensed or approved by an authorized non-Indian licensing authority; or

(iv) an institution for children approved by an Indian tribe or operated by an Indian organization which has a program suitable to meet the Indian child's needs.

(c) In the case of a placement under subsection (a) or (b) of this section, if the Indian child's tribe shall establish a different order of preference by resolution, the agency or court effecting the placement shall follow such order so long as the placement is the least restrictive setting appropriate to the particular needs of the child, as provided in subsection (b) of this section. Where appropriate, the preference of the Indian child or parent shall be considered: *Provided*, That where a consenting parent evidences a desire for anonymity, the court or agency shall give weight to such desire in applying the preferences.

(d) The standards to be applied in meeting the preference requirements of this section shall be the prevailing social and cultural standards of the Indian community in which the parent or extended family resides or with which the parent or extended family members maintain social and cultural ties.

(e) A record of each such placement, under State law, of an Indian child shall be maintained by the State in which the placement was made, evidencing the efforts to comply with the order of preference specified in this section. Such record shall be made available at any time upon the request of the Secretary or the Indian child's tribe.

Petition, return of custody.
25 USC 1916.

Sec. 106. (a) Notwithstanding State law to the contrary, whenever a final decree of adoption of an Indian child has been vacated or set aside or the adoptive parents voluntarily consent to the termination of their parental rights to the child, a biological parent or prior Indian custodian may petition for return of custody and the court shall grant such petition unless there is a showing, in a proceeding subject to the provisions of section 102 of this Act, that such return of custody is not in the best interests of the child.

Removal from foster care home.

(b) Whenever an Indian child is removed from a foster care home or institution for the purpose of further foster care, preadoptive, or adoptive placement, such placement shall be in accordance with the provisions of this Act, except in the case where an Indian child is being returned to the parent or Indian custodian from whose custody the child was originally removed.

25 USC 1917.

Sec. 107. Upon application by an Indian individual who has reached the age of eighteen and who was the subject of an adoptive placement, the court which entered the final decree shall inform such individual of the tribal affiliation, if any, of the individual's biological parents and provide such other information as may be necessary to protect any rights flowing from the individual's tribal relationship.

Reassumption, jurisdiction over child custody proceedings.
25 USC 1918.
18 USC prec. 1151 note.
25 USC 1321.
28 USC 1360 note.

SEC. 108. (a) Any Indian tribe which became subject to State jurisdiction pursuant to the provisions of the Act of August 15, 1953 (67 Stat. 588), as amended by title IV of the Act of April 11, 1968 (82 Stat. 73, 78), or pursuant to any other Federal law, may reassume jurisdiction over child custody proceedings. Before any Indian tribe may reassume jurisdiction over Indian child custody proceedings, such tribe shall present to the Secretary for approval a petition to reassume such jurisdiction which includes a suitable plan to exercise such jurisdiction.

(b)(1) In considering the petition and feasibility of the plan of a tribe under subsection (a), the Secretary may consider, among other things:

(i) whether or not the tribe maintains a membership roll or alternative provision for clearly identifying the persons who will be affected by the reassumption of jurisdiction by the tribe;

(ii) the size of the reservation or former reservation area which will be affected by retrocession and reassumption of jurisdiction by the tribe;

(iii) the population base of the tribe, or distribution of the population in homogeneous communities or geographic areas; and

(iv) the feasibility of the plan in cases of multitribal occupation of a single reservation or geographic area.

(2) In those cases where the Secretary determines that the jurisdictional provisions of section 101(a) of this Act are not feasible, he is authorized to accept partial retrocession which will enable tribes to exercise referral jurisdiction as provided in section 101(b) of this Act, or, where appropriate, will allow them to exercise exclusive jurisdiction as provided in section 101(a) over limited community or geographic areas without regard for the reservation status of the area affected.

(c) If the Secretary approves any petition under subsection (a), the Secretary shall publish notice of such approval in the Federal Register and shall notify the affected State or States of such approval. The Indian tribe concerned shall reassume jurisdiction sixty days after publication in the Federal Register of notice of approval. If the Secretary disapproves any petition under subsection (a), the Secretary shall provide such technical assistance as may be necessary to enable the tribe to correct any deficiency which the Secretary identified as a cause for disapproval.

(d) Assumption of jurisdiction under this section shall not affect any action or proceeding over which a court has already assumed jurisdiction, except as may be provided pursuant to any agreement under section 109 of this Act.

States and Indian tribes, agreements.
25 USC 1919.

SEC. 109. (a) States and Indian tribes are authorized to enter into agreements with each other respecting care and custody of Indian children and jurisdiction over child custody proceedings, including agreements which may provide for orderly transfer of jurisdiction on a case-by-case basis and agreements which provide for concurrent jurisdiction between States and Indian tribes.

(b) Such agreements may be revoked by either party upon one hundred and eighty days' written notice to the other party. Such revocation shall not affect any action or proceeding over which a court has already assumed jurisdiction, unless the agreement provides otherwise.

SEC. 110. Where any petitioner in an Indian child custody proceeding before a State court has improperly removed the child from custody of the parent or Indian custodian or has improperly retained custody after a visit or other temporary relinquishment of custody, the court shall decline jurisdiction over such petition and shall forthwith return the child to his parent or Indian custodian unless returning the child to his parent or custodian would subject the child to a substantial and immediate danger or threat of such danger.

Improper removal of child from custody. 25 USC 1920.

SEC. 111. In any case where State or Federal law applicable to a child custody proceeding under State or Federal law provides a higher standard of protection to the rights of the parent or Indian custodian of an Indian child than the rights provided under this title, the State or Federal court shall apply the State or Federal standard.

25 USC 1921.

SEC. 112. Nothing in this title shall be construed to prevent the emergency removal of an Indian child who is a resident of or is domiciled on a reservation, but temporarily located off the reservation, from his parent or Indian custodian or the emergency placement of such child in a foster home or institution, under applicable State law, in order to prevent imminent physical damage or harm to the child. The State authority, official, or agency involved shall insure that the emergency removal or placement terminates immediately when such removal or placement is no longer necessary to prevent imminent physical damage or harm to the child and shall expeditiously initiate a child custody proceeding subject to the provisions of this title, transfer the child to the jurisdiction of the appropriate Indian tribe, or restore the child to the parent or Indian custodian, as may be appropriate.

Emergency removal of child. 25 USC 1922.

SEC. 113. None of the provisions of this title, except sections 101(a), 108, and 109, shall affect a proceeding under State law for foster care placement, termination of parental rights, preadoptive placement, or adoptive placement which was initiated or completed prior to one hundred and eighty days after the enactment of this Act, but shall apply to any subsequent proceeding in the same matter or subsequent proceedings affecting the custody or placement of the same child.

Effective date. 25 USC 1923.

TITLE II—INDIAN CHILD AND FAMILY PROGRAMS

SEC. 201. (a) The Secretary is authorized to make grants to Indian tribes and organizations in the establishment and operation of Indian child and family service programs on or near reservations and in the preparation and implementation of child welfare codes. The objective of every Indian child and family service program shall be to prevent the breakup of Indian families and, in particular, to insure that the permanent removal of an Indian child from the custody of his parent or Indian custodian shall be a last resort. Such child and family service programs may include, but are not limited to—

25 USC 1931.

(1) a system for licensing or otherwise regulating Indian foster and adoptive homes;

(8) guidance, legal representation, and advice to Indian families involved in tribal, State, or Federal child custody proceedings.

42 USC 620, 1397.

The provision or possibility of assistance under this Act shall not be a basis for the denial or reduction of any assistance otherwise authorized under titles IV-B and XX of the Social Security Act or any other federally assisted program. For purposes of qualifying for assistance under a federally assisted program, licensing or approval of foster or adoptive homes or institutions by an Indian tribe shall be deemed equivalent to licensing or approval by a State.

Public Law 95-610
95th Congress

An Act

To amend title 10, United States Code, to prohibit union organization of the armed forces, membership in military labor organizations by members of the armed forces, and recognition of military labor organizations by the Government, and for other purposes.

Nov. 8, 1978
[S. 274]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Armed Forces, union organizations, prohibition.
10 USC 975 note.

SECTION 1. (a) The Congress makes the following findings:

(1) Members of the armed forces of the United States must be prepared to fight and, if necessary, to die to protect the welfare, security, and liberty of the United States and of their fellow citizens.

(2) Discipline and prompt obedience to lawful orders of superior officers are essential and time-honored elements of the American military tradition and have been reinforced from the earliest articles of war by laws and regulations prohibiting conduct detrimental to the military chain of command and lawful military authority.

(3) The processes of conventional collective bargaining and labor-management negotiation cannot and should not be applied to the relationships between members of the armed forces and their military and civilian superiors.

(4) Strikes, slowdowns, picketing, and other traditional forms of job action have no place in the armed forces.

(5) Unionization of the armed forces would be incompatible with the military chain of command, would undermine the role, authority, and position of the commander, and would impair the morale and readiness of the armed forces.

(6) The circumstances which could constitute a threat to the ability of the armed forces to perform their mission are not comparable to the circumstances which could constitute a threat to the ability of Federal civilian agencies to perform their functions and should be viewed in light of the need for effective performance of duty by each member of the armed forces.

(b) The purpose of this Act is to promote the readiness of the armed forces to defend the United States.

SEC. 2. (a) Chapter 49 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§ 975. Membership in military unions, organizing of military unions, and recognition of military unions prohibited

10 USC 975.

"(4) to use any military installation, facility, reservation, vessel, or other property of the United States for any meeting, march, picketing, demonstration, or other similar activity for the purpose of engaging in any activity prohibited by this subsection or by subsection (b) or (d).

"(g) Nothing in this section shall limit the right of any member of the armed forces—

"(1) to join or maintain membership in any organization or association not constituting a 'military labor organization' as defined in subsection (a)(2) of this section;

"(2) to present complaints or grievances concerning the terms or conditions of the service of such member in the armed forces in accordance with established military procedures;

TITLE I—RETAIL REGULATORY POLICIES FOR ELECTRIC UTILITIES

Subtitle A—General Provisions

16 USC 2611.

SEC. 101. PURPOSES.

The purposes of this title are to encourage—

(1) conservation of energy supplied by electric utilities;

(2) the optimization of the efficiency of use of facilities and resources by electric utilities; and

(3) equitable rates to electric consumers.

SEC. 102. COVERAGE.

16 USC 2612.

(a) Volume of Total Retail Sales.—This title applies to each electric utility in any calendar year, and to each proceeding relating to each electric utility in such year, if the total sales of electric energy by such utility for purposes other than resale exceeded 500 million kilowatt-hours during any calendar year beginning after December 31, 1975, and before the immediately preceding calendar year.

(b) Exclusion of Wholesale Sales.—The requirements of this title do not apply to the operations of an electric utility, or to proceedings respecting such operations, to the extent that such operations or proceedings relate to sales of electric energy for purposes of resale.

(c) List of Covered Utilities.—Before the beginning of each calendar year, the Secretary shall publish a list identifying each electric utility to which this title applies during such calendar year. Promptly after publication of such list each State regulatory authority shall notify the Secretary of each electric utility on the list for which such State regulatory authority has ratemaking authority.

SEC. 103. FEDERAL CONTRACTS.

16 USC 2613.

Notwithstanding the limitation contained in section 102(b), no contract between a Federal agency and any electric utility for the sale of electric energy by such Federal agency for resale which is entered into or renewed after the date of the enactment of this Act may contain any provision which will have the effect of preventing the implementation of any requirement of subtitle B or C. Any provision in any such contract which has such effect shall be null and void.

Subtitle B—Standards For Electric Utilities

SEC. 111. CONSIDERATION AND DETERMINATION RESPECTING CERTAIN RATEMAKING STANDARDS.

16 USC 2621.

(a) Consideration and Determination.—Each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall consider each standard established by subsection (d) and make a determination concerning whether or not it is appropriate to implement such standard to carry out the purposes of this title. For purposes of such consideration and determination in accordance with subsections (b) and (c), and for purposes of any review of such consideration and determination in any court in accordance with section 123, the purposes of this title supplement otherwise applicable State law. Nothing in this subsection prohibits any State regulatory authority or nonregulated electric utility from making any determination that it is not appropriate to implement any such standard, pursuant to its authority under otherwise applicable State law.

(b) Procedural Requirements for Consideration and Determination.—(1) The consideration referred to in subsection (a) shall be made after public notice and hearing. The determination referred to in subsection (a) shall be—

Notice and hearing.

(A) in writing,

(B) based upon findings included in such determination and upon the evidence presented at the hearing, and

(C) available to the public.

(2) Except as otherwise provided in paragraph (1), in the second sentence of section 112(a), and in sections 121 and 122, the procedures for the consideration and determination referred to in subsection (a) shall be those established by the State regulatory authority or the nonregulated electric utility.

(c) IMPLEMENTATION.—(1) The State regulatory authority (with respect to each electric utility for which it has ratemaking authority) or nonregulated electric utility may, to the extent consistent with otherwise applicable State law—

(A) implement any such standard determined under subsection (a) to be appropriate to carry out the purposes of this title, or

(B) decline to implement any such standard.

(2) If a State regulatory authority (with respect to each electric utility for which it has ratemaking authority) or nonregulated electric utility declines to implement any standard established by subsection (d) which is determined under subsection (a) to be appropriate to carry out the purposes of this title, such authority or nonregulated electric utility shall state in writing the reasons therefor. Such statement of reasons shall be available to the public.

Federal standards.

(d) ESTABLISHMENT.—The following Federal standards are hereby established:

(1) COST OF SERVICE.—Rates charged by any electric utility for providing electric service to each class of electric consumers shall be designed, to the maximum extent practicable, to reflect the costs of providing electric service to such class, as determined under section 115(a).

(2) DECLINING BLOCK RATES.—The energy component of a rate, or the amount attributable to the energy component in a rate, charged by any electric utility for providing electric service during any period to any class of electric consumers may not decrease as kilowatt-hour consumption by such class increases during such period except to the extent that such utility demonstrates that the costs to such utility of providing electric service to such class, which costs are attributable to such energy component, decrease as such consumption increases during such period.

(3) TIME-OF-DAY RATES.—The rates charged by any electric utility for providing electric service to each class of electric consumers shall be on a time-of-day basis which reflects the costs of providing electric service to such class of electric consumers at different times of the day unless such rates are not cost-effective with respect to such class, as determined under section 115(b).

(4) SEASONAL RATES.—The rates charged by an electric utility for providing electric service to each class of electric consumers shall be on a seasonal basis which reflects the costs of providing service to such class of consumers at different seasons of the year to the extent that such costs vary seasonally for such utility.

(5) INTERRUPTIBLE RATES.—Each electric utility shall offer each industrial and commercial electric consumer an interruptible rate which reflects the cost of providing interruptible service to the class of which such consumer is a member.

(6) LOAD MANAGEMENT TECHNIQUES.—Each electric utility shall offer to its electric consumers such load management techniques as the State regulatory authority (or the nonregulated electric utility) has determined will—

(A) be practicable and cost-effective, as determined under section 115(c),

(B) be reliable, and

(C) provide useful energy or capacity management advantages to the electric utility.

16 USC 2622.

SEC. 112. OBLIGATIONS TO CONSIDER AND DETERMINE.

(a) REQUEST FOR CONSIDERATION AND DETERMINATION.—Each State regulatory authority (with respect to each electric utility for which

it has ratemaking authority) and each nonregulated electric utility may undertake the consideration and make the determination referred to in section 111 with respect to any standard established by section 111(d) in any proceeding respecting the rates of the electric utility. Any participant or intervenor (including an intervenor referred to in section 121) in such a proceeding may request, and shall obtain, such consideration and determination in such proceeding. In undertaking such consideration and making such determination in any such proceeding with respect to the application to any electric utility of any standard established by section 111(d), a State regulatory authority (with respect to an electric utility for which it has ratemaking authority) or nonregulated electric utility may take into account in such proceeding—

(1) any appropriate prior determination with respect to such standard—

(A) which is made in a proceeding which takes place after the date of the enactment of this Act, or

(B) which was made before such date (or is made in a proceeding pending on such date) and complies, as provided in section 124, with the requirements of this title; and

(2) the evidence upon which such prior determination was based (if such evidence is referenced in such proceeding).

(b) Time Limitations.—(1) Not later than 2 years after the date of the enactment of this Act, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to each standard established by section 111(d).

(2) Not later than three years after the date of the enactment of this Act, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by section 111(d).

(c) Failure To Comply.—Each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall undertake the consideration, and make the determination, referred to in section 111 with respect to each standard established by section 111(d) in the first rate proceeding commenced after the date three years after the date of enactment of this Act respecting the rates of such utility if such State regulatory authority or nonregulated electric utility has not, before such date, complied with subsection (b)(2) with respect to such standard.

SEC. 113. ADOPTION OF CERTAIN STANDARDS.

16 USC 2623.

(a) Adoption of Standards.—Not later than two years after the date of the enactment of this Act, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall provide public notice and conduct a hearing respecting the standards established by subsection (b) and, on the basis of such hearing, shall—

(1) adopt the standards established by subsection (b) (other than paragraph (4) thereof) if, and to the extent, such authority or nonregulated electric utility determines that such adoption is appropriate to carry out the purposes of this title, is otherwise appropriate, and is consistent with otherwise applicable State law, and

(2) adopt the standard established by subsection (b)(4) if, and to the extent, such authority or nonregulated electric utility determines that such adoption is appropriate and consistent with otherwise applicable State law.

For purposes of any determination under paragraphs (1) or (2) and any review of such determination in any court in accordance with section 123, the purposes of this title supplement otherwise applicable State law. Nothing in this subsection prohibits any State regulatory authority or nonregulated electric utility from making any determination that it is not appropriate to adopt any such standard, pursuant to its authority under otherwise applicable State law.

Federal standards.

(b) Establishment.—The following Federal standards are hereby established:

(1) Master metering.—To the extent determined appropriate under section 115(d), master metering of electric service in the case of new buildings shall be prohibited or restricted to the extent necessary to carry out the purposes of this title.

(2) Automatic adjustment clauses.—No electric utility may increase any rate pursuant to an automatic adjustment clause unless such clause meets the requirements of section 115(e).

(3) Information to consumers.—Each electric utility shall transmit to each of its electric consumers information regarding rate schedules in accordance with the requirements of section 115(f).

(4) Procedures for termination of electric service.—No electric utility may terminate electric service to any electric consumer except pursuant to procedures described in section 115(g).

(5) Advertising.—No electric utility may recover from any person other than the shareholders (or other owners) of such utility any direct or indirect expenditure by such utility for promotional or political advertising as defined in section 115(h).

(c) Procedural Requirements.—Each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility, within the two-year period specified in subsection (a), shall (1) adopt, pursuant to subsection (a), each of the standards established by subsection (b) or, (2) with respect to any such standard which is not adopted, such authority or nonregulated electric utility shall state in writing that it has determined not to adopt such standard, together with the reasons for such determination. Such statement of reasons shall be available to the public.

16 USC 2624.

SEC. 114. LIFELINE RATES.

(a) Lower Rates.—No provision of this title prohibits a State regulatory authority (with respect to an electric utility for which it has ratemaking authority) or a nonregulated electric utility from fixing, approving, or allowing to go into effect a rate for essential needs (as defined by the State regulatory authority or by the nonregulated electric utility, as the case may be) of residential electric consumers which is lower than a rate under the standard referred to in section 111(d)(1).

(b) Determination.—If any State regulated electric utility or nonregulated electric utility does not have a lower rate as described in subsection (a) in effect two years after the date of the enactment of this Act, the State regulatory authority having ratemaking authority with respect to such State regulated electric utility or the nonregulated electric utility, as the case may be, shall determine, after an evidentiary hearing, whether such a rate should be implemented by such utility.

(c) Prior Proceedings.—Section 124 shall not apply to the requirements of this section.

SEC. 115. SPECIAL RULES FOR STANDARDS.

16 USC 2625.

(a) Cost of Service.—In undertaking the consideration and making the determination under section 111 with respect to the standard concerning cost of service established by section 111(d)(1), the costs of providing electric service to each class of electric consumers shall, to the maximum extent practicable, be determined on the basis of methods prescribed by the State regulatory authority (in the case of a State regulated electric utility) or by the electric utility (in the case of a nonregulated electric utility). Such methods shall to the maximum extent practicable—

(1) permit identification of differences in cost-incurrence, for each such class of electric consumers, attributable to daily and seasonal time of use of service and

(2) permit identification of differences in cost-incurrence attributable to differences in customer demand, and energy components of cost. In prescribing such methods, such State regulatory authority or nonregulated electric utility shall take into account the extent to which total costs to an electric utility are likely to change if—

(A) additional capacity is added to meet peak demand relative to base demand; and

(B) additional kilowatt-hours of electric energy are delivered to electric consumers.

(b) Time-of-Day Rates.—In undertaking the consideration and making the determination required under section 111 with respect to the standard for time-of-day rates established by section 111(d)(3), a time-of-day rate charged by an electric utility for providing electric service to each class of electric consumers shall be determined to be cost-effective with respect to each such class if the long-run benefits of such rate to the electric utility and its electric consumers in the class concerned are likely to exceed the metering costs and other costs associated with the use of such rates.

(c) Load Management Techniques.—In undertaking the consideration and making the determination required under section 111 with respect to the standard for load management techniques established by section 111(d)(6), a load management technique shall be determined, by the State regulatory authority or nonregulated electric utility, to be cost-effective if—

(1) such technique is likely to reduce maximum kilowatt demand on the electric utility, and

(2) the long-run cost-savings to the utility of such reduction are likely to exceed the long-run costs to the utility associated with implementation of such technique.

(d) Master Metering.—Separate metering shall be determined appropriate for any new building for purposes of section 113(b)(1) if—

(1) there is more than one unit in such building,

(2) the occupant of each such unit has control over a portion of the electric energy used in such unit, and

(3) with respect to such portion of electric energy used in such unit, the long-run benefits to the electric consumers in such building exceed the costs of purchasing and installing separate meters in such building.

(e) AUTOMATIC ADJUSTMENT CLAUSES.—(1) An automatic adjustment clause of an electric utility meets the requirements of this subsection if—

(A) such clause is determined, not less often than every four years, by the State regulatory authority (with respect to an electric utility for which it has ratemaking authority) or by the electric utility (in the case of a nonregulated electric utility), after an evidentiary hearing, to provide incentives for efficient use of resources (including incentives for economical purchase and use of fuel and electric energy) by such electric utility, and

(B) such clause is reviewed not less often than every two years, in the manner described in paragraph (2), by the State regulatory authority having ratemaking authority with respect to such utility (or by the electric utility in the case of a nonregulated electric utility), to insure the maximum economies in those operations and purchases which affect the rates to which such clause applies.

(2) In making a review under subparagraph (B) of paragraph (1) with respect to an electric utility, the reviewing authority shall examine and, if appropriate, cause to be audited the practices of such electric utility relating to costs subject to an automatic adjustment clause, and shall require such reports as may be necessary to carry out such review (including a disclosure of any ownership or corporate relationship between such electric utility and the seller to such utility of fuel, electric energy, or other items).

Definition.

(3) As used in this subsection and section 113(b), the term "automatic adjustment clause" means a provision of a rate schedule which provides for increases or decreases (or both), without prior hearing, in rates reflecting increases or decreases (or both) in costs incurred by an electric utility. Such term does not include an interim rate which takes effect subject to a later determination of the appropriate amount of the rate.

(f) INFORMATION TO CONSUMERS.—(1) For purposes of the standard for information to consumers established by section 113(b)(3), each electric utility shall transmit to each of its electric consumers a clear and concise explanation of the existing rate schedule and any rate schedule applied for (or proposed by a nonregulated electric utility) applicable to such consumer. Such statement shall be transmitted to each such consumer—

(A) not later than sixty days after the date of commencement of service to such consumer or ninety days after the standard established by section 113(b)(3) is adopted with respect to such electric utility, whichever last occurs, and

(B) not later than thirty days (sixty days in the case of an electric utility which uses a bimonthly billing system) after such utility's application for any change in a rate schedule applicable to such consumer (or proposal of such a change in the case of a nonregulated utility).

(2) For purposes of the standard for information to consumers established by section 113(b)(3), each electric utility shall transmit to each of its electric consumers not less frequently than once each year—

(A) a clear and concise summary of the existing rate schedules applicable to each of the major classes of its electric consumers for which there is a separate rate, and

(B) an identification of any classes whose rates are not summarized.

Such summary may be transmitted together with such consumer's billing or in such other manner as the State regulatory authority or nonregulated electric utility deems appropriate.

(3) For purposes of the standard for information to consumers established by section 113(b)(3), each electric utility, on request of an electric consumer of such utility, shall transmit to such consumer a clear and concise statement of the actual consumption (or degree-day adjusted consumption) of electric energy by such consumer for each billing period during the prior year (unless such consumption data is not reasonably ascertainable by the utility).

(g) PROCEDURES FOR TERMINATION OF ELECTRIC SERVICE.—The procedures for termination of service referred to in section 113(b)(4) are procedures prescribed by the State regulatory authority (with respect to electric utilities for which it has ratemaking authority) or by the nonregulated electric utility which provide that—

(1) no electric service to an electric consumer may be terminated unless reasonable prior notice (including notice of rights and remedies) is given to such consumer and such consumer has a reasonable opportunity to dispute the reasons for such termination, and

(2) during any period when termination of service to an electric consumer would be especially dangerous to health, as determined by the State regulatory authority (with respect to an electric utility for which it has ratemaking authority) or nonregulated electric utility, and such consumer establishes that—

(A) he is unable to pay for such service in accordance with the requirements of the utility's billing, or

(B) he is able to pay for such service but only in installments,

such service may not be terminated.

Such procedures shall take into account the need to include reasonable provisions for elderly and handicapped consumers.

(h) ADVERTISING.—(1) For purposes of this section and section 113(b)(5)— **Definitions.**

(A) The term "advertising" means the commercial use, by an electric utility, of any media, including newspaper, printed matter, radio, and television, in order to transmit a message to a substantial number of members of the public or to such utility's electric consumers.

(B) The term "political advertising" means any advertising for the purpose of influencing public opinion with respect to legislative, administrative, or electoral matters, or with respect to any controversial issue of public importance.

(C) The term "promotional advertising" means any advertising for the purpose of encouraging any person to select or use the service or additional service of an electric utility or the selection or installation of any appliance or equipment designed to use such utility's service.

(2) For purposes of this subsection and section 113(b)(5), the terms "political advertising" and "promotional advertising" do not include—

(A) advertising which informs electric consumers how they can conserve energy or can reduce peak demand for electric energy,

(B) advertising required by law or regulation, including advertising required under part 1 of title II of the National Energy Conservation Policy Act, *Post*, p. 3209.

(C) advertising regarding service interruptions, safety measures, or emergency conditions,

(D) advertising concerning employment opportunities with such utility,

(E) advertising which promotes the use of energy efficient appliances, equipment or services, or

(F) any explanation or justification of existing or proposed rate schedules, or notifications of hearings thereon.

16 USC 2626.

SEC. 116. REPORTS RESPECTING STANDARDS.

(a) State Authorities and Nonregulated Utilities.—Not later than one year after the date of the enactment of this Act and annually thereafter for ten years, each State regulatory authority (with respect to each State regulated electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall report to the Secretary, in such manner as the Secretary shall prescribe, respecting its consideration of the standards established by sections 111(d) and 113(b). Such report shall include a summary of the determinations made and actions taken with respect to each such standard on a utility-by-utility basis.

(b) Secretary.—Not later than eighteen months after the date of the enactment of this Act and annually thereafter for ten years, the Secretary shall submit a report to the President and the Congress containing—

(1) a summary of the reports submitted under subsection (a),

(2) his analysis of such reports, and

(3) his actions under this title, and his recommendations for such further Federal actions, including any legislation, regarding retail electric utility rates (and other practices) as may be necessary to carry out the purposes of this title.

16 USC 2627.

SEC. 117. RELATIONSHIP TO STATE LAW.

(a) Revenue and Rate of Return.—Nothing in this title shall authorize or require the recovery by an electric utility of revenues, or of a rate of return, in excess of, or less than, the amount of revenues or the rate of return determined to be lawful under any other provision of law.

(b) State Authority.—Nothing in this title prohibits any State regulatory authority or nonregulated electric utility from adopting, pursuant to State law, any standard or rule affecting electric utilities which is different from any standard established by this subtitle.

(c) Federal Agencies.—With respect to any electric utility which is a Federal agency, and with respect to the Tennessee Valley Authority when it is treated as a State regulatory authority as provided in section 3(17), any reference in section 111 or 113 to State law shall be treated as a reference to Federal law.

Subtitle C—Intervention and Judicial Review

16 USC 2631.

SEC. 121. INTERVENTION IN PROCEEDINGS.

(a) Authority To Intervene and Participate.—In order to initiate and participate in the consideration of one or more of the standards established by subtitle B or other concepts which contribute to the achievement of the purposes of this title, the Secretary, any affected electric utility, or any electric consumer of an affected electric utility may intervene and participate as a matter of right in any ratemaking proceeding or other appropriate regulatory proceeding relating to rates or rate design which is conducted by a State regulatory authority (with respect to an electric utility for which it has ratemaking authority) or by a nonregulated electric utility.

(b) Access to Information.—Any intervenor or participant in a proceeding described in subsection (a) shall have access to information available to other parties to the proceeding if such information is relevant to the issues to which his intervention or participation in such proceeding relates. Such information may be obtained through reasonable rules relating to discovery of information prescribed by the State regulatory authority (in the case of proceedings concerning electric utilities for which it has ratemaking authority) or by the nonregulated electric utility (in the case of a proceeding conducted by a nonregulated electric utility).

(c) Effective Date; Procedures.—Any intervention or participation under this section, in any proceeding commenced before the date of the enactment of this Act but not completed before such date, shall be permitted under this section only to the extent such intervention or participation is timely under otherwise applicable law.

SEC. 122. CONSUMER REPRESENTATION.

16 USC 2632.

(a) Compensation for Costs of Participation or Intervention.—(1) If no alternative means for assuring representation of electric consumers is adopted in accordance with subsection (b) and if an electric consumer of an electric utility substantially contributed to the approval, in whole or in part, of a position advocated by such consumer in a proceeding concerning such utility, and relating to any standard set forth in subtitle B, such utility shall be liable to compensate such consumer (pursuant to paragraph (2)) for reasonable attorneys' fees, expert witness fees, and other reasonable costs incurred in preparation and advocacy of such position in such proceeding (including fees and costs of obtaining judicial review of any determination made in such proceeding with respect to such position).

(2) A consumer entitled to fees and costs under paragraph (1) may collect such fees and costs from an electric utility by bringing a civil action in any State court of competent jurisdiction, unless the State regulatory authority (in the case of a proceeding concerning a State regulated electric utility) or nonregulated electric utility (in the case of a proceeding concerning such nonregulated electric utility) has adopted a reasonable procedure pursuant to which such authority or nonregulated electric utility—

(A) determines the amount of such fees and costs, and

(B) includes an award of such fees and costs in its order in the proceeding.

(3) The procedure adopted by such State regulatory authority or nonregulated utility under paragraph (2) may include a preliminary proceeding to require that—

(A) as a condition of receiving compensation under such procedure such consumer demonstrate that, but for the ability to receive such award, participation or intervention in such proceeding may be a significant financial hardship for such consumer, and

(B) persons with the same or similar interests have a common legal representative in the proceeding as a condition to receiving compensation.

(b) Alternative Means.—Compensation shall not be required under subsection (a) if the State, the State regulatory authority (in the case of a proceeding concerning a State regulated electric utility), or the nonregulated electric utility (in the case of a proceeding concerning such nonregulated electric utility) has provided an alternative means for providing adequate compensation to persons—

(1) who have, or represent, an interest—

(A) which would not otherwise be adequately represented in the proceeding, and

(B) representation of which is necessary for a fair determination in the proceeding, and

(2) who are, or represent an interest which is, unable to effectively participate or intervene in the proceeding because such persons cannot afford to pay reasonable attorneys' fees, expert witness fees, and other reasonable costs of preparing for, and participating or intervening in, such proceeding (including fees and costs of obtaining judicial review of such proceeding).

(c) TRANSCRIPTS.—The State regulatory authority or nonregulated electric utility, as the case may be, shall make transcripts of the proceeding available, at cost of reproduction, to parties or intervenors in any ratemaking proceeding, or other regulatory proceeding relating to rates or rate design, before a State regulatory authority or nonregulated electric utility.

(2) If any electric utility or electric consumer having a right to intervene under section 121(a) is denied such right by any State court, such electric utility or electric consumer may bring an action in the appropriate United States district court to require the State regulatory authority or nonregulated electric utility to permit such intervention and participation, and such court shall have jurisdiction to grant appropriate relief.

(3) Nothing in this subsection prohibits any person bringing any action under this subsection in a court of the United States from seeking review and enforcement at any time in any State court of any rights he may have with respect to any motion to intervene or participate in any proceeding.

(c) REVIEW AND ENFORCEMENT.—(1) Any person (including the Secretary) may obtain review of any determination made under subtitle A or B or under this subtitle with respect to any electric utility (other than a utility which is a Federal agency) in the appropriate State court if such person (or the Secretary) intervened or otherwise participated in the original proceeding or if State law otherwise permits such review. Any person (including the Secretary) may bring an action to enforce the requirements of this title in the appropriate State court, except that no such action may be brought in a State court with respect to a utility which is a Federal agency. Such review or action in a State court shall be pursuant to any applicable State procedures.

(2) Any person (including the Secretary) may obtain review in the appropriate court of the United States of any determination made under subtitle A or B or this subtitle by a Federal agency if such person (or the Secretary) intervened or otherwise participated in the original proceeding or if otherwise applicable law permits such review. SEC. 133. GATHERING INFORMATION ON COSTS OF SERVICE.

(a) INFORMATION REQUIRED TO BE GATHERED.—Each electric utility shall periodically gather information under such rules (promulgated by the Commission) as the Commission determines necessary to allow determination of the costs associated with providing electric service. For purposes of this section, and for purposes of any consideration and determination respecting the standard established by section 111(d)(2), such costs shall be separated, to the maximum extent practicable, into the following components: customer cost component, demand cost component, and energy cost component. Rules under this subsection shall include requirements for the gathering of the following information with respect to each electric utility—

(1) the costs of serving each electric consumer class, including costs of serving different consumption patterns within such class, based on voltage level, time of use, and other appropriate factors;

(2) daily kilowatt demand load curves for all electric consumer classes combined representative of daily and seasonal differences in demand, and daily kilowatt demand load curves for each electric consumer class for which there is a separate rate, representative of daily and seasonal differences in demand;

(3) annual capital, operating, and maintenance costs—

(b) COMMISSION RULES.—The Commission shall, within 180 days after the date of enactment of this Act, by rule, prescribe the methods, procedure, and format to be used by electric utilities in gathering the information described in this section. Such rules may provide for the exemption by the Commission of an electric utility or class of electric utilities from gathering all or part of such information, in cases where such utility or utilities show and the Commission finds, after public notice and opportunity for the presentation of written data, views, and arguments, that gathering such information is not likely to carry out the purposes of this section. The Commission shall periodically review such findings and may revise such rules.

Review.

(c) FILING AND PUBLICATION.—Not later than two years after the date of enactment of this Act, and periodically, but not less frequently than every two years thereafter, each electric utility shall file with—

(1) the Commission, and

(2) any State regulatory authority which has ratemaking authority for such utility,

the information gathered pursuant to this section and make such information available to the public in such form and manner as the Commission shall prescribe. In addition, at the time of application for, or proposal of, any rate increase, each electric utility shall make such information available to the public in such form and manner as the Commission shall prescribe. The two-year period after the date of the enactment specified in this subsection may be extended by the Commission for a reasonable additional period in the case of any electric utility for good cause shown.

(d) ENFORCEMENT.—For purposes of enforcement, any violation of a requirement of this section shall be treated as a violation of a provision of the Energy Supply and Environmental Coordination Act of 1974 enforceable under section 12 of such Act (notwithstanding any expiration date in such Act) except that in applying the provisions of such section 12 any reference to the Federal Energy Administrator shall be treated as a reference to the Commission. 15 USC 797.

"CERTAIN WHEELING AUTHORITY

"SEC. 211. (a) Any electric utility or Federal power marketing agency may apply to the Commission for an order under this subsection requiring any other electric utility to provide transmission services to the applicant (including any enlargement of transmission capacity necessary to provide such services). Upon receipt of such application, after public notice and notice to each affected State regulatory authority, each affected electric utility, and each affected Federal power marketing agency, and after affording an opportunity for an evidentiary hearing, the Commission may issue such order if it finds that such order— 16 USC 824j.

"(b) Any electric utility, or Federal power marketing agency, which purchases electric energy for resale from any other electric utility may apply to the Commission for an order under this subsection requiring such other electric utility to provide transmission services to the applicant (including any increase in transmission capacity necessary to provide such services). Upon receipt of an application under this subsection, after public notice and notice to each affected State regulatory authority, each affected electric utility, and each affected Federal power marketing agency, and after affording an opportunity for an evidentiary hearing, the Commission may issue such an order if the Commission determines that—

"(1) such other electric utility has given actual or constructive notice that it is unwilling or unable to provide electric service to the applicant and has been requested by the applicant to provide the transmission services requested in the application under this subsection, and

"(B) currently provided to the applicant by the utility subject to the order pursuant to a rate schedule on file during such period with the Commission.

"(3) No order may be issued under the authority of subsection (a) or (b) which is inconsistent with any State law which governs the retail marketing areas of electric utilities.

"(4) No order may be issued under subsection (a) or (b) which provides for the transmission of electric energy directly to an ultimate consumer.

"(d)(1) Any electric utility ordered under subsection (a) or (b) to provide transmission services may apply to the Commission for an order permitting such electric utility to cease providing all, or any portion of, such services. After public notice, notice to each affected State regulatory authority, each affected Federal power marketing agency, and each affected electric utility, and after an opportunity for an evidentiary hearing, the Commission shall issue an order terminating or modifying the order issued under subsection (a) or (b), if the electric utility providing such transmission services has demonstrated, and the Commission has found, that—

"(A) due to changed circumstances, the requirements applicable, under this section and section 212, to the issuance of an order under subsection (a) or (b) are no longer met, or

Infra.

"(B) any transmission capacity of the utility providing transmission services under such order which was, at the time such order was issued, in excess of the capacity necessary to serve its own customers is no longer in excess of the capacity necessary for such purposes.

No order shall be issued under this subsection pursuant to a finding under subparagraph (A) unless the Commission finds that such order is in the public interest.

"(2) Any order issued under this subsection terminating or modifying an order issued under subsection (a) or (b) shall—

"(A) provide for any appropriate compensation, and

"(B) provide the affected electric utilities adequate opportunity and time to—

"(i) make suitable alternative arrangements for any transmission services terminated or modified, and

"(ii) insure that the interests of ratepayers of such utilities are adequately protected.

"(3) No order may be issued under this subsection terminating or modifying any order issued under subsection (a) or (b) if the order under subsection (a) or (b) includes terms and conditions agreed upon by the parties which—

"(A) fix a period during which transmission services are to be provided under the order under subsection (a) or (b), or

"(B) otherwise provide procedures or methods for terminating or modifying such order (including, if appropriate, the return of the transmission capacity when necessary to take into account an increase, after the issuance of such order, in the needs of the electric utility subject to such order for transmission capacity).

"(e) As used in this section, the term 'facilities' means only facilities used for the generation or transmission of electric energy.".

SEC. 204. GENERAL PROVISIONS REGARDING CERTAIN INTERCONNECTION AND WHEELING AUTHORITY.

(a) RESTRICTIONS AND OTHER PROVISIONS.—Part II of the Federal Power Act, as amended by sections 202 and 203 of this Act, is further amended by adding the following new section at the end thereof:

16 USC 824.

"PROVISIONS REGARDING CERTAIN ORDERS REQUIRING INTERCONNECTION OR WHEELING

16 USC 824k.
Ante, pp. 3135, 3137.

"SEC. 212. (a) No order may be issued by the Commission under section 210 or subsection (a) or (b) of section 211 unless the Commission determines that such order—

"(1) is not likely to result in a reasonably ascertainable uncompensated economic loss for any electric utility, qualifying cogenerator, or qualifying small power producer, as the case may be, affected by the order;

"(2) will not place an undue burden on an electric utility, qualifying cogenerator, or qualifying small power producer, as the case may be, affected by the order;

"(3) will not unreasonably impair the reliability of any electric utility affected by the order; and

"(4) will not impair the ability of any electric utility affected by the order to render adequate service to its customers.

The determination under paragraph (1) shall be based upon a showing of the parties. The Commission shall have no authority under section 210 or 211 to compel the enlargement of generating facilities.

Ante, pp. 3135, 3137.

"(b) No order may be issued under section 210 or subsection (a) or (b) of section 211 unless the applicant for such order demonstrates that he is ready, willing, and able to reimburse the party subject to such order for—

"(1) in the case of an order under section 210, such party's share of the reasonably anticipated costs incurred under such order, and

"(2) in the case of an order under subsection (a) or (b) of section 211—

"(A) the reasonable costs of transmission services, including the costs of any enlargement of transmission facilities, and

"(B) a reasonable rate of return on such costs, as appropriate, as determined by the Commission.

"(c)(1) Before issuing an order under section 210 or subsection (a) or (b) of section 211, the Commission shall issue a proposed order and set a reasonable time for parties to the proposed interconnection or transmission order to agree to terms and conditions under which such order is to be carried out, including the apportionment of costs between them and the compensation or reimbursement reasonably due to any of them. Such proposed order shall not be reviewable or enforceable in any court. The time set for such parties to agree to such terms and conditions may be shortened if the Commission determines that delay would jeopardize the attainment of the purposes of any proposed order. Any terms and conditions agreed to by the parties shall be subject to the approval of the Commission.

"(2)(A) If the parties agree as provided in paragraph (1) within the time set by the Commission and the Commission approves such agreement, the terms and conditions shall be included in the final order. In the case of an order under section 210, if the parties fail to agree within the time set by the Commission or if the Commission does not approve any such agreement, the Commission shall prescribe such terms and conditions and include such terms and conditions in the final order.

"(B) In the case of any order applied for under section 211, if the parties fail to agree within the time set by the Commission, the Commission shall prescribe such terms and conditions in the final order.

"(d) If the Commission does not issue any order applied for under section 210 or 211, the Commission shall, by order, deny such application and state the reasons for such denial.

"(e) No provision of section 210 or 211 shall be treated—

"(1) as requiring any person to utilize the authority of such section 210 or 211 in lieu of any other authority of law, or

"(2) as limiting, impairing, or otherwise affecting any authority of the Commission under any other provision of law.

"(f)(1) No order under section 210 or 211 requiring the Tennessee Valley Authority (hereinafter in this subsection referred to as the

'TVA') to take any action shall take effect for 60 days following the date of issuance of the order. Within 60 days following the issuance by the Commission of any order under section 210 or of section 211 requiring the TVA to enter into any contract for the sale or delivery of power, the Commission may on its own motion initiate, or upon petition of any aggrieved person shall initiate, an evidentiary hearing to determine whether or not such sale or delivery would result in violation of the third sentence of section 15d(a) of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831n–4), hereinafter in this subsection referred to as the TVA Act.

"(2) Upon initiation of any evidentiary hearing under paragraph (1), the Commission shall give notice thereof to any applicant who applied for and obtained the order from the Commission, to any electric utility or other entity subject to such order, and to the public, and shall promptly make the determination referred to in paragraph (1). Upon initiation of such hearing, the Commission shall stay the effectiveness of the order under section 210 or 211 until whichever of the following dates is applicable—

Ante, pp. 2135, 2137.

"(A) the date on which there is a final determination (including any judicial review thereof under paragraph (3)) that no such violation would result from such order, or

"(B) the date on which a specific authorization of the Congress (within the meaning of the third sentence of section 15d(a) of the TVA Act) takes effect.

"(3) Any determination under paragraph (1) shall be reviewable only in the appropriate court of the United States upon petition filed by any aggrieved person or municipality within 60 days after such determination, and such court shall have jurisdiction to grant appropriate relief. Any applicant who applied for and obtained the order under section 210 or 211, and any electric utility or other entity subject to such order shall have the right to intervene in any such proceeding in such court. Except for review by such court (and any appeal or other review by an appellate court of the United States), no court shall have jurisdiction to consider any action brought by any person to enjoin the carrying out of any order of the Commission under section 210 or section 211 requiring the TVA to take any action on the grounds that such action requires a specific authorization of the Congress pursuant to the third sentence of section 15d(a) of the TVA Act.".

16 USC 824.

(b) Application of Federal Power Act.—(1) Section 201(b) of such Act is amended by inserting "(1)" after "(b)", by inserting "except as provided in paragraph (2)" after "but" in the first sentence thereof. and by adding the following at the end thereof:

Ante, p. 3138.

Compliance with any order of the Commission under the provisions of section 210 or 211, shall not make an electric utility or other entity subject to the jurisdiction of the Commission for any purposes other than the purposes specified in the preceding sentence.".

(2) Section 201(e) of such Act is amended by inserting "(other than facilities subject to such jurisdiction solely by reason of section 210, 211, or 212)" after "under this part".

SEC. 205. POOLING.

(a) State Laws.—The Commission may, on its own motion, and shall, on application of any person or governmental entity, after public notice and notice to the Governor of the affected State and after affording an opportunity for public hearing, exempt electric utilities, in whole or in part, from any provision of State law, or from any State rule or regulation, which prohibits or prevents the voluntary coordination of electric utilities, including any agreement for central dispatch, if the Commission determines that such voluntary coordination is designed to obtain economical utilization of facilities and resources in any area. No such exemption may be granted if the Commission finds that such provision of State law, or rule or regulation—

(1) is required by any authority of Federal law, or

(2) is designed to protect public health, safety, or welfare, or the environment or conserve energy or is designed to mitigate the effects of emergencies resulting from fuel shortages.

(b) Pooling Study.—(1) The Commission, in consultation with the reliability councils established under section 202(a) of the Federal Power Act, the Secretary, and the electric utility industry shall study the opportunities for—

16 USC 824a.

(A) conservation of energy,

(B) optimization in the efficiency of use of facilities and resources, and

(C) increased reliability,

through pooling arrangements. Not later than 18 months after the date of the enactment of this Act, the Commission shall submit a report containing the results of such study to the President and the Congress.

(2) The Commission may recommend to electric utilities that such utilities should voluntarily enter into negotiations where the opportunities referred to in paragraph (1) exist. The Commission shall report annually to the President and the Congress regarding any such recommendations and subsequent actions taken by electric utilities, by the Commission, and by the Secretary under this Act, the Federal Power Act, and any other provision of law. Such annual reports shall be included in the Commission's annual report required under the Department of Energy Organization Act.

(a) Amendment of Federal Power Act.—Section 202 of the Federal Power Act is amended by adding the following new subsection at the end thereof:

16 USC 824a.

"(g) In order to insure continuity of service to customers of public utilities, the Commission shall require, by rule, each public utility to—

"(1) report promptly to the Commission and any appropriate State regulatory authorities any anticipated shortage of electric energy or capacity which would affect such utility's capability of serving its wholesale customers,

"(2) submit to the Commission, and to any appropriate State regulatory authority, and periodically revise, contingency plans respecting—

"(A) shortages of electric energy or capacity, and

"(B) circumstances which may result in such shortages, and

"(3) accommodate any such shortages or circumstances in a manner which shall—

"(A) give due consideration to the public health, safety, and welfare, and

"(B) provide that all persons served directly or indirectly by such public utility will be treated, without undue prejudice or disadvantage.".

SEC. 207. CONSIDERATION OF PROPOSED RATE INCREASES.

16 USC 824d.

(a) NOTICE PERIOD.—Section 205(d) of the Federal Power Act is amended by striking out "thirty" each place it appears and substituting "sixty".

16 USC 824d note.

Report to Congress.

(b) STUDY.—The chairman of the Federal Energy Regulatory Commission, in consultation with the Secretary, is directed to conduct a study of the legal requirements and administrative procedures involved in the consideration and resolution of proposed wholesale electric rate increases under the Federal Power Act for the purposes of (1) providing for expeditious handling of hearings consistent with due process, (2) preventing the imposition of successive rate increases before they have been determined by the Commission to be just and reasonable and otherwise lawful, and (3) improving procedures designed to prohibit anticompetitive or unreasonable differences in wholesale and retail rates, or both. The chairman shall report to Congress within nine months from the date of enactment of this Act on the results of the study required under this section, on the administrative actions taken as a result of this study, and on any recommendations for changes in existing law that will aid the purposes of this section.

SEC. 208. AUTOMATIC ADJUSTMENT CLAUSES.

Section 205 of the Federal Power Act is amended by adding the following new subsection at the end thereof:

"(f)(1) Not later than 2 years after the date of the enactment of this subsection and not less often than every 4 years thereafter, the Commission shall make a thorough review of automatic adjustment clauses in public utility rate schedules to examine—

"(A) whether or not each such clause effectively provides incentives for efficient use of resources (including economical purchase and use of fuel and electric energy), and

"(B) whether any such clause reflects any costs other than costs which are—

"(i) subject to periodic fluctuations and

"(ii) not susceptible to precise determinations in rate cases prior to the time such costs are incurred.

Such review may take place in individual rate proceedings or in generic or other separate proceedings applicable to one or more utilities.

"(2) Not less frequently than every 2 years, in rate proceedings or in generic or other separate proceedings, the Commission shall review, with respect to each public utility, practices under any automatic adjustment clauses of such utility to insure efficient use of resources (including economical purchase and use of fuel and electric energy) under such clauses.

"(3) The Commission may, on its own motion or upon complaint, after an opportunity for an evidentiary hearing, order a public utility to—

"(A) modify the terms and provisions of any automatic adjustment clause, or

"(B) cease any practice in connection with the clause,

if such clause or practice does not result in the economical purchase and use of fuel, electric energy, or other items, the cost of which is included in any rate schedule under an automatic adjustment clause.

"(4) As used in this subsection, the term 'automatic adjustment clause' means a provision of a rate schedule which provides for increases or decreases (or both), without prior hearing, in rates reflecting increases or decreases (or both) in costs incurred by an electric utility. Such term does not include any rate which takes effect subject to refund and subject to a later determination of the appropriate amount of such rate.".

"Automatic adjustment clause."

SEC. 209. RELIABILITY.

16 USC 824a-2.

(a) STUDY.—(1) The Secretary, in consultation with the Commission, shall conduct a study with respect to—

(A) the level of reliability appropriate to adequately serve the needs of electric consumers, taking into account cost effectiveness and the need for energy conservation,

(B) the various methods which could be used in order to achieve such level of reliability and the cost effectiveness of such methods, and

(C) the various procedures that might be used in case of an emergency outage to minimize the public disruption and economic loss that might be caused by such an outage and the cost effectiveness of such procedures.

Such study shall be completed and submitted to the President and the Congress not later than 18 months after the date of the enactment of this Act. Before such submittal the Secretary shall provide an opportunity for public comment on the results of such study.

Report to President and Congress.

(2) The study under paragraph (1) shall include consideration of the following:

(A) the cost effectiveness of investments in each of the components involved in providing adequate and reliable electric service, including generation, transmission, and distribution facilities, and devices available to the electric consumer;

(B) the environmental and other effects of the investments considered under subparagraph (A);

(C) various types of electric utility systems in terms of generation, transmission, distribution and customer mix, the extent to which differences in reliability levels may be desirable, and the cost-effectiveness of the various methods which could be used to decrease the number and severity of any outages among the various types of systems;

(D) alternatives to adding new generation facilities to achieve such desired levels of reliability (including conservation);

(E) the cost-effectiveness of adding a number of small, decentralized conventional and nonconventional generating units rather than a small number of large generating units with a similar total megawatt capacity for achieving the desired level of reliability; and

(F) any standards for electric utility reliability used by, or suggested for use by, the electric utility industry in terms of cost-effectiveness in achieving the desired level of reliability, including equipment standards, standards for operating procedures and training of personnel, and standards relating the number and severity of outages to periods of time.

(b) EXAMINATION OF RELIABILITY ISSUES BY RELIABILITY COUNCILS.—The Secretary, in consultation with the Commission, may, from time to time, request the reliability councils established under section 202(a) of the Federal Power Act or other appropriate persons (including Federal agencies) to examine and report to him concerning

16 USC 824a.

any electric utility reliability issue. The Secretary shall report to the Congress (in its annual report or in the report required under subsection (a) if appropriate) the results of any examination under the preceding sentence. Report to Congress.

(c) Department of Energy Recommendations.—The Secretary, in consultation with the Commission, and after opportunity for public comment, may recommend industry standards for reliability to the electric utility industry, including standards with respect to equipment, operating procedures and training of personnel, and standards relating to the level or levels of reliability appropriate to adequately and reliably serve the needs of electric consumers. The Secretary shall include in his annual report—

(1) any recommendations made under this subsection or any recommendations respecting electric utility reliability problems under any other provision of law, and

(2) a description of actions taken by electric utilities with respect to such recommendations.

SEC. 210. COGENERATION AND SMALL POWER PRODUCTION.

16 USC 824a-3.

(a) Cogeneration and Small Power Production Rules.—Not later than 1 year after the date of enactment of this Act, the Commission shall prescribe, and from time to time thereafter revise, such rules as it determines necessary to encourage cogeneration and small power production which rules require electric utilities to offer to—

(1) sell electric energy to qualifying cogeneration facilities and qualifying small power production facilities and

(2) purchase electric energy from such facilities.

Such rules shall be prescribed, after consultation with representatives of Federal and State regulatory agencies having ratemaking authority for electric utilities, and after public notice and a reasonable opportunity for interested persons (including State and Federal agencies) to submit oral as well as written data, views, and arguments. Such rules shall include provisions respecting minimum reliability of qualifying cogeneration facilities and qualifying small power production facilities (including reliability of such facilities during emergencies) and rules respecting reliability of electric energy service to be available to such facilities from electric utilities during emergencies. Such rules may not authorize a qualifying cogeneration facility or qualifying small power production facility to make any sale for purposes other than resale.

(b) Rates for Purchases by Electric Utilities.—The rules prescribed under subsection (a) shall insure that, in requiring any electric utility to offer to purchase electric energy from any qualifying cogeneration facility or qualifying small power production facility, the rates for such purchase—

(1) shall be just and reasonable to the electric consumers of the electric utility and in the public interest, and

(2) shall not discriminate against qualifying cogenerators or qualifying small power producers.

No such rule prescribed under subsection (a) shall provide for a rate which exceeds the incremental cost to the electric utility of alternative electric energy.

(c) Rates for Sales by Utilities.—The rules prescribed under subsection (a) shall insure that, in requiring any electric utility to offer to sell electric energy to any qualifying cogeneration facility or qualifying small power production facility, the rates for such sale—

(1) shall be just and reasonable and in the public interest, and

(2) shall not discriminate against the qualifying cogenerators or qualifying small power producers.

(d) Definition.—For purposes of this section, the term "incremental cost of alternative electric energy" means, with respect to electric energy purchased from a qualifying cogenerator or qualifying small power producer, the cost to the electric utility of the electric energy which, but for the purchase from such cogenerator or small power producer, such utility would generate or purchase from another source.

(e) Exemptions.—(1) Not later than 1 year after the date of enactment of this Act and from time to time thereafter, the Commission shall, after consultation with representatives of State regulatory authorities, electric utilities, owners of cogeneration facilities and owners of small power production facilities, and after public notice and a reasonable opportunity for interested persons (including State and Federal agencies) to submit oral as well as written data, views, and arguments, prescribe rules under which qualifying cogeneration facilities and qualifying small power production facilities are exempted in whole or part from the Federal Power Act, from the Public Utility Holding Company Act, from State laws and regulations respecting the rates, or respecting the financial or organizational regulation, of electric utilities, or from any combination of the foregoing, if the Commission determines such exemption is necessary to encourage cogeneration and small power production.

Rules.

16 USC 791a.
15 USC 79.

(2) No qualifying small power production facility which has a power production capacity which, together with any other facilities located at the same site (as determined by the Commission), exceeds 30 megawatts may be exempted under rules under paragraph (1) from any provision of law or regulation referred to in paragraph (1), except that any qualifying small power production facility which produces electric energy solely by the use of biomass as a primary energy source, may be exempted by the Commission under such rules from the Public Utility Holding Company Act and from State laws and regulations referred to in such paragraph (1).

(3) No qualifying small power production facility or qualifying cogeneration facility may be exempted under this subsection from—

(A) any State law or regulation in effect in a State pursuant to subsection (f),

(B) the provisions of section 210, 211, or 212 of the Federal Power Act or the necessary authorities for enforcement of any such provision under the Federal Power Act, or

Ante, pp. 3135, 3137, 3138.

(C) any license or permit requirement under part I of the Federal Power Act, any provision under such Act related to such a license or permit requirement, or the necessary authorities for enforcement of any such requirement.

(f) Implementation of Rules for Qualifying Cogeneration and Qualifying Small Power Production Facilities.—(1) Beginning on or before the date one year after any rule is prescribed by the Commission under subsection (a) or revised under such subsection, each State regulatory authority shall, after notice and opportunity for public hearing, implement such rule (or revised rule) for each electric utility for which it has ratemaking authority.

Notice and hearing.

(2) Beginning on or before the date one year after any rule is prescribed by the Commission under subsection (a) or revised under such subsection, each nonregulated electric utility shall, after notice and opportunity for public hearing, implement such rule (or revised rule).

Notice and hearing.

(g) Judicial Review and Enforcement.—(1) Judicial review may be obtained respecting any proceeding conducted by a State regulatory authority or nonregulated electric utility for purposes of implementing any requirement of a rule under subsection (a) in the same manner, and under the same requirements, as judicial review may be obtained under section 123 in the case of a proceeding to which section 123 applies.

(2) Any person (including the Secretary) may bring an action against any electric utility, qualifying small power producer, or qualifying cogenerator to enforce any requirement established by a State regulatory authority or nonregulated electric utility pursuant to subsection (f). Any such action shall be brought only in the manner, and under the requirements, as provided under section 123 with respect to an action to which section 123 applies.

(h) COMMISSION ENFORCEMENT.—(1) For purposes of enforcement of any rule prescribed by the Commission under subsection (a) with respect to any operations of an electric utility, a qualifying cogeneration facility or a qualifying small power production facility which are subject to the jurisdiction of the Commission under part II of the Federal Power Act, such rule shall be treated as a rule under the Federal Power Act. Nothing in subsection (g) shall apply to so much of the operations of an electric utility, a qualifying cogeneration facility or a qualifying small power production facility as are subject to the jurisdiction of the Commission under part II of the Federal Power Act. 16 USC 824.

(2)(A) The Commission may enforce the requirements of subsection (f) against any State regulatory authority or nonregulated electric utility. For purposes of any such enforcement, the requirements of subsection (f)(1) shall be treated as a rule enforceable under the Federal Power Act. For purposes of any such action, a State regulatory authority or nonregulated electric utility shall be treated as a person within the meaning of the Federal Power Act. No enforcement action may be brought by the Commission under this section other than— 16 USC 791a.

(i) an action against the State regulatory authority or nonregulated electric utility for failure to comply with the requirements of subsection (f) or

(ii) an action under paragraph (1).

(B) Any electric utility, qualifying cogenerator, or qualifying small power producer may petition the Commission to enforce the requirements of subsection (f) as provided in subparagraph (A) of this paragraph. If the Commission does not initiate an enforcement action under subparagraph (A) against a State regulatory authority or nonregulated electric utility within 60 days following the date on which a petition is filed under this subparagraph with respect to such authority, the petitioner may bring an action in the appropriate United States district court to require such State regulatory authority or nonregulated electric utility to comply with such requirements, and such court may issue such injunctive or other relief as may be appropriate. The Commission may intervene as a matter of right in any such action.

(i) FEDERAL CONTRACTS.—No contract between a Federal agency and any electric utility for the sale of electric energy by such Federal agency for resale which is entered into after the date of the enactment of this Act may contain any provision which will have the effect of preventing the implementation of any rule under this section with respect to such utility. Any provision in any such contract which has such effect shall be null and void.

(j) Definitions.—For purposes of this section, the terms "small power production facility", "qualifying small power production facility", "qualifying small power producer", "primary energy source", "cogeneration facility", "qualifying cogeneration facility", and "qualifying cogenerator" have the respective meanings provided for such terms under section 3 (17) and (18) of the Federal Power Act. *Ante*, p. 3134.

(1) no gas service to a gas consumer may be terminated unless reasonable prior notice (including notice of rights and remedies) is given to such consumer and such consumer has a reasonable opportunity to dispute the reasons for such termination, and

(2) during any period when termination of service to a gas consumer would be especially dangerous to health, as determined by the State regulatory authority (with respect to each gas utility for which it has ratemaking authority) or nonregulated gas utility, and such consumer establishes that—

(A) he is unable to pay for such service in accordance with the requirements of the utility's billing, or

(B) he is able to pay for such service but only in installments,

such service may not be terminated.

Such procedures shall take into account the need to include reasonable provisions for elderly and handicapped consumers.

(b) ADVERTISING.—(1) For purposes of this section and section 303—

(A) advertising which informs natural gas consumers how they can conserve natural gas or can reduce peak demand for natural gas,

(B) advertising required by law or regulation, including advertising required under part 1 of title II of the National Energy Conservation Policy Act,

Post, p. 3209.

(C) advertising regarding service interruptions, safety measures, or emergency conditions,

TITLE V—CRUDE OIL TRANSPORTATION SYSTEMS

SEC. 501. FINDINGS.

43 USC 2001.

The Congress finds and declares that—

(1) a serious crude oil supply shortage may soon exist in portions of the United States;

(2) a large surplus of crude oil on the west coast of the United States is projected;

(3) any substantial curtailment of Canadian crude oil exports to the United States could create a severe crude oil shortage in the northern tier States;

(4) pending the authorization and completion of west-to-east crude oil delivery systems, Alaskan crude oil in excess of west coast needs will be transshipped through the Panama Canal at a high transportation cost;

(5) national security and regional supply requirements may be such that west-to-east crude delivery systems serving both the northern tier States and inland States, consistent with the requirements of section 410 of the Act approved November 16, 1973 (87 Stat. 594), commonly known as the Trans-Alaska Pipeline Authorization Act, are needed; 43 USC 1651 note.

(6) expeditious Federal and State decisions for west-to-east crude oil delivery systems are of the utmost priority; and

(7) resolution of the west coast crude oil surplus and the need for crude oil in northern tier States and inland States require the assignment and coordination of overall responsibility within the executive branch to permit expedited action on all necessary environmental assessments and decisions on permit applications concerning delivery systems.

SEC. 502. STATEMENT OF PURPOSES.

43 USC 2002.

The purposes of this title are—

(1) to provide a means for—

(A) selecting delivery systems to transport Alaskan and other crude oil to northern tier States and inland States, and

(B) resolving both the west coast crude oil surplus and the crude oil supply problems in the northern tier States;

(2) to provide an expedited procedure for acting on applications for all Federal permits, licenses, and approvals required for the construction and operation or any transportation system approved under this title and the Long Beach-Midland project; and

(3) to assure that Federal decisions with respect to crude oil transportation systems are coordinated with State decisions to the maximum extent practicable.

43 USC 2003.

SEC. 503. DEFINITIONS.

As used in this title—

(1) The term "northern tier States" means the States of Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Michigan, Wisconsin, Illinois, Indiana, and Ohio.

(2) The term "inland States" means those States in the United States other than northern tier States and the States of California, Alaska, and Hawaii.

(3) The term "crude oil transportation system" means a crude oil delivery system (including the location of such system) for transporting Alaskan and other crude oil to northern tier States and inland States, but such term does not include the Long Beach-Midland project.

(4) The term "Long Beach-Midland project" means the crude oil delivery system which was the subject of, and is generally described in, the "Final Environmental Impact Statement, Crude Oil Transportation System: Valdez, Alaska, to Midland, Texas (as proposed by Sohio Transportation Company)", the availability of which was announced by the Department of the Interior in the Federal Register on June 1, 1977 (42 Fed. Reg. 28008).

(5) The term "Federal agency" means an Executive agency, as defined in section 105 of title 5, United States Code.

43 USC 2004.

The following applications for construction and operation of a crude oil transportation system submitted to the Secretary of the Interior by an applicant are eligible for consideration under this title:

(1) Applications received by the Secretary before the 30th day after the date of the enactment of this Act.

(2) Applications received by the Secretary during the 60-day period beginning on the 30th day after the date of the enactment of this Act, if the Secretary determines that consideration and review of the proposal contained in such application is in the national interest and that such consideration and review could be completed within the time limits established under this title.

An application under this section may be accepted by the Secretary only if it contains a general description of the route of the proposed system and identification of the applicant and any other person who, at the time of filing, has a financial or other interest in the system or is a party to an agreement under which such person would acquire a financial or other interest in the system.

43 USC 2005.

SEC. 505. REVIEW SCHEDULE.

(a) ESTABLISHMENT.—The Secretary of the Interior, after consultation with the heads of appropriate Federal agencies, shall establish an expedited schedule for conducting reviews and making recommendations concerning crude oil transportation systems proposed in applications filed under section 504 and for obtaining information necessary for environmental impact statements required under section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) with respect to such proposed systems.

There are authorized to be appropriated to the Secretary of the Interior to carry out his responsibilities under this title not to exceed $500,000 for the fiscal year ending on September 30, 1978, and not to exceed $1,000,000 for the fiscal year ending on September 30, 1979.

TITLE VI—MISCELLANEOUS PROVISIONS

16 USC 2621 note.

SEC. 601. STUDY CONCERNING ELECTRIC RATES OF STATE UTILITY AGENCIES.

(a) Study and Report.—The Secretary, in consultation with the Commission and appropriate State regulatory authorities and other persons, shall conduct a study concerning the effects of provisions of Federal law on rate established by State utility agencies. The Secretary shall submit a report to Congress containing the results of such study not later than 1 year after the date of the enactment of this Act.

Submittal to Congress.

"State utility agency."

(b) Definition.—The term "State utility agency" means an agency of a State (not including any political subdivision or agency thereof or any public power district) which is an electric utility.

16 USC 824a–4.

SEC. 602. SEASONAL DIVERSITY ELECTRICITY EXCHANGE.

(a) Authority.—The Secretary may acquire rights-of-way by purchase, including eminent domain, through North Dakota, South Dakota, and Nebraska for transmission facilities for the seasonal diversity exchange of electric power to and from Canada if he determines—

(1) after opportunity for public hearing—

(A) that the exchange is in the public interest and would further the purposes referred to in section 101 (1) and (2) of this Act and that the acquisition of such rights-of-way and the construction and operation of such transmission facilities for such purposes is otherwise in the public interest,

Ante, p. 3120.

(B) that a permit has been issued in accordance with subsection (b) for such construction, operation, maintenance, and connection of the facilities at the border for the transmission of electric energy between the United States and Canada as is necessary for such exchange of electric power, and

(C) that each affected State has approved the portion of the transmission route located in each State in accordance with applicable State law, or if there is no such applicable State law in such State, the Governor has approved such portion; and

(2) after consultation with the Secretary of the Interior and the heads of other affected Federal agencies, that the Secretary of the Interior and the heads of such, other agencies concur in writing in the location of such portion of the transmission facilities as crosses Federal land under the jurisdiction of such Secretary or such other Federal agency, as the case may be.

Cooperation and technical assistance.

The Secretary shall provide to any State such cooperation and technical assistance as the State may request and as he determines appropriate in the selection of a transmission route. If the transmission route approved by any State does not appear to be feasible and in the public interest, the Secretary shall encourage such State to review such route and to develop a route that is feasible and in the public interest. Any exercise by the Secretary of the power of eminent domain under this section shall be in accordance with other applicable provisions of Federal law. The Secretary shall provide public notice of his intention to acquire any right-of-way before exercising such power of eminent domain with respect to such right-of-way.

Notice.

(b) PERMIT.—Notwithstanding any transfer of functions under the first sentence of section 301(b) of the Department of Energy Organization Act, no permit referred to in subsection (a)(1)(B) may be issued unless the Commission has conducted hearings and made the findings required under section 202(e) of the Federal Power Act and under the applicable execution order respecting the construction, operation, maintenance, or connection at the borders of the United States of facilities for the transmission of electric energy between the United States and a foreign country. Any finding of the Commission under an applicable executive order referred to in this subsection shall be treated for purposes of judicial review as an order issued under section 202(e) of the Federal Power Act.

42 USC 7151.

16 USC 824a.

(c) TIMELY ACQUISITION BY OTHER MEANS.—The Secretary may not acquire any rights-of-day under this section unless he determines that the holder or holders of a permit referred to in subsection (a)(1)(B) are unable to acquire such rights-of-way under State condemnation authority, or after reasonable opportunity for negotiation, without unreasonably delaying construction, taking into consideration the impact of such delay on completion of the facilities in a timely fashion.

(d) PAYMENTS BY PERMITTEES.—(1) The property interest acquired by the Secretary under this section (whether by eminent domain or other purchase) shall be transferred by the Secretary to the holder of a permit referred to in subsection (b) if such holder has made payment to the Secretary of the entire costs of the acquisition of such property interest, including administrative costs. The Secretary may accept, and expend, for purposes of such acquisition, amounts from any such person before acquiring a property interest to be transferred to such person under this section.

(2) If no payment is made by a permit holder under paragraph (1), within a reasonable time, the Secretary shall offer such rights-of-way to the original owner for reacquisition at the original price paid by the Secretary. If such original owner refuses to reacquire such property after a reasonable period, the Secretary shall dispose of such property in accordance with applicable provisions of law governing disposal of property of the United States.

(e) FEDERAL LAW GOVERNING FEDERAL LANDS.—This section shall not affect any Federal law governing Federal lands.

(f) REPORTS.—The Secretary shall report annually to the Congress on the actions, if any, taken pursuant to this section.

SEC. 605. CONSERVED NATURAL GAS.

15 USC 717x.

(a) GENERAL RULE.—(1) For purposes of determining the natural gas entitlement of any local distribution company under any curtailment plan, if the Commission revises any base period established under such plan, the volumes of natural gas which such local distribution company demonstrates—

(A) were sold by the local distribution company, for a priority use immediately before the implementation of conservation measures, and

(B) were conserved by reason of the implementation of such conservation measures,

shall be treated by the Commission following such revision as continuing to be used for the priority use referred to in subparagraph (A).

(2) The Commission shall, by rule, prescribe methods for measurement of volumes of natural gas to which subparagraphs (A) and (B) of paragraph (1) apply.

(b) CONDITIONS, LIMITATIONS, ETC.—Subsection (a) shall not limit or otherwise affect any provision of any curtailment plan, or any other provision of law or regulation, under which natural gas may be diverted or allocated to respond to emergency situations or to protect public health, safety, and welfare.

(c) DEFINITIONS.—For purposes of this section—

(1) The term "conservation measures" means such energy conservation measures, as determined by the Commission, as were implemented after the base period established under the curtailment plan in effect on the date of the enactment of this Act.

(2) The term "local distribution company" means any person engaged in the transportation, or local distribution, of natural gas and the sale of natural gas for ultimate consumption.

(3) The term "curtailment plan" means a plan (including any modification of such plan required by the Natural Gas Policy Act of 1978) in effect under the Natural Gas Act which provides for recognizing and implementing priorities of service during periods of curtailed deliveries.

SEC. 606. VOLUNTARY CONVERSION OF NATURAL GAS USERS TO HEAVY FUEL OIL.

15 USC 717y.

(a) IN GENERAL.—(1) In order to facilitate voluntary conversion of facilities from the use of natural gas to the use of heavy petroleum fuel oil, the Commission shall, by rule, provide a procedure for the approval by the Commission of any transfer to any person described in paragraph 2(B) (i), (ii), or (iii) of contractual interests involving the receipt of natural gas described in paragraph 2(A).

(2)(A) The rule required under paragraph (1) shall apply to—

(i) natural gas—

(I) received by the user pursuant to a contract entered into before September 1, 1977, not including any renewal or extension thereof entered into on or after such date other than any such extension or renewal pursuant to the exercise by such user of an option to extend or renew such contract;

(II) other than natural gas the sale for resale or the transportation of which was subject to the jurisdiction of the Federal Power Commission under the Natural Gas Act as of September 1, 1977; 15 USC 717w.

(III) which was used as a fuel in any facility in existence on September 1, 1977.

(ii) natural gas subject to a prohibition order issued under section 607.

(B) The rule required under paragraph (1) shall permit the transfer of contractual interests—

(i) to any interstate pipeline;

(ii) to any local distribution company served by an interstate pipeline; and

(iii) to any person served by an interstate pipeline for a high priority use by such person.

(3) The rule required under paragraph (1) shall provide that any transfer of contractual interests pursuant to such rule shall be under such terms and conditions as the Commission may prescribe. Such rule shall include a requirement for refund of any consideration, received by the person transferring contractual interests pursuant to such rule, to the extent such consideration exceeds the amount by which the costs actually incurred, during the remainder of the period of the contract with respect to which such contractual interests are transferred, in direct association with the use of heavy petroleum fuel oil as a fuel in the applicable facility exceeds the price under such contract for natural gas, subject to such contract, delivered during such period.

(4) In prescribing the rule required under paragraph (1), and in determining whether to approve any transfer of contractual interests, the Commission shall consider whether such transfer of contractual interests is likely to increase demand for imported refined petroleum products.

(b) Commission Approval.—(1) No transfer of contractual interests authorized by the rule required under subsection (a)(1) may take effect unless the Commission issues a certificate of public convenience and necessity for such transfer if such natural gas is to be resold by the person to whom such contractual interests are to be transferred. Such certificate shall be issued by the Commission in accordance with the requirements of this subsection and those of section 7 of the Natural Gas Act, and the provisions of such Act applicable to the determination of satisfaction of the public convenience and necessity requirements of such section. 15 USC 717f.

(2) The rule required under subsection (a)(1) shall set forth guidelines for the application on a regional or national basis (as the Commission determines appropriate) of the criteria specified in subsection (e)(2) and (3) to determine the maximum consideration permitted as just compensation under this section.

(c) Restrictions on Transfers Unenforceable.—Any provision of any contract, which provision prohibits any transfer of any contractual interests thereunder, or any commingling or transportation of natural gas subject to such contract with natural gas the sale for resale or transportation of which is subject to the jurisdiction of the Commission under the Natural Gas Act, or terminates such contract on the basis of any such transfer, commingling, or transportation, shall be unenforceable in any court of the United States and in any court of any State if applied with respect to any transfer approved under the rule required under subsection (a)(1).

(d) Contractual Obligations Unaffected.—The person acquiring contractual interests transferred pursuant to the rule required under subsection (a)(1) shall assume the contractual obligations which the person transferring such contractual interests has under such contract. This section shall not relieve the person transferring such contractual interests from any contractual obligation of such person under such contract if such obligation is not performed by the person acquiring such contractual interests.

(e) Definitions.—For purposes of this section—

(1) The term "natural gas" has the same meaning as provided by section 2(5) of the Natural Gas Act. 15 USC 717a.

(2) The term "just compensation", when used with respect to any contractual interests pursuant to the rule required under subsection (a)(1), means the maximum amount of, or method of determining, consideration which does not exceed the amount by which—

(A) the reasonable costs (not including capital costs) incurred, during the remainder of the period of the contract with respect to which contractual interests are transferred pursuant to the rule required under subsection (a)(1), in direct association with the use of heavy petroleum fuel oil as a fuel in the applicable facility, exceeds

(B) the price under such contract for natural gas, subject to such contract, delivered during such period.

For purposes of subparagraph (A), the reasonable costs directly associated with the use of heavy petroleum fuel oil as a fuel shall include an allowance for the amortization, over the remaining useful life, of the undepreciated value of depreciable assets located on the premises containing such facility, which assets were directly associated with the use of natural gas and are not usable in connection with the use of such heavy petroleum fuel oil.

(3) The term "just compensation", when used with respect to any intrastate pipeline which would have transported or distributed natural gas with respect to which contractual interests are transferred pursuant to the rule required under subsection (a)(1), means an amount equal to any loss of revenue, during the remaining period of the contract with respect to which contractual interests are transferred pursuant to the rule required under subsection (a)(1), to the extent such loss—

(A) is directly incurred by reason of the discontinuation of the transportation or distribution of natural gas resulting from the transfer of contractual interests pursuant to the rule required under subsection (a)(1); and

(B) is not offset by—

(i) a reduction in expenses associated with such discontinuation; and

(ii) revenues derived from other transportation or distribution which would not have occurred if such contractual interests had not been transferred.

(4) The term "contractual interests" means the right to receive natural gas under contract as affected by an applicable curtailment plan filed with the Commission or the appropriate State regulatory authority.

(5) The term "interstate pipeline" means any person engaged in natural gas transportation subject to the jurisdiction of the Commission under the Natural Gas Act.

15 USC 717w.

(6) The term "high-priority use" means any use of natural gas (other than its use for the generation of steam for industrial purposes or electricity) identified by the Commission as a high priority use for which the Commission determines a substitute fuel is not reasonably available.

(7) The term "heavy petroleum fuel oil" means number 4, 5, or 6 fuel oil which is domestically refined.

(8) The term "local distribution company" means any person, other than any intrastate pipeline or any interstate pipeline, engaged in the transportation, or local distribution, of natural gas and the sale of natural gas for ultimate consumption.

(9) The term "intrastate pipeline" means any person engaged in natural gas transportation (not including gathering) which is not subject to the jurisdiction of the Commission under the Natural Gas Act.

(10) The term "facility" means any electric powerplant, or major fuel burning installation, as such terms are defined in the Powerplant and Industrial Fuel Use Act of 1978.

Post, p. 3289.

(11) The term "curtailment plan" means a plan (including any modification of such plan required by the Natural Gas Policy Act of 1978), in effect under the Natural Gas Act or State law, which provides for recognizing and implementing priorities of service during periods of curtailed deliveries by any local distribution company, intrastate pipeline, or interstate pipeline.

(12) The term "interstate commerce" has the same meaning as such term has under the Natural Gas Act.

15 USC 717w.

(f) Coordination With the Natural Gas Act.—(1) Consideration in any transfer of contractual interests pursuant to the rule required under subsection (a)(1) of this section shall be deemed just and reasonable for purposes of sections 4 and 5 of the Natural Gas Act if such consideration does not exceed just compensation.

15 USC 717c, 717d.

15 USC 717w.

(2) No person shall be subject to the jurisdiction of the Commission under the Natural Gas Act as a natural gas-company (within the meaning of such Act) or to regulation as a common carrier under any provision of Federal or State law solely by reason of making any sale, or engaging in any transportation, of natural gas with respect to which contractual interests are transferred pursuant to the rule required under subsection (a)(1).

(3) Nothing in this section shall exempt from the jurisdiction of the Commission under the Natural Gas Act any transportation in interstate commerce of natural gas, any sale in interstate commerce for resale of natural gas, or any person engaged in such transportation or such sale to the extent such transportation, sale, or person is subject to the jurisdiction of the Commission under such Act without regard to the transfer of contractual interests pursuant to the rule required under subsection (a)(1).

(4) Nothing in this section shall exempt any person from any obligation to obtain a certificate of public convenience and necessity for the sale in interstate commerce for resale or the transportation in interstate commerce of natural gas with respect to which contractual interests are transferred pursuant to the rule required under subsection (a)(1).

(g) Volume Limitation.—No supplier of natural gas under any contract, with respect to which contractual interests have been transferred pursuant to the rule required under subsection (a)(1), shall be required to supply natural gas during any relevant period in volume amounts which exceed the lesser of—

(1) the volume determined by reference to the maximum delivery obligations specified in such contract;

(2) the volume which such supplier would have been required to supply, under the curtailment plan in effect for such supplier, to the person, who transferred contractual interests pursuant to the rule required under subsection (a)(1), if no such transfer had occurred; and

(3) the volume actually delivered or for which payment would have been made pursuant to such contract during the 12-calendar-month period ending immediately before such transfer of contractual interests.

SEC. 607. EMERGENCY CONVERSION OF UTILITIES AND OTHER FACILITIES.

15 USC 717z.

(a) Presidential Declaration.—The President may declare a natural gas supply emergency (or extend a previously declared emergency) if he finds that—

(1) a severe natural gas shortage, endangering the supply of natural gas for high-priority uses, exists or is imminent in the United States or in any region thereof; and

(2) the exercise of authorities under this section is reasonably necessary, having exhausted other alternatives (not including section 303 of the Natural Gas Policy Act of 1978) to the maximum extent practicable, to assist in meeting natural gas requirements for such high-priority uses.

Post, p. 3383.

(b) Limitation.—(1) Any declaration of a natural gas supply emergency (or extension thereof) under subsection (a), shall terminate at the earlier of—

(A) the date on which the President finds that any shortage described in subsection (a) does not exist or is not imminent; or

(B) 120 days after the date of such declaration of emergency (or extension thereof).

(2) Nothing in this subsection shall prohibit the President from extending, under subsection (a), any emergency (or extension thereof) previously declared under subsection (a), upon the expiration of such declaration of emergency (or extension thereof) under paragraph (1)(B).

(c) Prohibitions.—During a natural gas emergency declared under this section, the President may, by order, prohibit the burning of natural gas by any electric powerplant or major fuel-burning installation if the President determines that—

(1) such powerplant or installation had on September 1, 1977 (or at any time thereafter) the capability to burn petroleum products without damage to its facilities or equipment and without interference with operational requirements;

(2) significant quantities of natural gas which would otherwise be burned by such powerplant or installation could be made available before the termination of such emergency to any person served by an interstate pipeline for use by such person in a high-priority use; and

(3) petroleum products will be available for use by such powerplant or installation throughout the period the order is in effect.

(d) LIMITATIONS.—The President may specify in any order issued under this section the periods of time during which such order will be in effect and the quantity (or rate of use) of natural gas that may be burned by an electric powerplant or major fuel-burning installation during such period, including the burning of natural gas by an electric powerplant to meet peak load requirements. No such order may continue in effect after the termination or expiration of such natural gas supply emergency.

(e) EXEMPTION FOR SECONDARY USES.—The President shall exempt from any order issued under this section the burning of natural gas for the necessary processes of ignition, startup, testing, and flame stabilization by an electric powerplant or major fuel-burning installation.

(f) EXEMPTION FOR AIR-QUALITY EMERGENCIES.—The President shall exempt any electric powerplant or major fuel-burning installation in whole or in part, from any order issued under this section for such period and to such extent as the President determines necessary to alleviate any imminent and substantial endangerment to the health of persons within the meaning of section 303 of the Clean Air Act.

42 USC 1857h-1.

(g) LIMITATION ON INJUNCTIVE RELIEF.—(1) Except as provided in paragraph (2), no court shall have jurisdiction to grant any injunctive relief to stay or defer the implementation of any order issued under this section unless such relief is in connection with a final judgment entered with respect to such order.

(2)(A) On the petition of any person aggrieved by an order issued under this section, the United States District Court for the District of Columbia may, after an opportunity for a hearing before such court and on an appropriate showing, issue a preliminary injunction temporarily enjoining, in whole or in part, the implementation of such order.

(B) For purposes of this paragraph, subpenas for witnesses who are required to attend the District Court for the District of Columbia may be served in any judicial district of the United States, except that no writ of subpena under the authority of this section shall issue for witnesses outside of the District of Columbia at a greater distance than 100 miles from the place of holding court unless the permission of the District Court for the District of Columbia has been granted after proper application and cause shown.

(h) DEFINITIONS.—For purposes of this section—

(1) The terms "electric powerplant", "powerplant", "major fuel-burning installation", and "installation" shall have the same meanings as such terms have under section 103 of the Powerplant and Industrial Fuel Use Act of 1978.

Post, p. 3292.

(2) The term "petroleum products" means crude oil, or any product derived from crude oil other than propane.

(3) The term "high priority use" means any—

(A) use of natural gas in a residence;

(B) use of natural gas in a commercial establishment in amounts less than 50 Mcf on a peak day; or

(C) any use of natural gas the curtailment of which the President determines would endanger life, health, or maintenance of physical property.

(4) The term "Mcf", when used with respect to natural gas, means 1,000 cubic feet of natural gas measured at a pressure of 14.73 pounds per square inch (absolute) and a temperature of 60 degrees Fahrenheit.

(i) Use of Certain Terms.—In applying the provisions of this section in the case of natural gas subject to a prohibition order issued under this section, the term "petroleum products" (as defined in subsection (h)(2) of this section) shall be substituted for the term "heavy petroleum fuel oil" (as defined in section 606(e)(7)) if the person subject to any order under this section demonstrates to the Commission that the acquisition and use of heavy petroleum fuel oil is not technically or economically feasible.

SEC. 102. FINDINGS AND STATEMENT OF PURPOSES.

42 USC 8201. (a) FINDINGS.—The Congress finds that—

(1) the United States faces an energy shortage arising from increasing demand for energy, particularly for oil and natural gas, and insufficient domestic supplies of oil and natural gas to satisfy that demand;

(2) unless effective measures are promptly taken by the Federal Government and other users of energy to reduce the rate of growth of demand for energy, the United States will become increasingly

dependent on the world oil market, increasingly vulnerable to interruptions of foreign oil supplies, and unable to provide the energy to meet future needs; and

(3) all sectors of our Nation's economy must begin immediately to significantly reduce the demand for nonrenewable energy resources such as oil and natural gas by implementing and maintaining effective conservation measures for the efficient use of these and other energy sources.

(b) STATEMENT OF PURPOSES.—The purposes of this Act are to provide for the regulation of interstate commerce, to reduce the growth in demand for energy in the United States, and to conserve nonrenewable energy resources produced in this Nation and elsewhere, without inhibiting beneficial economic growth.

TITLE II—RESIDENTIAL ENERGY CONSERVATION

PART 1—UTILITY PROGRAM

SEC. 210. DEFINITIONS.

42 USC 8211.

As used in this title—

(1) The term "Secretary" means the Secretary of Energy.

(2) The term "load management technique" means any technique to reduce the maximum kilowatt demand on an electric utility, including ripple or radio control mechanisms, or other types of interruptible electric service, energy storage devices, and load limiting devices.

(3) The term "natural gas" means natural gas as defined in the Natural Gas Act.

(4) The term "public utility" means any person, State agency, or Federal agency which is engaged in the business of selling natural gas or electric energy, or both, to residential customers for use in a residential building.

(5) The term "regulated utility" means a public utility with respect to whose rates a State regulatory authority has ratemaking authority.

(6) The term "nonregulated utility" means a public utility which is not a regulated utility.

(7) The term "rate" means any price, rate, charge, or classification made, demanded, observed, or received with respect to sales of electric energy or natural gas, any rule, regulation, or practice respecting any such rate, charge, or classification, and any contract pertaining to the sale of electric energy or natural gas.

(8) The term "ratemaking authority" means authority to fix, modify, approve, or disapprove rates.

(9) The term "residential building" means any building used for residential occupancy which—

(A) is not a new building to which final standards under sections 304(a) and 305 of the Energy Conservation and Production Act apply,

42 USC 6833, 6834.

(B) contains at least one, but no more than four, dwelling units, and

(C) has a system for heating or cooling, or both.

(10) The term "residential customer" means any person to whom—

(A) a public utility sells natural gas or electric energy, or

(B) a home heating supplier supplies or sells home heating fuel (including No. 2 heating oil, kerosene, butane, and propane),

for consumption by such customer in a residential building.

(11) The term "residential energy conservation measure" means—

(A) caulking and weatherstripping of doors and windows;

(B) furnace efficiency modifications including—

(ii) devices for modifying flue openings which will increase the energy efficiency of the heating system, and

(iii) electrical or mechanical furnace ignition systems which replace standing gas pilot lights;

(C) clock thermostats;

(D) ceiling, attic, wall, and floor insulation;

(H) devices to utilize solar energy or windpower for any residential energy conservation purpose, including heating of water, space heating or cooling; and

(I) such other measures as the Secretary by rule identifies for purposes of this part.

No measure referred to in subparagraphs (B) through (I) shall be treated as a residential energy conservation measure for purposes of this Part unless such measure is warranted by the manufacturer to meet a specified level of performance over a period of not less than three years.

(12) The term "residential energy conservation plan" means a plan approved by the Secretary pursuant to section 212.

(13) The term "State" means a State, the District of Columbia, and Puerto Rico.

(14) The term "State regulatory authority" means any State agency which has ratemaking authority with respect to the sale of electric energy or natural gas by any public utility (other than by such State agency); except that in the case of a public utility with respect to which the Tennessee Valley Authority has ratemaking authority, such term means the Tennessee Valley Authority.

SEC. 211. COVERAGE.

(a) IN GENERAL.—This part shall apply in any calendar year to a public utility only if during the second preceding calendar year either— 42 USC 8212.

(1) sales of natural gas by such public utility for purposes other than resale exceeded 10 billion cubic feet, or

(2) sales of electric energy by such public utility for purposes other than resale exceeded 750 million kilowatt-hours.

(b) LIST OF COVERED UTILITIES.—Before the beginning of each calendar year, the Secretary shall publish a list identifying each public utility to which this part applies during such calendar year. Promptly after publication of such list, each State regulatory authority shall notify the Secretary of each public utility on the list for which such State regulatory authority has ratemaking authority.

SEC. 212. RULES OF SECRETARY FOR SUBMISSION AND APPROVAL OF PLANS.

(a) PROMULGATION OF RULES BY SECRETARY.—The Secretary shall, not later than 45 days after enactment of this Act, publish an advanced notice of proposed rulemaking with respect to rules on the content and implementation of residential energy conservation plans which meet the requirements of sections 213 and 214. Not later than 60 days after the date of publication of the advanced notice of proposed rulemaking, and after consultation with the Secretary of Housing and Urban Development, the Secretary of Commerce (acting through the National Bureau of Standards), the Federal Trade Commission, the Consumer Product Safety Commission, and the heads of such other agencies as he deems appropriate, the Secretary shall publish a proposed rule on content and implementation of such plans. After publication of such proposed rule, the Secretary shall afford interested persons (including Federal and State agencies) an opportunity to present oral and written comments on matters relating to such proposed rule. A rule prescribing the content and implementation of residential energy conservation plans shall be published not earlier than 45 days after publication of the proposed rule. 42 USC 8213.

(b) CONTENT OF SECRETARY'S RULES.—The rules promulgated under subsection (a)—

(1) shall identify the suggested measures for residential buildings, by climatic region and by categories determined by the Secretary on the basis of type of construction and any other factors which the Secretary may deem appropriate;

(2) shall include—

(A) standards which the Secretary determines necessary for general safety and effectiveness of any residential energy conservation measure;

(B) standards which the Secretary determines necessary for installation of any residential energy conservation measure;

(C) standards for the procedures concerning fair and reasonable prices and rates of interest required under section 213(a)(4);

(D) standards, developed in consultation with the Federal Trade Commission, concerning unfair, deceptive, or anticompetitive acts or practices, for the measures required under section 213(b);

(E) standards which (i) require the lists referred to in section 213(a)(2) (concerning lists of suppliers and contractors) and 213(a)(3) (concerning lists of lending institutions) to be prepared in a fair, open, and nondiscriminatory manner and (ii) provide for the removal, in appropriate cases, of suppliers, contractors, or lending institutions from such lists; and

(F) standards which assure that any person who alleges any injury resulting from a violation of the requirements of the standards under subparagraph (E) shall be entitled to redress under procedures established by the Governor (or the Secretary in any case in which section 219, relating to Federal standby authority applies); and

(3) may include such other requirements as the Secretary may determine to be necessary to carry out this part.

(c) PROCEDURE FOR SUBMISSION AND APPROVAL OF STATE RESIDENTIAL ENERGY CONSERVATION PLANS.—(1)(A) Not later than 180 days after promulgation of rules under subsection (a), the Governor of each State or any State agency specifically authorized to do so under State law, may submit to the Secretary a proposed residential energy conservation plan which meets the requirements of the rules promulgated under subsection (a). Within such 180-day period, each nonregulated utility shall submit a proposed plan, which meets the requirements of the rules promulgated under subsection (a), to the Secretary unless a plan submitted under the preceding sentence for the State in which the nonregulated utility provides utility service applies to nonregulated utilities as provided in paragraph (2). The Secretary may, upon request of the Governor or State agency or nonregulated utility, extend, for good cause shown, the time period for submission of a plan.

Extension.

(B) Each such plan shall be reviewed and approved or disapproved by the Secretary not later than 90 days after submission. If the Secretary disapproves a plan, the Governor or State agency or nonregulated utility may submit a new or amended plan not later than 60 days after the date of such disapproval, or such longer period as the Secretary may, for good cause, allow. The Secretary shall review and approve or disapprove any such new or amended plan not later than 90 days after submission.

Amended plan.

(C) After approval of a plan, a Governor or State agency or nonregulated utility may submit an amended plan and such plan shall be approved or disapproved in the same manner as the original plan.

(2) Any plan submitted by a Governor or State agency under paragraph (1) may, in the discretion of the Governor, if he notifies the

Secretary within 30 days after promulgation of rules under subsection (a), apply to nonregulated utilities providing utility service in the State in the same manner as to regulated utilities. In any such case references elsewhere in this part to regulated utilities (including references to utilities with respect to which a State regulatory authority exercises ratemaking authority) shall, with respect to such State, be treated as references also to nonregulated utilities and references elsewhere in this part to nonregulated utilities shall not apply. For purposes of this paragraph, the term "nonregulated utility" shall not include any public utility which is a Federal agency.

"Nonregulated utility."

(3) A plan applicable to home heating suppliers may be submitted by the Governor in his discretion.

(4) In the case of the Tennessee Valley Authority or any public utility with respect to which the Tennessee Valley Authority has ratemaking authority, the authority otherwise vested in the Governor or State agency under this section shall be vested in the Tennessee Valley Authority.

SEC. 213. REQUIREMENTS FOR STATE RESIDENTIAL ENERGY CONSERVATION PLANS FOR REGULATED UTILITIES.

42 USC 8214.

(a) General Requirements.—No proposed residential energy conservation plan submitted for regulated utilities shall be approved by the Secretary unless such plan—

(1) requires each regulated utility to implement a utility program which meets the requirements of section 215 (except such requirements of section 215 as do not apply by reason of section 216(f)) and contains adequate State enforcement procedures in connection with such implementation;

(2) provides a procedure for permitting any supplier or contractor—

(A) who sells or installs residential energy conservation measures in the area served by such utility, and

(B) who meets such minimum requirements as may be contained in rules promulgated by the Secretary under section 212(b)(2)(E)

to be included on a list made public by such utility as provided under section 215(a)(3);

(3) provides a procedure for permitting any bank, savings and loan association, credit union, or other public or private lending institution which—

(A) offers loans for the purchase and installation of residential energy conservation measures in the areas served by such utility and

(B) which meets such minimum requirements as may be promulgated by the Secretary under section 212(b)(2)(E)

to be included on a list made public by such utility as provided under section 215(a)(3);

(4) provides adequate procedures to assure that each regulated utility will charge fair and reasonable prices and rates of interest to its residential customers under such utility program in connection with the purchase and installation of residential energy conservation measures;

(5) provides procedures for resolving complaints against persons who sell or install residential energy conservation measures under such program;

(6) provides procedures for insuring that effective coordina-

tion exists among various local, State, and Federal energy conservation programs within and affecting such State, including any energy extension service program administered by the Secretary of Energy;

(7) is adopted after notice and public hearings; and

(8) meets such other requirements as may be contained in the rules promulgated under section 212.

(b) REQUIREMENTS CONCERNING UNFAIR, DECEPTIVE, OR ANTICOMPETITIVE ACTS OR PRACTICES.—

(1) No proposed residential energy conservation plan submitted for regulated utilities shall be approved by the Secretary unless such plan contains adequate measures for preventing unfair, deceptive, or anticompetitive acts or practices affecting commerce which relate to the implementation of utility programs within such State.

(2) The measures under paragraph (1) shall include—

(A) provisions to assure that, in carrying out procedures under section 215(b)(1) (or the corresponding procedures in section 217) the regulated utility will not unfairly discriminate among—

(i) residential customers,

(ii) suppliers and contractors of such measures, or

(iii) lending institutions in the utility's service area which offer loans for the purchase and installation of residential energy conservation measures, and

will not unfairly discriminate among measures which are purchased from, or installed by, any person under such program, and

(B) provisions to assure that in the case of a furnace which uses as its primary source of energy any fuel or source of energy other than the fuel or source of energy sold by a utility, such utility will not inspect such furnace, or make, install, or inspect any furnace efficiency modification referred to in section 210(11)(B), unless the residential customer requests (in writing) such inspection, installation, or modification.

(c) REDRESS.—No residential energy conservation plan submitted for regulated utilities shall be approved by the Secretary unless such plan contains provisions to assure that any person who alleges any injury resulting from a violation of any plan provision shall be entitled to redress under such procedures as may be established by the Governor or State agency.

SEC. 214. PLAN REQUIREMENTS FOR NONREGULATED UTILITIES AND HOME HEATING SUPPLIERS.

42 USC 8215.

(a) REQUIREMENTS FOR PLANS FOR NONREGULATED UTILITIES.—No residential energy conservation plan proposed by a nonregulated utility shall be approved by the Secretary unless such plan meets the same requirements as provided under section 213 for regulated utilities and in addition contains procedures pursuant to which such utility will submit a written report to the Secretary not later than one year after approval of such plan, and biennially thereafter, regarding the implementation of a utility program under section 215 and containing such information as may be required by the Secretary in the rules promulgated under section 212. In applying the requirements of section 213 in the case of a plan for nonregulated utilities under this section, any reference to a regulated utility shall be treated as a reference to a nonregulated utility.

(b) Requirements for Plans for Home Heating Suppliers.—No residential energy conservation plan proposed for home heating suppliers shall be approved by the Secretary unless such plan meets the same requirements as provided under section 213(a) (other than paragraphs (1) and (8) thereof) and section 213(b) and (c) and in addition—

(1) meets the requirements of section 217 and contains adequate enforcement procedures with respect to such requirements;

(2) meets such requirements applicable to home heating suppliers as may be contained in the rules promulgated under section 212; and

(3) takes into account the resources of small home heating suppliers.

In applying the requirements of section 213 in the case of a plan for home heating suppliers under this section, any reference to a regulated utility shall be treated as a reference to the home heating supplier and any reference to a utility program shall be treated as a reference to a home heating supplier program.

SEC. 215. UTILITY PROGRAMS.

42 USC 8216.

(a) Information Requirements.—Each utility program shall include procedures designed to inform, no later than January 1, 1980, or the date six months after the approval of the applicable plan under section 212, if later, and each two years thereafter before January 1, 1985, each of its residential customers who owns or occupies a residential building, of—

(1) the suggested measures for the category of buildings which includes such residential building;

(2) the savings in energy costs that are likely to result from installation of the suggested measures in typical residential buildings in such category;

(3) the availability of the arrangements described in subsection (b) and the lists referred to in section 213(a)(2) and (3); and

(4) suggestions of energy conservation techniques, including suggestions developed by the Secretary, such as adjustments in energy use patterns and modifications of household activities which can be employed by the residential customer to save energy and which do not require the installation of energy conservation measures (including the savings in energy costs that are likely to result from the adoption of such suggestions).

(b) Project Manager Requirements.—Each utility program shall include—

(1) procedures whereby the public utility, no later than January 1, 1980, or the date six months after the approval of the applicable plan under section 212, if later, will, for each residential customer who owns or occupies a residential building, offer to—

(A) inspect the residential building (either directly or through one or more inspectors under contract) to determine and inform the residential customer of the estimated cost of purchasing and installing the suggested measures and the savings in energy costs that are likely to result from the installation of such measures (a report of which inspection shall be kept on file for not less than 5 years which shall be available to any subsequent owner without charge), except that a utility shall be required to make only one inspection of a residence unless a new owner requests a subsequent inspection;

(B) arrange to have the suggested measures installed (except for furnace efficiency modifications with respect to which the inspection prohibition of section 213(b)(2)(B) applies, unless the customer requests in writing arrangements for such modifications in writing); and

(C) arrange for a lender to make a loan to such residential customer to finance the purchase and installation costs of suggested measures; and

(2) procedures whereby the public utility provides to each of its residential customers the lists as described in section 213(a)(2) and (3).

(c) REQUIREMENTS CONCERNING ACCOUNTING AND PAYMENT OF COSTS.—(1) Each utility program shall include—

(A) procedures to assure that all amounts expended or received by the utility which are attributable to the utility program (including any penalties paid by such utility under section 219(d)) are accounted for on the books and records of the utility separately from amounts attributable to all other activities of the utility;

(B) procedures to assure that all amounts expended by a utility for providing information under subsection (a) are to be treated for such purposes as a current expense of providing utility service and charged to all ratepayers of such utility in the same manner as current operating expenses of providing such utility service;

(C) procedures to permit general administrative costs of carrying out a utility program and the amounts expended by a public utility to carry out subsection (b) to be, in the discretion of the State regulatory authority (or in the case of a nonregulated utility, in the discretion of such nonregulated utility)—

(i) treated as a current expense of providing utility service and charged to all ratepayers of such utility in the same manner as current operating expenses of providing such utility service, or

(ii) charged to the residential customer for whom the activity is performed; and

(D) procedures to assure that the costs of labor and materials incurred by a utility for the purchase or installation of any residential energy conservation measure shall be charged to the residential customer for whom such activity is performed.

(2)(A) The costs of carrying out any activity as a part of a utility program under this section (other than an activity described in subparagraph (B), (C), or (D) of paragraph (1)) shall be charged to the residential customer for whom such activity is performed, unless (and to the extent that) the State regulatory authority or nonregulated utility (as the case may be) finds, after public notice and an opportunity for a public hearing, that treatment of such costs in the manner described in clause (i) of paragraph (1)(C) is likely to result (by reason of reduction in demand for energy) in lower rates to the ratepayers of such utility than would occur if the utility did not treat such costs in the manner described in such clause. Any such costs with respect to which such finding is made shall be treated in the manner described in clause (i) of paragraph (1)(C).

(B) Any portion of the costs of carrying out any activity as a part of a utility program under this section which are charged to the residential customer for whom such activity is performed and included on a billing for utility service submitted by the utility to such residential customer shall be stated separately on such billing from the cost of providing utility service.

(C) For purposes of this subsection, the term "ratepayer" means any person, State agency, or Federal agency who purchases electric energy or natural gas from a utility.

"Ratepayer."

(d) Requirements Respecting New Customers.—In the case of any person who becomes a residential customer of a utility carrying out a utility program under this section after January 1, 1980 (or the date six months after approval of the applicable plan, if later), and before January 1, 1985, not later than 60 days after such person becomes a residential customer of such utility, such utility shall inform such person of the items listed in subsection (a), the offer required under subsection (b)(1)(A), and shall offer such person the opportunity to enter into arrangements referred to in subparagraphs (B) and (C) of subsection (b)(1).

(e) Termination of Service.—No utility implementing any program under this section may terminate utility service to any customer by reason of any default of such customer with respect to payments due for energy conservation measures installed pursuant to such program.

(f) Loans.—(1) In the case of any loan made by a public utility (as may be permitted under subsection (c), (d)(1), (d)(2), or (e) of section 216) to a residential customer under a utility program under this part, the public utility carrying out such program shall permit the residential customer to repay the principal and interest of such loan as a part of his periodic bill (over a period of not less than 3 years unless he elects a shorter payment period). In the case of a loan made by any other person, the public utility shall permit repayment of the loan as part of the periodic bill if such other person agrees to repayment in such manner.

(2) In the case of any loan referred to in paragraph (1)—

(A) a lump-sum payment of outstanding principal and interest may be required by the lender upon default (as determined under otherwise applicable law) in payment by the residential customer, and

(B) no penalty shall be imposed by the lender for payment of all or any portion of the outstanding loan amount prior to the date such payment would otherwise be due.

(g) Exempt Activities.—For purposes of this section, the term "utility program" includes activities which are subject to this section by reason of section 216(f).

"Utility program."

SEC. 216. SUPPLY, INSTALLATION, AND FINANCING BY PUBLIC UTILITIES.

(a) Prohibition on Supply, Installation, or Financing.—Except as provided in this section, no public utility may—

42 USC 8217.

(1) supply or install a residential energy conservation measure, or

(2) make a loan to any residential customer for the purchase or installation of any residential energy conservation measure.

(b) Exemption From Prohibition on Installation.—The prohibition contained in subsection (a)(1) shall not apply to the energy conservation measures referred to in section 210(11)(B) or 210(11)(C), or devices associated with load management techniques for the type of energy sold by the utility.

(c) Exemption From Prohibition on Financing.—The prohibition contained in subsection (a)(2) shall not apply to any loan to a residential customer which does not exceed the greater of—

(1) $300, or

(2) the cost of purchase, and installation in such customer's residence, of items referred to in subsection (b).

(d) General Exemptions.—The prohibitions contained in subsection (a) shall not apply to—

(1) the supply, installation, or financing of those specific residential energy conservation measures which the Secretary determines were being installed or financed by a public utility on the date of enactment of this Act;

(2) supply, installation, or financing activities which the Secretary determines were broadly advertised or for which substantial preparations were completed on or before the date of enactment of this Act; or

(3) supply, installation, or financing activities by a public utility with respect to energy conservation measures where a law or regulation in effect on or before the date of enactment of this Act either requires, or explictly permits, the public utility to carry out such activities.

(e) Waiver.—The Secretary may, upon petition of a public utility, supported in the case of a regulated utility by a Governor, waive in whole or in part the prohibitions contained in subsection (a) with respect to the utility if such utility demonstrates to the satisfaction of the Secretary that, in carrying out prohibited activities under subsection (a), fair and reasonable prices and rates of interest would be charged and the Secretary finds, after consultation with the Federal Trade Commission that such activities would not be inconsistent with the prevention of unfair methods of competition and the prevention of unfair or deceptive acts or practices.

(f) Applicability of Section 215.—Any public utility carrying out activities permitted under subsection (b) or (c) or subsection (d)(2) or (e) of this section shall be subject to all the requirements of section 215 with respect to such activities. A public utility which is carrying out activities permitted pursuant to subsection (d)(1) shall, within such reasonable period as may be prescribed by the Secretary, be subject to all such requirements of section 215 with respect to such activities. A public utility carrying out activities permitted pursuant to the exemption contained in subsection (d)(3) shall not be subject to the requirements of section 215 with respect to such activities.

(g) Prohibition on Supply, Installation or Financing by Utilities.—After the date of the enactment of this Act, no public utility may make any loan, to finance the purchase or installation of, or supply or install, any residential energy conservation measure if the Secretary has determined, after notice and opportunity for public hearing, and after consultation with the Federal Trade Commission, that—

(1) such loans are being made, or supply or installations carried out by such utility at unreasonable rates or on unreasonable terms and conditions, or

(2) such loans made, or supply or installations carried out by such utility, have a substantial adverse effect upon competition.

(h) ENFORCEMENT.—For purposes of section 219(d), any violation of a prohibition contained in this section shall be treated as a violation of a plan promulgated under section 219(a).

SEC. 217. HOME HEATING SUPPLIER PROGRAMS.

(a) REQUIREMENTS.—Each home heating supplier program shall include— 42 USC 8218.

(1) procedures designed to inform, no later than January 1, 1980, or the date six months after the approval of the applicable plan under section 212, if later, and each two years thereafter before January 1, 1985, each residential customer of each participating home heating supplier who owns or occupies a residential building of—

(A) the suggested measures for the category of buildings which includes such residential building;

(B) the savings in energy costs that are likely to result from installation of the suggested measures in typical residential buildings in such category; and

(C) the availability of the arrangements described in paragraph (2) of this subsection; and

(2) procedures whereby a participating home heating supplier, no later than January 1, 1980 (or the later date referred to in paragraph (1)) will offer each such residential customer the opportunity to enter into arrangements with the home heating supplier under which such supplier, directly or through one or more inspectors under contract, will—

(A) inspect the residential building to determine and inform the residential customer of the estimated cost of purchasing and installing, and the savings in energy costs that are likely to result from installing, suggested measures;

(B) inform each interested customer of the lists referred to in section 213(a) (2) and (3);

(C) install or have suggested measures installed;

(D) make, or arrange for another lender to make, a loan to such residential customer to finance the purchase and installation costs of suggested measures; and

(E) permit the residential customer to repay the principal of and interest on any loan made pursuant to subparagraph (D) (over a period of not less than three years unless the customer elects a shorter payment period) as a part of his periodic bill except:

(i) failure to make any payment of such principal or interest shall not be grounds for the termination of fuel deliveries to the residential customer; and

(ii) a lump-sum payment of outstanding principal and interest may be required upon default (as determined under otherwise applicable law) in payment by the residential customer.

No penalty shall be imposed by the lender, under procedures described in paragraph (2), for payment of all or any portion of the outstanding loan amount prior to the date such payment would otherwise be due.

(b) NOTICE; WAIVER.—A home heating supplier who wishes to participate in the program established pursuant to this section may so notify the Governor. The Governor may waive, for any home heating supplier, any requirement of this section, upon demonstration to his satisfaction that the resources of such supplier do not enable him to comply with such requirement.

SEC. 218. TEMPORARY PROGRAMS.

42 USC 8219.

(a) Exemption From Certain Requirements.—A Governor of any State, on behalf of one or more utilities, or any public utility (supported by the Governor in the case of a regulated utility) may, no later than 180 days after the promulgation of rules pursuant to section 212, apply for a temporary exemption for one or more utilities from one or more of the requirements of section 215 and the prohibitions contained in section 216(a). Such temporary exemption may be granted, as determined by the Secretary, for a period not to exceed 3 years after the date of approval of such exemption.

(d) Requirements.—In order for an application for an exemption under subsection (a) to be granted, the Governor or the public utility shall demonstrate to the satisfaction of the Secretary that the temporary program will:

(1) contain adequate procedures to assure that each public utility, in connection with such program, will charge fair and reasonable prices and rates of interest to its residential customers in connection with the purchase and installation of residential energy conservation measures;

(2) contain adequate procedures for preventing unfair, deceptive, or anticompetitive acts or practices affecting commerce which relate to the implementation of such program; and

(3) be likely to result in the installation of suggested measures in at least as many residential buildings as would have been installed had such utility submitted a program which met the requirements of section 215 and did not violate the prohibitions contained in section 216(a).

(e) Federal Standby Authority.—The Secretary shall not exercise the Federal standby authority, pursuant to section 219 (a) or (b) with respect to any public utility which is covered by a temporary exemption approved by the Secretary pursuant to this section. Upon termination of such temporary exemption, the Secretary shall exercise such authority unless, within such period as he deems reasonable after such termination, the State (or nonregulated utility as the case may be) has a plan applicable to such utility approved under section 212 and such plan is being adequately implemented (as determined by the Secretary).

For purposes of applying section 213(c) in the case of a plan promulgated by the Secretary under this section, the references to the Governor or State agency shall be treated as references to the Secretary.

(b) NONREGULATED UTILITIES.—If a nonregulated utility which is not covered by an approved State plan under section 212 does not have a plan approved under section 212(c) within 270 days after promulgation of rules under section 212(a) or within such additional period as the Secretary may allow pursuant to section 212(c)(1), or if the Secretary determines that such nonregulated utility has not adequately implemented an approved plan, the Secretary shall, by order, require such nonregulated utility to—

Such notice shall inform such person of his opportunity to elect in writing within 30 days after receipt of such notice to have the procedures of paragraph (4) (in lieu of those of paragraph (3)) apply with respect to such assessment.

(3)(A) Unless an election in writing is made within 30 calendar days after receipt of notice under paragraph (2) to have paragraph (4) apply with respect to such penalty, the Secretary shall assess the penalty, by order, after a determination of violation has been made on the record after an opportunity for an agency hearing pursuant to section 554 of title 5, United States Code, before an administrative law judge appointed under section 3105 of such title 5. Such assessment order shall include the administrative law judge's findings and the basis for such assessment.

Assessment, affirmation.

(B) If the civil penalty has not been paid within 60 calendar days after the assessment order has been made under subparagraph (A), the Secretary shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to review de novo the law and the facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.

(C) Any election to have this paragraph apply may not be revoked except with the consent of the Secretary.

Penalty, recovery.

(5) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order under paragraph (3), or after the appropriate district court has entered final judgment in favor of the Secretary under paragraph (4), the Secretary shall recover the amount of such penalty in any appropriate district court of the United States. In such action, the validity and appropriateness of such final order or judgment imposing the civil penalty shall not be subject to review.

42 USC 7192.

(6)(A) Notwithstanding the provisions of title 28, United States Code, or of section 502 of the Department of Energy Organization Act, the Secretary shall be represented by the general counsel of the Department of Energy (or any attorney or attorneys within the Department of Energy designated by the Secretary) who shall supervise, conduct, and argue any civil litigation to which this subsection applies (including any related collection action) in a court of the United States or in any other court, except the Supreme Court. SEC. 253. RESIDENTIAL ENERGY EFFICIENCY STANDARDS STUDY.

(a) General Authority.—The Secretary of Housing and Urban Development (hereinafter in this section referred to as the "Secretary") shall, in coordination with the Secretary of Agriculture, the Secretary of the Treasury, the Administrator of Veterans' Affairs, the Secretary of Energy, and such other representatives of Federal, State, and local governments as the Secretary shall designate, conduct a study, utilizing the services of the National Institute of Building Sciences pursuant to appropriate contractual arrangements, for the purpose of determining the need for, the feasibility of, and the problems of requiring, by mandatory Federal action, that all residential dwelling units meet applicable energy efficient standards. The subjects to be examined shall include, but not be limited to, mandatory notification to purchasers, and policies to prohibit exchange or sale, of properties which do not conform to such standards. 42 USC 8232.

(b) Specific Factors.—In conducting such study, the Secretary shall consider at least the following factors—

(1) the extent to which such requirement would protect a prospective purchaser from the uncertainty of not knowing the energy efficiency of the property he proposes to purchase;

(2) the extent to which such requirement would contribute to the Nation's energy conservation goals;

(3) the extent to which such a requirement would affect the real estate, home building, and mortgage banking industries;

(4) the sanctions which might be necessary to make such a requirement effective and the administrative impediments there might be to enforcement of such sanctions;

(5) the possible impact on sellers and purchasers as a result of the implementation of mandatory Federal actions, taking into account the experience of the Federal Government in imposing mandatory requirements concerning the purchase and sale of real property as occurred under the Real Estate Settlement Procedures Act of 1974 and the Federal Disaster Protection Act of 1973; 12 USC 2601 note. 42 USC 4001 note.

(6) an analysis of the effect of such a requirement on the economy as a whole and on the Nation's security as compared to the impact on the credit and housing markets caused by such a requirement;

(7) the effect of such a requirement on availability of credit in the housing industry;

(8) the extent to which the imposition of mandatory Federal requirements would temporarily reduce the number of residential dwellings available for sale and the resulting effect of such mandatory actions on the price of those remaining dwelling units eligible for sale; and

(9) the possible uncertainty, during the period of developing the standards, as to what standards might be imposed and any resulting effect on major housing rehabilitation efforts and voluntary efforts for energy conservation.

(c) COMMENTS AND FINDINGS BY SECRETARY OF ENERGY.—The Secretary shall incorporate into such study comments by the Secretary of Energy on the effects on the economy as a whole and on the Nation's security which may result from the requirement described in subsection (a) as compared to the impact on the credit and housing markets likely to be caused by such a requirement. In addition, the Secretary shall incorporate into such study the following findings by the Secretary of Energy:

(1) the savings in energy costs resulting from the requirement described in subsection (a) throughout the estimated remaining useful life of the existing residential buildings to which such requirement would apply; and

(2) the total cost per barrel of oil equivalent, in obtaining the energy savings likely to result from such requirement, computed for each class of existing residential buildings to which such requirement would apply.

(d) REPORT DATE.—The Secretary shall report, no later than one year after the date of enactment of this section, to both Houses of the Congress with regard to the findings made as a result of such study along with any recommendations for legislative proposals which the Secretary determines should be enacted with respect to the subject of such study.

SEC. 254. WEATHERIZATION STUDY.

The President shall conduct a study which shall monitor the weatherization activities authorized by this Act and amendments made 42 USC 8233.

thereby and those weatherization activities undertaken, independently of this Act and such amendments. The President shall report to the Congress within one year from the date of enactment of this Act, and annually thereafter, concerning—

(1) the extent of progress being made through weatherization activities toward the achievement of national energy conservation goals;

(2) adequacy and costs of materials necessary for weatherization activities; and

(3) the need for and desirability of modifying weatherization activities authorized by this Act, and amendments made thereby and of extending such activities to a broader range of income groups than are being assisted under this Act and such amendments.

SEC. 255. AUTHORIZATION FOR APPROPRIATIONS FOR NEW BUILDING PERFORMANCE STANDARDS GRANTS.

42 USC 6836.

"(c) Upon application under subsection (a) the Secretary may make grants to States for purposes of conducting energy audits of school facilities and hospital facilities under this part in accordance with the guidelines prescribed under section 392(a)(2).

"(d) If a State without the use of financial assistance under this section, conducts preliminary energy audits or energy audits which comply with the guidelines prescribed by the Secretary or which are approved by the Secretary the funds allocated for purposes of this section shall be added to the funds available for energy conservation projects for such State and shall be in addition to amounts otherwise available for such purposes.

"(e)(1) Except as provided in paragraph (2), amounts made available under this section (together with any other amounts made available from other Federal sources) may not be used to pay more than 50 percent of the costs of any preliminary energy audit or any energy audit.

(3) substantial energy conservation can be achieved in buildings owned by units of local government and public care institutions through the implementation of energy conservation maintenance and operating procedures; and

(4) units of local government and public care institutions in many instances need financial assistance in order to conduct energy audits and to identify energy conservation maintenance and operating procedures and to evaluate the potential benefits of acquiring and installing energy conservation measures.

(b) Purpose.—It is the purpose of this part to authorize grants to States and units of local government and public care institutions to assist them in conducting preliminary energy audits and energy audits in identifying and implementing energy conservation maintenance and operating procedures and in evaluating energy conservation measures to reduce the energy use and anticipated energy costs of buildings owned by units of local government and public care institutions.

42 USC 6371j. **SEC 312. APPLICATION OF DAVIS-BACON ACT.**

No grant for a project (other than so much of a grant as is used for a preliminary energy audit, energy audit, or technical assistance or a grant the total project cost of which is $5,000 or less, excluding costs for a preliminary energy audit, energy audit, or technical assistance) shall be made under this part or part 1 unless the Secretary finds that all laborers and mechanics employed by contractors or subcontractors in the performance of work on any construction utilizing such grants will be paid at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with the Act of March 31, 1931 (40 U.S.C. 276a—276a-5, known as the Davis-Bacon Act); and the Secretary of Labor shall have with respect to the labor standards specified in this section the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 5 U.S.C. Appendix) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c).

TITLE IV—ENERGY EFFICIENCY OF CERTAIN PRODUCTS AND PROCESSES

PART 1—ENERGY EFFICIENCY STANDARDS FOR AUTOMOBILES

15 USC 2006. **SEC. 401. FUEL ECONOMY INFORMATION.**

(a) AMENDMENT TO SECTION 506.—(1) Section 506(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2006(c)) is amended by adding at the end thereof the following:

"(3) As used in this section, the term 'automobile' includes any automobile with a gross vehicle weight rating of 8,500 pounds or less, notwithstanding any lack of determination required of the Secretary under section 501(1)(B) (ii) or (iii).".

(2) Section 506(c)(2) of such Act (15 U.S.C. 2006(c)(2)) is amended by inserting before the period the following: "(taking into account paragraph (3) of this subsection)".

15 USC 2006 note. (b) RULE OF CONSTRUCTION.—The amendment made by this section shall not be construed to affect the authority in section 506 of the Motor Vehicle Information and Cost Savings Act to require labels or other information for fuel economy for automobiles rated in excess of 8,500 pounds gross vehicle weight.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective for automobiles manufactured in model years after model year 1979.

SEC. 402. CIVIL PENALTIES RELATING TO AUTOMOBILE FUEL EFFICIENCY.

Section 508 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2008) is amended by adding at the end thereof the following new subsections:

"(d)(1)(A) The Secretary shall, by rule in accordance with the provisions of this subsection and subsection (e), substitute a higher amount for the amount per tenth of a mile per gallon which would be used to calculate the civil penalty under subsection (b)(1) in the absence of such rule, if the Secretary finds that—

"(i) the additional amount of the civil penalty which may be imposed under such rule will result in, or substantially further, substantial energy conservation for automobiles in future model years for which such higher penalty may be imposed; and

"(ii) subject to subparagraph (B), such additional amount of civil penalty will not result in substantial deleterious impacts on the economy of the United States or of any State or region of any State.

"(B) Any findings under subparagraph (A)(ii) may be made only if the Secretary finds that it is likely that—

"(i) such additional amount of civil penalty will not cause a significant increase in unemployment in any State or region thereof;

"(ii) such additional amount will not adversely affect competition; and

"(iii) such additional amount will not cause a significant increase in automobile imports.

"(2) Any rule under paragraph (1) may not provide that the amount per tenth of a mile per gallon used to calculate the civil penalty under subsection (b)(1) be less than $5.00 or more than $10.00.

"(3) Any rule prescribed under paragraph (1) shall be effective for the later of—

"(A) automobile model years beginning after model year 1981, or

"(B) automobile model years beginning at least 18 months after such rule becomes final.

"(4) Any rule prescribed under paragraph (1) shall provide that the amount per tenth of a mile per gallon used to calculate a credit under subsection (a)(3) for any model year shall equal the amount per tenth of a mile per gallon applicable to the calculation of the civil penalty for which the credit is allowed.

Publication in Federal Register.

"(e)(1)(A) After the Secretary of Transportation develops a proposed rule pursuant to subsection (d), he shall publish such proposed rule in the Federal Register, together with a statement of the basis for such rule, and provide copies thereof to the manufacturers. He shall then provide a period of public comment on such rule of at least 45 days for written comments thereon. A copy of any such proposed rule shall be transmitted by the Secretary to the Federal Trade Commission and the Secretary shall request such Commission to comment thereon within the period provided to the public concerning such proposed rule.

"(B) After such written comment period, any interested person, (including the Federal Trade Commission) shall be afforded an opportunity to present oral data, views, and arguments at a public hearing concerning such proposal. At such hearing such interested person (including the Federal Trade Commission) shall have an opportunity to question—

"(i) other interested persons who make oral presentations,

"(ii) employees and contractors of the United States who have made written or oral presentations or who have participated in the development of the proposed rule or in the consideration thereof, and

"(iii) experts and consultants who have provided information to any person who makes an oral presentation and which is contained in or referred to in such presentation;

with respect to disputed issues of material fact, except that the Secretary may restrict questioning if he determines that such questioning is duplicative or is not likely to result in a timely and effective resolution of such issues. Any oral or documentary evidence may be received, but the Secretary as a matter of policy shall provide for the exclusion of irrelevant, immaterial, or unduly repetitious evidence.

"(C) A rule subject to this subsection may not be issued except on consideration of the whole record supported by, and in accordance with, the reliable, probative, and substantial evidence.

"(D) A transcript shall be kept of any such public hearing made in accordance with this section and such transcripts and written comments shall be available to the public at the cost of reproduction.

Publication in Federal Register.

"(2) If any final rule is prescribed by the Secretary after such public comment period under subsection (d) it shall be published in the Federal Register, together with each of the findings required by subsection (d).

Petition, filing.

"(3)(A) Any person aggrieved by any final rule under subsection (d) may at any time before the 60th day after the date such rule is published under paragraph (2) file a petition with the United States Court of Appeals for the circuit wherein such person resides, or has his principal place of business, for judicial review thereof. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the written submissions to, and transcript of, the written and oral proceedings on which the rule was based, as provided in section 2112 of title 28, United States Code.

"(B) Upon the filing of the petition referred to in paragraph (1), the court shall have jurisdiction to review the rule in accordance with chapter 7 of title 5, United States Code, and to grant appropriate relief as provided in such chapter. No rule may be affirmed unless supported by substantial evidence.

"(C) The judgment of the court affirming or setting aside, in whole or in part, any such rule shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

"(4) In the case of any information which is provided the Secretary or the court during the consideration and review of any such rule and which is determined to be confidential by the Secretary pursuant to the provisions of section 11(d) of the Energy Supply and Environmental Coordination Act of 1974, any disclosure of such information by an officer or employee of the United States or of any department or agency thereof, except in an in camera proceeding by the Secretary or the court, shall be deemed a violation of section 1905 of title 18, United States Code."

SEC. 403. DISCLOSURE IN LABELING.

(a) DISCLOSURE.—Section 506(a)(1) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2006(a)(1)) is amended by striking out "and" at the end of subparagraph (B), by redesignating subparagraph (C) as subparagraph (D), and by inserting after subparagraph (B) the following new subparagraph:

"(C) containing in the case of any automobile, the sale of which is subject to any Federal tax imposed with respect to automobile fuel efficiency, a statement indicating the amount of such tax, and".

(b) Time and Manner of Disclosure.—Section 506(a)(3) of such Act (15 U.S.C. 2006(a)(3)) is amended by inserting after the first sentence thereof the following new sentence: "The time and manner by which the statement referred to in paragraph (1)(C) must be included on any label may be prescribed so as to take into account any special circumstances or characteristics.".

15 USC 2006 note.

(c) Effective Date.—The amendments made by this section shall not take effect unless and until there is in effect a Federal tax imposed with respect to automobile fuel efficiency which is enacted during the Ninety-fifth Congress.

SEC. 404. STUDY.

Report to Congress.
15 USC 2006 note.

Within six months after the date of the enactment of this Act, the Environmental Protection Agency, in consultation with the Secretary of Energy and the Secretary of Transportation and after an opportunity for public comment, shall submit to the Congress a detailed report on the degree to which fuel economy estimates required to be used in new car fuel economy labeling and in the annual fuel economy mileage guide required under section 506 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2006) provide a realistic estimate of average fuel economy likely to be achieved by the driving public. Such report shall include such recommendations as the Environmental Protection Agency deems appropriate based on report and written findings or conclusions stated therein, other than recommendations concerning changes or alterations in the testing and calculation procedures and methods measuring fuel economy under such Act as utilized by the Environmental Protection Agency for model year 1975 passenger automobiles. Nothing in this section shall authorize such agency to make any changes or alterations in such procedures and methods in effect for such model year for measuring automobile fuel economy.

PART 2—ENERGY EFFICIENCY STANDARDS FOR CONSUMER PRODUCTS OTHER THAN AUTOMOBILES

SEC. 421. TEST PROCEDURES.

(a) Prescription of Test Procedures.—Section 323(a)(4) of the Energy Policy and Conservation Act (42 U.S.C. 6293(a)(4)) is amended—

(1) in subparagraph (A), by striking out "(A) Except as provided in paragraph (6), the" and inserting in lieu thereof "The";

(2) in subparagraph (A), by adding at the end thereof the following: "Except as provided in paragraph (6), such test procedures shall be prescribed not later than January 31, 1978."; and

(3) by striking out subparagraph (B).

(b) Extensions.—Section 323(a)(6) of such Act (42 U.S.C. 6293(a)(6)) is amended to read as follows:

Publication in Federal Register.

"(6)(A) The Secretary may delay the prescription of test procedures under paragraph (4) for a type of covered product (or class thereof) if he determines that he cannot, within the applicable time period, prescribe test procedures applicable to such type (or class) which meet the requirements of subsection (b), and he submits to the Congress a report of such determination together with the reasons therefor, and also publishes such determination (and reasons) in the Federal Register. In any such case, he shall prescribe such test procedures as soon as practicable, but in no event later than 90 days after the date specified in paragraph (4).

Publication in Federal Register.

"(B) The Secretary is not required to publish and prescribe test procedures under paragraphs (3) and (4) for a type of covered product (or class thereof) if he determines, by rule, that test procedures cannot be developed which meet the requirements of subsection (b) and publishes such determination in the Federal Register, together with the reasons therefor. For purposes of section 327, a determination under this subparagraph with respect to any type (or class) of covered product, while effective, shall have the same effect as would a standard prescribed for such type (or class) under section 325.".

(c) Reevaluations of Test Procedures, Etc.—Section 323(a) of such Act (42 U.S.C. 6293(a)) is amended by adding at the end thereof the following:

"(7) (A) In the case of—

"(i) any test procedure prescribed under this subsection; or

"(ii) any determination under paragraph (6) that a test procedure cannot be developed which meets the requirements of subsection (b);

the Secretary shall, not later than 3 years after the date of the enactment of this paragraph (and from time to time thereafter), conduct a reevaluation and, on the basis of such reevaluation, shall determine if such test procedure should be amended or such determination should be rescinded. In conducting such reevaluation, the Secretary shall take into account such information as he deems relevant, including technological developments relating to the energy efficiency of the type (or class) of covered products involved.

Publication in Federal Register.

"(B) If the Secretary determines under subparagraph (A) that—

"(i) a test procedure should be amended, he shall promptly publish in the Federal Register proposed test procedures incorporating such amendments, or

"(ii) a determination under paragraph (6) should be rescinded,

he shall promptly publish notice thereof in the Federal Register, and afford interested persons an opportunity to present oral and written data, views, and arguments. Such comment period shall not be less than 45 days.".

(d) Energy Efficiency Representations.—Section 323(c) of such Act (42 U.S.C. 6293(c)) is amended—

(1) by striking out "90 days" and inserting in lieu thereof "180 days";

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively;

(3) by inserting "(1)" after "(c)"; and

(4) by adding at the end thereof the following new paragraph:

"(2) On the petition of any manufacturer, distributor, retailer, or private labeler, filed not later than the 60th day before the expiration of the period involved, the 180-day period referred to in paragraph (1) may be extended by the Commission with respect to the petitioner (but in no event for more than an additional 180 days) if he finds that the requirements of paragraph (1) would impose on such petitioner an undue hardship (as determined by the Commission).".

SEC. 422. ENERGY EFFICIENCY STANDARDS.

Section 325 of the Energy Policy and Conservation Act (42 U.S.C. 6295) is amended to read as follows:

"ENERGY EFFICIENCY STANDARDS

"SEC. 325. (a)(1) The Secretary shall, by rule, prescribe an energy efficiency standard for each type (or class) of covered products specified in paragraphs (1) through (13) of section 322(a).

"(2) The Secretary may, by rule, prescribe an energy efficiency standard for any type (or class) of covered products of a type specified in paragraph (14) of section 322(a), if he determines, for the purposes of this section, that—

"(A) the average per household energy use within the United States by products of such type (or class) exceeded 150 kilowatt-hours (or its Btu equivalent) for any 12-calendar-month period ending before such determination;

"(B) the aggregate household energy use within the United States by products of such type (or class) exceeded 4,200,000,000 kilowatt-hours (or its Btu equivalent) for any such 12-calendar-month period;

"(C) substantial improvement in the energy efficiency of products of such type (or class) is technologically feasible; and

"(D) the application of a labeling rule under section 324 to such type (or class) is not likely to be sufficient to induce manufacturers to produce, and consumers and other persons to purchase, covered products of such type (or class) which achieve the maximum energy efficiency which is technologically feasible to attain and is economically justified.

Publication in Federal Register.

Not later than 2 years after the date of the enactment of this paragraph, the Secretary shall publish in the Federal Register a list of those types (and classes) of covered products which he considers may be subject to standards authorized to be prescribed under this paragraph. The Secretary may revise such list from time to time thereafter.

"(b) No standard for a type (or class) of covered products shall be prescribed pursuant to subsection (a) if—

"(1) a test procedure has not been prescribed pursuant to section 323 with respect to that type (or class) of products, or

"(2) the Secretary determines, by rule, that the establishment of such standard will not result in significant conservation of energy or that the establishment of such standard is not technologically feasible or economically justified.

For purposes of section 327, a determination under paragraph (2) with respect to any type (or class) of covered products shall have the same effect as would a standard prescribed for such type (or class) under this section.

"(c) Energy efficiency standards for each type (or class) of covered products prescribed under this section shall be designed to achieve the maximum improvement in energy efficiency which the Secretary determines is technologically feasible and economically justified. Such standards may be phased in, over a period not in excess of 5 years, through the establishment of intermediate standards, as determined by the Secretary.

"(d) Before determining whether a standard is economically justified under subsection (c), the Secretary, after receiving any views and comments furnished with respect to the proposed standard under section 336, shall determine that the benefits of the standard exceed its burdens based, to the greatest extent practicable, on a weighing of the following factors:

"(1) the economic impact of the standard on the manufacturers and on the consumers of the products subject to such standard,

"(2) the savings in operating costs throughout the estimated average life of the covered products in the type (or class), compared to any increase in the price of, or in the initial charges for, or maintenance expenses of, the covered products which are likely to result from the imposition of the standard,

"(3) the total projected amount of energy savings likely to result directly from the imposition of the standard,

"(4) any lessening of the utility or the performance of the covered products likely to result from the imposition of the standard,

"(5) the impact of any lessening of competition determined in writing by the Attorney General that is likely to result from the imposition of the standard,

"(6) the need of the Nation to conserve energy, and

"(7) any other factors the Secretary considers relevant.

Publication in Federal Register.

For purposes of paragraph (5), the Attorney General shall, not later than 60 days after the publication of a proposed rule prescribing an energy efficiency standard, make a determination of the impact, if any, from any lessening of competition likely to result from such standard and transmit such determination in writing to the Secretary, together with an analysis of the nature and extent of such impact. Any such determination and analysis shall be published by the Secretary in the Federal Register.

"(e)(1) Subject to paragraph (2), the Secretary may, on application of any manufacturer, exempt such manufacturer from all or part of the requirements of any rule prescribing an energy efficiency standard under this section for any period which does not extend beyond the date which is 24 months after the date such rule is prescribed, if the Secretary finds that the annual gross revenues to such manufacturer for the preceding 12-month period from all its operations (including the manufacture and sale of covered products) does not exceed $8,000,000. In making such finding in the case of any manufacturer, the Secretary shall take into account the annual gross revenues of any other person who controls, is controlled by, or is under common control with, such manufacturer.

"(2) The Secretary may not exercise the authority granted under paragraph (1) with respect to any type (or class) of covered product subject to an energy efficiency standard established under this section unless he makes a finding, after obtaining the written views of the Attorney General, that a failure to allow an exemption under paragraph (1) would likely result in a lessening of competition.

"(f)(1) A rule prescribing an energy efficiency standard for a type (or class) of covered products shall specify a level of energy efficiency higher or lower than that which applies (or would apply) for such type (or class) for any group of covered products which have the same function or intended use, if the Secretary, in his discretion, determines that covered products within such group—

"(A) consume a different kind of energy from that consumed by other covered products within such type (or class), or

"(B) have a capacity or other performance-related feature which other products within such type (or class) do not have,

justifying a higher or lower standard from that which applies (or will apply) to other products within such type (or class). In determining under this paragraph whether a performance-related feature justifies the establishment of a higher or lower standard, the Secretary shall consider such factors as the utility to the consumer of such a feature, and such other factors as he deems appropriate.

"(2) Any rule prescribing a higher or lower level of energy efficiency under paragraph (1) shall include an explanation of the basis on which such higher or lower level was established.

"(g) In prescribing energy efficiency standards under this section, the Secretary shall give priority to the establishment of energy efficiency standards for types of products (or classes thereof) specified in paragraphs (1), (2), (4), (5), (6), (7), (9), (12), and (13) of section 322(a).

Publication in Federal Register.

"(h)(1) Not later than 5 years after prescribing an energy efficiency standard under this section (and from time to time thereafter), the Secretary shall—

"(A) conduct a reevaluation in order to determine whether such standard should be amended in any manner, and

"(B) make, and publish in the Federal Register, such determination.

In conducting such reevaluation, the Secretary shall take into account such information as he deems relevant, including technological developments with respect to the type (or class) of covered products involved, and the economic impact of the standard.

"(2) If the Secretary determines under paragraph (1) that a standard should be amended, he shall promptly publish a proposed rule incorporating such amendments and afford interested persons an opportunity to present oral and written data, views, and arguments. Such comment period shall not be less than 45 days.

"(i) Any energy efficiency standard shall be prescribed in accordance with the following procedure:

"(1) The Secretary shall (A) publish an advance notice of proposed rulemaking which specifies the type (or class) of covered products to which the rule is likely to apply, and (B) invite interested persons to submit, within 45 days after the date of publication of such advance notice, written presentations of data, views, and arguments relevant to establishing such an energy efficiency standard.

"(2) An advance notice of proposed rulemaking under paragraph (1) shall be published by the Secretary—

"(A) in the case of types of covered products (or classes thereof) of the types specified in paragraphs (1), (2), (4), (5), (6), (7), (9), (12), and (13) of section 322(a), not later than 30 days after a test procedure with respect to that type of covered products (or class thereof) has been prescribed, or 45 days after the date of the enactment of this subparagraph, whichever is later; and

"(B) in the case of types of covered products (or classes thereof) specified in paragraphs (3), (8), (10), and (11), of section 322(a), not later than 30 days after a test procedure with respect to that type (or class) of covered products has been prescribed, or one year after the date of the enactment of this subparagraph, whichever is later.

"(3) A proposed rule which prescribes an energy efficiency standard for a type (or class) of covered products may not be published earlier than 60 days after the date of publication of advance notice of proposed rulemaking for such type (or class). The Secretary shall determine the maximum improvement in energy efficiency that is technologically feasible for each type (or class) of covered products in prescribing such standard and if such standard is not designed to achieve such efficiency, the Secretary shall state in the proposed rule the reasons therefor. After the publication of such proposed rulemaking, the Secretary shall afford interested persons, in accordance with section 336, an opportunity to present oral and written comments (including an opportunity to question those who make such presentations, as provided in such section) on matters relating to such proposed rule, including—

"(A) whether the standard to be prescribed is economically justified (taking into account those factors which the Secretary must consider under subsection (d)),

"(B) whether the standard will achieve the maximum improvement in energy efficiency which is technologically feasible,

"(C) if the standard will not achieve such improvement, whether the reasons for not achieving such improvement are adequate, and

"(D) whether such rule should prescribe a level of energy efficiency which is higher or lower than that which would otherwise apply in the case of any group of products within the type (or class) to be subject to such standard.

"(4) A rule prescribing an energy efficiency standard for a type (or class) of covered products may not be published earlier than 60 days after the date of publication of the proposed rule under this section for such type (or class). Such rule shall be published as soon as practicable after such 60-day period, but in no event later than 2 years after publication of the advance notice. Such rule shall take effect not earlier than 180 days after the date of its publication in the Federal Register. Such rule (or any amendment thereto) shall not apply to any covered products the manufacture of which was completed before the effective date of the rule or amendment as the case may be.

Publication in Federal Register.

"(j) An energy efficiency standard prescribed under this section shall include test procedures prescribed in accordance with section 323, and may include any requirement which the Secretary determines is necessary to assure that each covered product to which such standard applies meets the required minimum level of energy efficiency specified in such standard.".

SEC. 423. ASSESSMENT OF CIVIL PENALTIES.

Section 333 of the Energy Policy and Conservation Act (42 U.S.C. 6303) is amended by adding at the end thereof the following new subsection:

"(d)(1) Before issuing an order assessing a civil penalty against any person under this section, the Secretary shall provide to such person notice of the proposed penalty. Such notice shall inform such person of his opportunity to elect in writing within 30 days after the date of receipt of such notice to have the procedures of paragraph (3) (in lieu of those of paragraph (2)) apply with respect to such assessment.

"(2)(A) Unless an election is made within 30 calendar days after receipt of notice under paragraph (1) to have paragraph (3) apply with respect to such penalty, the Secretary shall assess the penalty, by order, after a determination of violation has been made on the record after an opportunity for an agency hearing pursuant to section 554 of title 5, United States Code, before an administrative law judge appointed under section 3105 of such title 5. Such assessment order shall include the administrative law judge's findings and the basis for such assessment.

"(B) Any person against whom a penalty is assessed under this paragraph may, within 60 calendar days after the date of the order of the Secretary assessing such penalty, institute an action in the United States court of appeals for the appropriate judicial circuit for judicial review of such order in accordance with chapter 7 of title 5, United States Code. The court shall have jurisdiction to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary, or the court may remand the proceeding to the Secretary for such further action as the court may direct.

"(3)(A) In the case of any civil penalty with respect to which the procedures of this paragraph have been elected, the Secretary shall promptly assess such penalty, by order, after the date of the receipt of the notice under paragraph (1) of the proposed penalty.

"(B) If the civil penalty has not been paid within 60 calendar days after the assessment order has been made under subparagraph (A), the Secretary shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to review de novo the law and the facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.

"(C) Any election to have this paragraph apply may not be revoked except with the consent of the Secretary.

"(4) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order under paragraph (2), or after the appropriate district court has entered final judgment in favor of the Secretary under paragraph (3), the Secretary shall institute an action to recover the amount of such penalty in any appropriate district court of the United States. In such action, the validity and appropriateness of such final assessment order or judgment shall not be subject to review.

"(5)(A) Notwithstanding the provisions of title 28, United States Code, or section 502(c) of the Department of Energy Organization Act, the Secretary shall be represented by the general counsel of the Department of Energy (or any attorney or attorneys within the Department of Energy designated by the Secretary) who shall supervise, conduct, and argue any civil litigation to which paragraph (3) of this subsection applies (including any related collection action under paragraph (4)) in a court of the United States or in any other court, except the Supreme Court. However, the Secretary or the general counsel shall consult with the Attorney General concerning such litigation, and the Attorney General shall provide, on request, such assistance in the conduct of such litigation as may be appropriate. 42 USC 7192.

"(B) Subject to the provisions of section 502(c) of the Department of Energy Organization Act, the Secretary shall be represented by the Attorney General, or the Solicitor General, as appropriate, in actions under this subsection, except to the extent provided in subparagraph (A) of this paragraph.

"(C) Section 402(d) of the Department of Energy Organization Act shall not apply with respect to the functions of the Secretary under this subsection. 42 USC 7172.

"(6) For purposes of applying the preceding provisions of this subsection in the case of the assessment of a penalty by the Commission for a violation of paragraphs (1) and (2) of section 332, references in such provisions to 'Secretary' and 'Department of Energy' shall be considered to be references to the 'Commission'."

SEC. 424. EFFECT OF STANDARDS ON OTHER LAWS.

(a) Interim Preemption.—Section 327(b) of the Energy Policy and Conservation Act (42 U.S.C. 6297(b)) is amended to read as follows:

"(b)(1) If a State regulation is prescribed which establishes an energy efficiency standard or other requirement respecting energy use or energy efficiency of a type (or class) of covered products and which is not superseded by subsection (a)(2) or (b)(2), then any person subject to such regulation may file a petition with the Secretary requesting that the Secretary prescribe a rule under this subsection which supersedes such State regulation in whole or in part. The Secretary, after consideration of the petition, the views of the affected State, and the comments of any interested person, shall issue such requested rule only if the Secretary finds (and publishes such finding) that—

"(A) there is no significant State or local interest sufficient to justify such State regulation; and

"(B) such State regulation unduly burdens interstate commerce.

"(2) If a State regulation is prescribed after January 1, 1978, which establishes an energy efficiency standard or other requirement respecting energy use or energy efficiency of a type (or class) of covered products and which is not superseded by subsection (a)(2), then such State regulation is superseded. Notwithstanding the requirement of the preceding sentence, such State may file a petition with the Secretary requesting a rule that such State regulation is not superseded pursuant to this paragraph. The Secretary, after consideration of the petition and the comments of interested persons, shall prescribe such rule only if he finds there is a significant State or local interest to justify such State regulations; except that the Secretary may not prescribe such rule if he finds that such State regulation would unduly burden interstate commerce.

"(3) Notwithstanding subsection (a)(2), any State prescribing a State regulation which provides an energy efficiency standard or other requirement respecting energy use or energy efficiency for any type (or class) of covered products for which a Federal energy efficiency standard is applicable may file a petition with the Secretary requesting a rule that such regulation not be superseded. The Secretary, after consideration of the petition and the comments of interested persons, shall prescribe such rule only if he finds (and publishes such finding) that—

"(A) there is a significant State or local interest to justify such State regulation; and

"(B) such State regulation contains a more stringent energy efficiency standard than such Federal standard;

except that the Secretary may not prescribe such rule if he finds that such State regulation would unduly burden interstate commerce.

Publication in Federal Register.

"(4) The Secretary shall give notice of any petition filed under this subsection and afford interested persons a reasonable opportunity to make written comments thereon. The Secretary, within 6 months after the date any petition is filed, shall deny such petition or prescribe the requested rule, except that the Secretary may publish a notice in the Federal Register extending such period to a date certain. Such notice shall include the reasons for delay. In the case of any denial of a petition under this subsection, the Secretary shall publish in the Federal Register notice of such denial and the reasons for such denial.

"(5) The requirement of paragraph (2) shall not continue in effect after July 1, 1980, in the case of any type (or class) of covered products specified in paragraphs (1) through (13) of section 322(a).".

"(2) submit a report to the Congress on the results of such evaluation, together with such recommendations for legislation as he considers appropriate.

"(b)(1) The Secretary may conduct an evaluation of any type of industrial equipment (other than electric motors or pumps) to—

"(A) determine standard classifications with respect to size, function, type of energy used, method of manufacture, or other factors which may be appropriate for purposes of this part; and

"(B) determine the practicability and effects of requiring all or part of the classes determined under subparagraph (A) to meet performance standards establishing minimum levels of energy efficiency.

"(2) After the completion of an evaluation under paragraph (1), the Secretary shall submit to the Congress a report on such evaluation, together with such recommendations for legislation as he considers appropriate.

"(c)(1) In conducting an evaluation under subsection (a) or (b), the Secretary shall, with respect to equipment covered by the evaluation—

"TEST PROCEDURES

42 USC 6314.

"SEC. 343. (a)(1) If the Secretary has conducted an evaluation of a class of covered equipment under section 342, he may prescribe test procedures for such class in accordance with the following provisions of this section.

"(2) Test procedures prescribed in accordance with this section shall be reasonably designed to produce test results which reflect energy efficiency, energy use, and estimated operating costs of a type of industrial equipment (or class thereof) during a representative average use cycle (as determined by the Secretary), and shall not be unduly burdensome to conduct.

"(3) If the test procedure is a procedure for determining estimated annual operating costs, such procedure shall provide that such costs shall be calculated from measurements of energy use in a representative average-use cycle (as determined by the Secretary), and from representative average unit costs of the energy needed to operate such equipment during such cycle. The Secretary shall provide information to manufacturers of covered equipment respecting representative average unit costs of energy.

Publication in Federal Register.

"(b) Before prescribing any final test procedures under this section, the Secretary shall—

"(1) publish proposed test procedures in the Federal Register; and

"(2) afford interested persons an opportunity (of not less than 45 days' duration) to present oral and written data, views, and arguments on the proposed test procedures.

"(d)(1) The Secretary shall, not later than 3 years after the date of prescribing a test procedure under this section (and from time to time thereafter), conduct a reevaluation of such procedure and, on the basis of such reevaluation, shall determine if such test procedure should be amended. In conducting such reevaluation, the Secretary shall take into account such information as he deems relevant, including technological developments relating to the energy efficiency of the type (or class) of covered equipment involved.

"(2) If the Secretary determines under paragraph (1) that a test procedure should be amended, he shall promptly publish in the Federal Register proposed test procedures incorporating such amendments and afford interested persons an opportunity to present oral and written data, views, and arguments. "(d)(1) Effective 180 days after a test procedure rule applicable to any covered equipment is prescribed under this section, no manufacturer, distributor, retailer, or private labeler may make any representation—

"(A) in writing (including any representation on a label), or

"(B) in any broadcast advertisement,

respecting the energy consumption of such equipment or cost of energy consumed by such equipment, unless such equipment has been tested in accordance with such test procedure and such representation fairly discloses the results of such testing.

"(2) On the petition of any manufacturer, distributor, retailer, or private labeler, filed not later than the 60th day before the expiration of the period involved, the 180-day period referred to in paragraph (1) may be extended by the Secretary with respect to the petitioner (but in no event for more than an additional 180 days) if he finds that the requirements of paragraph (1) would impose on such petitioner an undue hardship (as determined by the Secretary).

"(e) The Secretary may direct the National Bureau of Standards to provide such assistance as the Secretary deems necessary to carry out his responsibilities under this part, including the development of test procedures.

"LABELING REQUIREMENTS

"SEC. 344. (a) If the Secretary has prescribed test procedures under section 343 for any class of covered equipment, he may prescribe a labeling rule applicable to such class of covered equipment in accordance with the following provisions of this section.

Rule.
42 USC 6315.

"(b) A labeling rule prescribed in accordance with this section shall require that each article of covered equipment which is in the type (or class) of industrial equipment to which such rule applies, discloses by label, the energy efficiency of such article, determined in accordance with test procedures under section 343. Such rule may also require that such disclosure include the estimated operating costs and energy use, determined in accordance with test procedures under section 343.

"(c) A rule prescribed in accordance with this section may include such requirements as the Secretary determines are likely to assist purchasers in making purchasing decisions, including—

"(1) requirements and directions for display of any label,

"(2) requirements for including on any label, or separately attaching to, or shipping with, the covered equipment, such additional information relating to energy efficiency, energy use, and other measures of energy consumption, including instructions for the maintenance, use, or repair of the covered equipment, as the Secretary determines necessary to provide adequate information to purchasers, and

"(3) requirements that printed matter which is displayed or distributed at the point of sale of such equipment shall disclose such information as may be required under this section to be disclosed on the label of such equipment.

"(d) Before prescribing any labeling rules for a type (or class) of covered equipment, the Secretary shall consult with, and obtain the written views of, the Federal Trade Commission with respect to such rules. The Federal Trade Commission shall promptly provide such written views upon the request of the Secretary.

"(e)(1) Before prescribing any labeling rules under this section, the Secretary shall—

Publication in Federal Register.

"(A) publish proposed labeling rules in the Federal Register, and

"(B) afford interested persons an opportunity (of not less than 45 days' duration) to present oral and written data, views, and arguments on the proposed rules.

"(2) A labeling rule prescribed under this section shall take effect not later than 3 months after the date of prescription of such rule, except that such rules may take effect not later than 6 months after such date of prescription if the Secretary determines that such extension is necessary to allow persons subject to such rules adequate time to come into compliance with such rules.

"(f) The Secretary shall not promulgate labeling rules for any class of industrial equipment unless he has determined that—

"(1) labeling in accordance with this section is technologically and economically feasible with respect to such class;

"(2) significant energy savings will likely result from such labeling; and

"(3) labeling in accordance with this section is likely to assist consumers in making purchasing decisions.

"(g) When requested by the Secretary, any manufacturer of industrial equipment to which a rule under this section applies shall supply at the manufacturer's expense a reasonable number of articles of such covered equipment to any laboratory or testing facility designated by the Secretary, or permit representatives of such laboratory or facility to test such equipment at the site where it is located, for purposes of ascertaining whether the information set out on the label, or otherwise required to be disclosed, as required under this section, is accurate. Any reasonable charge levied by the laboratory or facility for such testing shall be borne by the United States, if and to the extent provided in appropriations Acts.

"(h) A labeling rule under this section shall not apply to any article of covered equipment the manufacture of which was completed before the effective date of such rule.

"(i) Until such time as labeling rules under this section take effect with respect to a type (or class) of covered equipment, this section shall not affect any authority of the Commission under the Federal Trade Commission Act to require labeling with respect to energy consumption of such type (or class) of covered equipment. 15 USC 58.

"ADMINISTRATION, PENALTIES, AND ENFORCEMENT

42 USC 6316. "SEC. 345. (a) The provisions of section 326 (a), (b), and (d) and sections 328 through 336 shall apply with respect to this part to the same extent and in the same manner as they apply in part B. In applying such provisions for the purposes of this part—

SEC. 461. USE OF RECOVERED MATERIALS.

(a) FINDINGS.—The Congress finds that—

42 USC 6344a note.

(1) significant amounts of industrial energy and other scarce natural resources are conserved in certain major energy-consuming industries where recovered materials are utilized in their manufacturing operations;

(2) substantial additional volumes of industrial energy and other scarce natural resources will be conserved in future years if such major energy-consuming industries increase to the maximum feasible extent utilization of recovered materials in their manufacturing operations;

(3) millions of tons of recoverable materials which could be used by such industries are needlessly wasted and buried each year at great cost to State and local governments, while technology and methods exist whereby those materials could readily be made available for utilization; and

(4) the recovery and utilization of such recovered materials can substantially reduce the dependence of the United States on foreign natural resources and reduce the growing deficit in its balance of payments.

(b) PURPOSES.—The purposes of this subtitle are to conserve valuable energy and scarce natural resources, promote the national security, and protect the environment by—

(1) directing that targets for increased industrial utilization of recovered materials be established for certain major energy-consuming industries;

(2) creating procedures whereby such industries may cooperate with the Federal Government in the establishment and achievement of such targets; and

(3) providing incentives for increased industrial utilization of energy-saving recovered materials in such major energy-consuming industries.

(c) TARGETS FOR USE OF RECOVERED MATERIALS.—Part E of title III of the Energy Policy and Conservation Act, as redesignated by section 441(b)(2) of this Act, is amended by inserting the following new section after section 374:

"TARGETS FOR USE OF RECOVERED MATERIALS

"Energy-saving recovered materials."

"(b) Within one year after the date of the enactment of this section, the Secretary shall set targets for increased utilization of energy-saving recovered materials for each of the following industries: the metals and metal products industries, the paper and allied products industries, the textile mill products industry, and the rubber industry. Such targets—

Publication in Federal Register.

"(1) shall be based on the best available information,

"(2) shall be established at levels which represent the maximum feasible increase in utilization of energy-saving recovered materials each such industry can achieve progressively by January 1, 1987, and

"(3) shall be published in the Federal Register, together with a statement of the basis and justification for such targets.

"(c) In establishing targets under subsection (b), the Secretary shall consult with the Administrator of the Environmental Protection Agency and with each of the major industries subject to this section, and shall consider—

"(1) the technological and economic ability of each such industry progressively to increase its utilization of energy-saving recovered materials by January 1, 1987, and

"(2) all actions taken or which before such date could be taken by each such industry, or by Federal, State, or local governments to increase that industry's utilization of energy-saving recovered materials.

"(d) Any target established under subsection (b) may be modified if the Secretary—

"(1) determines that such target cannot reasonably be attained, or that it should require greater use of energy-saving recovered materials, and

"(2) publishes such determination in the Federal Register, together with a basis and justification for such modification.

Report, submission.

"(e) Within each of the industries subject to this section, the Secretary shall notify each corporation which is a major energy consumer (within the meaning of section 373) of the requirements of this section. Not later than January 1, 1979, the chief executive officer of each such corporation (or individual designated by such officer) shall include in his report to the Secretary under section 375, or if section 376(g) applies, prepare and transmit a report which includes, a statement of the volume of energy-saving recovered materials that such corporation is using in each of its manufacturing operations located in the United States and what plans, if any, the corporation has to increase the utilization of such materials in those operations in each of the next ten years. Not later than January 1, 1980, and annually thereafter, each such corporation shall include in such report a statement of the progress it has made to increase its utilization of energy-saving recovered materials to reach targets established under this section by the Secretary for its industry. Such reports shall contain such information as the Secretary determines is necessary to measure progress toward meeting the industry targets established under this section.

"(f) The Secretary shall include in his annual report under section 375(e) a report on the industrial energy and natural resource conservation and recovery program established under this section. Each such report shall include—

"(1) a summary of the progress made toward the achievement of targets set by the Secretary under this section; and

"(2) a summary of the progress made toward meeting such targets since the date of publication of the previous report, if any.".

(d) Technical Amendments.—(1) Section 376 of such Act is amended by— 42 USC 6346.

(B) criteria by which proposals under subparagraph (A) will be evaluated, which criteria shall provide for the inclusion in each proposal of a complete analysis of the present value, as determined by the Secretary, of the costs and benefits of the proposal to the Federal agency, and for the demonstration, to the maximum extent practicable, of innovative and diverse applications to a variety of types of Federal buildings of solar heating and solar heating and cooling technology, and for location of demonstration projects in areas where a private sector market for solar energy equipment is likely to develop;

(2) evaluate in writing each such proposal pursuant to the criteria promulgated pursuant to paragraph (1)(B), and make such evaluation available to the agency and, upon request, to any person;

(3) provide technical and financial assistance by interagency agreement for implementing a proposal evaluated under paragraph (2) and approved by the Secretary; except that such assistance shall be limited to the design, acquisition, construction, and installation of solar energy equipment;

(4) provide, by rule, that Federal agencies report to the Secretary periodically such information as they acquire respecting maintenance and operation of solar energy equipment for which assistance is provided under paragraph (3);

(5) require that a life cycle cost analysis in accordance with part 3 be done for any Federal building for which a proposal is submitted under this section and the results of such analysis be included in such proposal; and

(6) if solar energy equipment for which assistance is to be provided under paragraph (3) is not the minimum life-cycle cost alternative, require the Federal agency involved to submit a report to the Secretary stating the amount by which the life-cycle cost of such equipment exceeds the minimum life-cycle cost.

(b) CONTENTS OF PROPOSALS.—Proposals under paragraph (1)(A) of subsection (a) shall include a list of the specific Federal buildings proposed to be provided with solar energy equipment, the funds necessary for the acquisition and installation of such equipment, the proposed implementation schedule, maintenance costs, the estimated savings in fossil fuels and electricity, the estimated payback time, and such other information as may be required by the Secretary.

PART 3—ENERGY CONSERVATION AND SOLAR ENERGY IN FEDERAL BUILDINGS

SEC. 541. FINDINGS.

42 USC 8251.

The Congress finds that—

(1) there is an urgent need to promote the design, construction, and operation of buildings to conserve and make more efficient use of fuels and energy;

(2) a shift from dependence on nonrenewable to renewable energy sources would have a beneficial effect on the Nation's overall energy supply;

(3) programs for energy conservation in buildings, along with the use of renewable energy sources, would stimulate industries and create new job opportunities for supply and servicing new or improved energy-conserving and energy-supplying systems and equipment;

(4) in the construction or renovation of buildings, the cost of energy consumed over the life of such buildings must be considered as well as the initial cost of such construction or renovation; and

(5) the Federal Government, the largest energy consumer in the United States, should be in the forefront in implementing energy conservation measures and in promoting the use of solar heating and cooling and other renewable energy sources.

SEC. 542. POLICY.

42 USC 8252.

It is the policy of the United States that the Federal Government has the opportunity and responsibility, with the participation of industry, to further develop, demonstrate, and promote the use of energy conservation, solar heating and cooling, and other renewable energy sources in Federal buildings.

SEC. 543. PURPOSE.

42 USC 8253.

It is the purpose of this part to promote—

(1) the use of commonly accepted methods to establish and compare the life cycle costs of operating Federal buildings, and the life cycle fuel and energy requirements of such buildings, with and without special features for energy conservation, and

(2) the use of solar heating and cooling and other renewable energy sources in Federal buildings.

SEC. 544. DEFINITIONS.

42 USC 8254.

For purposes of this part—

(1) The term "Secretary" means the Secretary of Energy.

(2) The term "life cycle cost" means the total costs of owning, operating, and maintaining a building over its useful life, including its fuel and energy costs, determined on the basis of a system-

atic evaluation and comparison of alternative building systems; except that in the case of leased buildings, the life cycle cost shall be calculated over the effective remaining term of the lease.

(3) The term "preliminary energy audit" means a determination of the energy consumption characteristics of an existing Federal building, including the size, type, rate of energy consumption and major energy using systems of such building and the climate characterizing the region where such building is located.

(4) The term "energy survey" means a procedure to be used in determining energy conservation and cost savings likely to result from appropriate energy conserving maintenance and operating procedures and modifications, including the purchase and installation of particular energy-related fixtures to a Federal building.

(5) The term "Federal building" means any building, structure, or facility which is constructed, renovated or leased or purchased in whole or in part for use by the United States, and which includes a heating system, a cooling system, or both.

(6) The term "construction" means construction and substantial reconstruction or renovation, as determined under rules prescribed by the Secretary.

(7) The term "energy performance target" means a rate of energy consumption which is the minimum practically achievable, taking into account life-cycle cost, by adjusting maintenance and operating procedures, or by modifying a Federal building's equipment or structure, or both.

SEC. 545. ESTABLISHMENT AND USE OF LIFE CYCLE COST METHODS.

42 USC 8255.

(a) Establishment of Life Cycle Cost Methods.—The Secretary, in consultation with the Director of the Office of Management and Budget, the Director of the National Bureau of Standards, and the Administrator of the General Services Administration, shall—

(1) establish practical and effective methods for estimating and comparing life cycle costs for Federal buildings; and

(2) develop and prescribe the procedures to be followed in applying and implementing the methods so established and in conducting preliminary energy audits required by section 547.

(b) Use of Life Cycle Costs.—All new Federal buildings shall be life cycle cost effective as determined in accordance with the methods established under subsection (a). In the design of new Federal buildings, cost evaluation shall be made on the basis of life cycle cost rather than initial cost.

(c) Use in Non-Federal Structures.—The Secretary shall make available to the public information on the use of life cycle cost methods in the construction of buildings, structures, and facilities in all segments of the economy.

SEC. 546. ENERGY PERFORMANCE TARGETS FOR FEDERAL BUILDINGS.

42 USC 8256.

The Secretary, in consultation with the Administrator of the General Services Administration, the Director of the National Bureau of Standards, and the Director of the Office of Management and Budget, shall establish and publish energy performance targets for Federal buildings, and shall take such actions as may be necessary or appropriate to promote to the maximum extent practicable achievement of such targets by Federal buildings. The performance targets established under the preceding sentence shall be compatible with energy conservation performance standards adopted or developed by the Secretary of Housing and Urban Development for buildings.

SEC. 547. ENERGY AUDITS AND RETROFITTING OF EXISTING FEDERAL BUILDINGS.

(a) AUDITS OF BUILDINGS WITH 30,000 OR MORE SQUARE FEET.—As soon as possible after the date of the enactment of this part, each Federal agency shall conduct, to the maximum extent feasible, a preliminary energy audit, of all Federal buildings under its jurisdiction, occupancy, or control which contain 30,000 or more square feet of floor space, and shall furnish the results of such audit to the Secretary. The Secretary shall submit to the Congress a full report on all preliminary energy audits conducted under this subsection no later than August 15, 1979.

42 USC 8257.

Report to Congress.

(b) AUDITS OF FEDERAL BUILDINGS WITH 1,000 OR MORE BUT LESS THAN 30,000 SQUARE FEET.—As soon as possible after the completion of the preliminary energy audits required under subsection (a) (and concurrently with such audits to the maximum extent feasible in the case of any agency), each Federal agency shall conduct a preliminary energy audit of all Federal buildings under its jurisdiction, occupancy, or control which contain 1,000 or more but less than 30,000 square feet of floor space, and shall furnish the results of such audit to the Secretary. The Secretary shall submit to the Congress a full report on all preliminary energy audits conducted under this subsection no later than August 15, 1980.

(c) RETROFIT OF FEDERAL BUILDINGS.—(1) Each Federal agency shall, in accordance with this subsection, select from each preliminary energy audit conducted by such agency under subsections (a) and (b) appropriate Federal buildings under its jurisdiction, occupancy, or control for retrofit measures to improve their energy efficiency in general and to minimize their life cycle cost. Such measures shall include, without being limited to, energy conservation measures, measures involving solar technology and other renewable energy resources, and any maintenance and operating procedures and particular energy-related modifications determined appropriate by an energy survey. In selecting the measures to be applied, Federal agencies shall give priority to changes in maintenance and operating procedures over measures requiring substantial structural modification or the installation of equipment.

(2) At least 1 percent of the total gross square floor footage contained in all Federal buildings which are under the jurisdiction, occupancy, or control of Federal agencies, and which are included in a preliminary energy audit conducted by such agencies under subsection (a) and (b) shall be retrofitted by such agencies under paragraph (1) pursuant to actions taken or arrangements made by such agencies during the first full fiscal year beginning after the date of the enactment of this part; and an additional percentage of such total gross square footage equal to at least 1 percentage point higher than the percentage applicable under this paragraph in the preceding year shall be so retrofitted pursuant to actions taken or arrangements made during the second and third such fiscal years, with a view to achieving full compliance with paragraph (3) by the time specified therein.

(3) On or before January 1, 1990, all Federal buildings which are under the jurisdiction, occupancy, or control of any Federal agency shall be the subject of such retrofit measures under paragraph (1) as will assure their minimum life cycle costs.

SEC. 548. LEASED FEDERAL BUILDINGS.

42 USC 8258.

In leasing buildings for its own use or that of another Federal agency, each Federal agency shall give appropriate preference to buildings which use solar heating and cooling equipment or other renewable energy sources or which otherwise minimize life cycle costs.

42 USC 8259.

Each Federal agency, in the preparation and submission of its requests to the Congress for appropriations, and authorizations for appropriations, for any fiscal year beginning after the date of the enactment of this Act, shall specifically set forth and identify in a separate line item or items—

(1) the funds requested for retrofit measures to be undertaken under this part; and

(2) the portion of any other funds requested which represent to the maximum extent practicable the initial costs of construction or renovation attributable to capital equipment for energy conservation or the utilization of solar energy and other renewable energy sources.

SEC. 550. REPORTS.

42 USC 8260.

Each Federal agency shall periodically furnish the Secretary with full and complete information on its activities under this part, and the Secretary shall annually submit to the Congress a comprehensive report on all activities under this part and on the progress made toward achievement of the objectives of this part.

SEC. 567. SYSTEM EVALUATION AND PURCHASE PROGRAM.

42 USC 8276.

(a) Program.—The Secretary shall establish, within 60 days after the date of the enactment of this part, a photovoltaic systems evaluation and purchase program to provide such systems as are required by the Federal agencies to carry out this part. In acquiring photovoltaic solar electric systems under this part, the Secretary shall insure that such systems reflect to the maximum extent practicable the most advanced and reliable technologies and shall schedule purchases in a manner which will stimulate the early development of a permanent low-cost private photovoltaic production capability in the United States, and to stimulate the private sector market for photovoltaic power systems. The Secretary shall, subject to the availability of appropriated funds, procure not more than 30 megawatts of photovoltaic solar electric systems during fiscal years ending September 30, 1979, September 30, 1980, and September 30, 1981.

SEC. 102. FINDINGS; STATEMENT OF PURPOSES.

(a) Findings.—The Congress finds that— 42 USC 8301.

(1) the protection of public health and welfare, the preservation of national security, and the regulation of interstate commerce require the establishment of a program for the expended use, consistent with applicable environmental requirements, of coal and other alternate fuels as primary energy sources for existing and new electric powerplants and major fuel-burning installations; and

(2) the purposes of this Act are furthered in cases in which coal or other alternate fuels are used by electric powerplants and major fuel-burning installations, consistent with applicable environmental requirements, as primary energy sources in lieu of natural gas or petroleum.

(b) Statement of Purposes.—The purpose of this Act, which shall be carried out in a manner consistent with applicable environmental requirements, are—

(1) to reduce the importation of petroleum and increase the Nation's capability to use indigenous energy resources of the United States to the extent such reduction and use further the goal of national energy self-sufficiency and otherwise are in the best interests of the United States;

(2) to conserve natural gas and petroleum for uses, other than electric utility or other industrial or commercial generation of steam or electricity, for which there are no feasible alternative fuels or raw material substitutes;

(3) to encourage and foster the greater use of coal and other alternate fuels, in lieu of natural gas and petroleum, as a primary energy source;

(4) to the extent permitted by this Act, to encourage the use of synthetic gas derived from coal or other alternate fuels;

(5) to encourage the rehabilitation and upgrading of railroad service and equipment necessary to transport coal to regions or States which can use coal in greater quantities;

(6) to prohibit or, as appropriate, minimize the use of natural gas and petroleum as a primary energy source and to conserve such gas and petroleum for the benefit of present and future generations;

(7) to encourage the modernization or replacement of existing and new electric powerplants and major fuel-burning installations which utilize natural gas or petroleum as a primary energy source and which cannot utilize coal or other alternate fuels where to do so furthers the conservation of natural gas and petroleum;

(8) to require that existing and new electric powerplants and major fuel-burning installations which utilize natural gas, petro-

leum, or coal or other alternate fuels pursuant to this Act comply with applicable environmental requirements;

(9) to insure that all Federal agencies utilize their authorities fully in furtherance of the purposes of this Act by carrying out programs designed to prohibit or discourage the use of natural gas and petroleum as a primary energy source and by taking such actions as lie within their authorities to maximize the efficient use of energy and conserve natural gas and petroleum in programs funded or carried out by such agencies;

(10) to insure that adequate supplies of natural gas are available for essential agricultural uses (including crop drying, seed drying, irrigation, fertilizer production, and production of essential fertilizer ingredients for such uses);

(11) to reduce the vulnerability of the United States to energy supply interruptions; and

(12) to regulate interstate commerce.

(2) the provisions of section 301 shall only apply to powerplants situated within the contiguous 48 States and the District of Columbia.

TITLE II—NEW FACILITIES

Subtitle A—Prohibitions

SEC. 201. NEW ELECTRIC POWERPLANTS.

42 USC 8311.

Except to such extent as may be authorized under subtitle B—

(1) natural gas or petroleum shall not be used as a primary energy source in any new electric powerplant; and

(2) no new electric powerplant may be constructed without the capability to use coal or any other alternate fuel as a primary energy source.

SEC. 202. NEW MAJOR FUEL-BURNING INSTALLATIONS.

42 USC 8312.

(a) General Prohibition.—Except to such extent as may be authorized under subtitle B, natural gas or petroleum shall not be used as a primary energy source in a new major fuel-burning installation consisting of a boiler.

(b) Authority of Secretary to Prohibit Nonboilers From Using Natural Gas or Petroleum.—(1) The Secretary may, by rule, prescribe categories (identified in such rules) of new major fuel-burning installations, other than boilers, in which natural gas or petroleum, or both, shall be prohibited from being used as a primary energy source. In identifying categories of new major fuel-burning installations pursuant to this paragraph, the Secretary shall take into account any special circumstances or characteristics of each category of such installations (such as the technical feasibility of burning coal or other alternate fuels and the size or geographic location of such installations). The application of any such final rule in the case of any new major fuel-burning installation subject to such rule shall be stayed pending a resolution (including judicial review) of any petition for an exemption for such installation which is filed with the Secretary not later than 60 days after such final rule is published under section 702(a). Any such final rule shall not apply in the case of any installation with respect to which a comparable prohibition was issued by order (or was proposed but was not issued because it was demonstrated that it could qualify for an exemption under subtitle B).

Final rule, application.

Post, p. 3331.

(2)(A) The Secretary may, by order, prohibit the use of natural gas or petroleum, or both, as a primary energy source in any new major fuel-burning installation, other than a boiler, if such installation is not, at the time of the issuance of the proposed order, in a category identified in a final rule issued under paragraph (1).

(B) Subject to subpragraph (C), the Secretary shall not issue a final order under this paragraph with respect to any installation if it is demonstrated that there would have been granted an exemption for such installation if such prohibition had been established by rule pursuant to paragraph (1) rather than by order pursuant to this paragraph, except that if a temporary exemption would have been granted, such a final order may be issued but may not take effect until such time as such temporary exemption would have terminated.

(C) In any case in which an order is not issued by reason of subparagraph (B) or in which the effective date of such order is delayed under subparagraph (B), the Secretary shall take such steps as may be necessary to assure the installation involved complies with the same requirements (including provisions of section 214(a)) as would have been applicable if an exemption had been granted based upon the grounds for which the order is not issued or the effective date of which is delayed.

Applicability.

(3) A prohibition under this subsection shall only apply with respect to an installation for which construction or acquisition began on or after the date of the publication under section 701(b) of the proposed rule or order establishing the prohibition. Any installation not subject to such a prohibition because of the preceding sentence shall be considered an existing major fuel-burning installation for purposes of title III.

Post, p. 3329.

Subtitle B—Exemptions

SEC. 211. TEMPORARY EXEMPTIONS.

42 USC 8321.

(a) General Exemption Due to Lack of Alternate Fuel Supply, Site Limitations, or Environmental Requirements.—After consideration of a petition (and comments thereon) for an exemption for a powerplant or installation from one or more of the prohibitions of subtitle A, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that for the period of the proposed exemption, despite diligent good faith efforts—

(1) it is likely that an adequate and reliable supply of coal or other alternate fuel of the quality necessary to conform with design and operational requirements for use as a primary energy source will not be available to such powerplant or installation at a cost (taking into account associated facilities for the transportation and use of such fuel) which, based upon the best practicable estimates, does not substantially exceed the cost, as determined by rule by the Secretary, of using imported petroleum as a primary energy source;

(2) one or more site limitations exist which would ot permit the location or operation of such a powerplant or installation using coal or any other alternate fuel as a primary energy source; or

(3) the prohibitions of section 201 or 202 could not be satisfied without violating applicable environmental requirements.

(b) Temporary Exemption Based Upon Future Use of Synthetic Fuels.—After consideration of a petition (and comments thereon) for an exemption for a powerplant or installation from one or more of the prohibitions of subtitle A, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that—

(1) the petitioner will comply with the prohibitions of subtitle A by the end of the proposed exemption by the use of a synthetic fuel derived from coal or another alternate fuel; and

(2) the petitioner is not able to comply with such prohibitions by the use of such synthetic fuel until the end of the proposed exemption.

Compliance plan, filing and maintenance.

The effectiveness of an exemption under this subsection is conditioned on the petitioner filing and maintaining a compliance plan meeting the requirements of section 214(b).

(c) Temporary Public Interest Exemption.—After consideration of a petition (and comments thereon) for an exemption for a powerplant or installation from one or more of the prohibitions of subtitle A, the Secretary may, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that for the period of the proposed exemption the issuance of such exemption would be in the public interest and would be consistent with the purposes of this Act.

(d) Temporary Exemption for the Use of Petroleum by Certain Installations.—After consideration of a petition (and comments thereon) for an exemption from the prohibition of the use of petroleum under section 202 for an installation with a design capacity of consuming any fuel (or any mixture thereof) at a fuel heat input rate which does not exceed 300 million Btu's per hour, the Secretary may, by order, grant an exemption under this subsection for the use of petroleum if he finds that the petitioner has demonstrated, by the existence of binding contracts or other evidence, including appropriate State construction permits, that he will use coal or another alternate fuel for at least 75 percent of the annual fuel heat input rate upon the expiration of such exemption. For provisions relating to authority to receive, consider and granting (or denying) certain petitons for an exemption under this subsection, see section 902(b).

Post, p. 3349.

(e) Duration of Temporary Exemptions.—(1) Except as provided in paragraph (2), exemptions under this section for any powerplant or installation may not exceed, taking into account any extension or renewal, 5 years.
